REVERE TIRES & TUBES

The Advantage of Using Revere Tubes

TUBES do not always make the tire. But a poor tube will often help ruin a good tire.

Revere Red Tubes are built of layer upon layer of tough, elastic, quality rubber.

Already they have brought more motorists to a true appreciation of the meaning of tire economy than any other tubes that were ever created.

Children Need Food for Proper Growth

"The bones and muscles cannot be built without suitable materials. The food which does this best and cheapest is MILK. It not only builds, but it protects children from disease. Every child under six years should receive a quart of milk a day, those older the same when it can be afforded. No child can thrive on less than a pint of milk a day."

The above is an extract from Extension Bulletin No. 327 issued by the Oregon Agricultural College. Is your child developing properly?
