#### DO YOU KNOW

That autumn has turned the vine maple a pretty red; that it contrasts nicely with the evergreen woods?

That winter will soon be with us? That it won't amount to much in this mild climate?

That while the days are growing shorter, the years are growing no longer?

That Tillamook bay ought to have a deep sea fishing schooner?

That there's fine fish to be caught for the local and outside markets?

That Saturday night sees lots of country folks in town? That the greater number drive in with their autos and that it doesn't take all night to return home?

That the old "hoss" and carriage day helped out the hotels?

That people used to visit and be more sociable than now?

That the gold \$20 pieces disappeared during the war?

That they don't circulate any more?

That they must be getting awfully tired laying around in the bank vaults?

That the old trade dollar is also a rarity in circulation?

That one can get too much of most anything but money? That one can get even too much salmon?

That when this paper stated that the Coates mill was getting out 18 carloads of lumber daily, it meant weekly?

That you probably are figuring whether it will pay for the taxes? That there is no doubt about its advertising value?

That you must think it out for yourself?

That we all hope that new railroad materializes?

That the Jack salmon is still running?

That the Oregonian says it's nothing but a runty little male?

That there are signs of coming big activity in the lumber business in Oregon?

Dr. Wise will be at his Tillamook office every Monday.

# A continuous stream of power

From the first turn of the motor until the end of the trip, Red Crown gasoline delivers steady, dependable power.

Every gallon of "Red Crown" which goes into your tank insures ready starting, smooth and rapid acceleration and more mileage—a continuous stream of power. That explains the popularity of "Red Crown"—why it is the choice of motorists who know what good gasoline should do.

It pays to look for the Red Crown sign before you fill. You will find that sign at Standard Oil Service Stations, garages, and at other dealers.

## Knives that stay Sharp

The first thing you expect of a good knife is that it will cut well. Blades of Winchester household knives are made of superior steel hardened and tempered by special processes. They stay sharp.

Well-shaped handles make work easier. Secure rivets, tight fitting bolsters and ferrules are other features for better service. For butchering, for slicing meat, for cutting up mince meat there's a Winchester knife to make your work quicker and easier.

Winchester Butcher Knives—Popular sizes and patterns for all uses in the kitchen. Other styles for farmers and butchers.

## Serviceable Winchester Cutlery For Use This Fall

Winchester Cook's Knives—Handy knives for many purposes. Sabatier shaped blade. Strongly riveted handles. Several sizes.

Winchester Shears and Scissors—Blades tempered and ground with uniform exactness. Joints fitted perfectly and set to cut evenly. Designs for comfortable use. Embroidery scissors for cutting the most delicate fabrics. Household shears for anything that comes along.

## Crowning Proof

of the dependability of Studebaker cars is reflected in our diminishing business in service parts.

With approximately 116,000 more Studebaker cars in operation on September 1st, 1921, our parts business the first eight months of this year was 3 per cent less than the same period two years ago.

While our car manufacturing plants operated this year 41 per cent ahead of last year, our service parts manufacturing plant has operated at from one-half to two-thirds of last year.

Studebaker Cars are standing up in service and staying out of repair shops, to a degree unexcelled, we believe, by any cars of whatever price.

|                      | COAST PRICES |
|----------------------|--------------|
| LIGHT SIX            | \$1390       |
| TOURING              | \$1395       |
| 2 PASSENGER ROADSTER | \$1810       |
| COUPE                | \$2130       |
| SEDAN                |              |

THIS IS A STUDEBAKER YEAR

## Prospective Mothers

Proper care of mother when Baby comes is vital to her future health and baby's as well. Each has the right to the very best attention and scientific skill, something that is impossible at home.

But here, at this wonderfully equipped, modern fire-proof maternity home, every care is extended to mother. Graduate nurses, who know and love babies and are specially trained for maternity work, are in constant attendance here day and night. The nurses in charge are graduates from Chicago Lying In Hospital, conducted by Dr. Joseph B. De Lee, America's greatest authority on obstetrics.

Come a week or so before Baby is expected and board at the hospital. The cost is much less than if you remained home under a nurse's care—and worries are eliminated.

All information and pictures of the hospital will be mailed in a plain envelope on request.
