WHEN THE WATER IS ROILED The fight is on. The pujddle has to make this city over into a heaven a name with a kick in it. No pink on earth, but hoped to at least clear up the local atmosphere so people |would not be afraid to raise their

country, and even larger papers, do not make public the moral irregularities of the local business men or account of the financial losses that accompany such disclosures. Headlight is in this fight to the finish and does not intend to be prostituted by Mammon Judging from the favorable res

ponses received by this paper, the right-thinking people are in the prepoinderance in this city. The knowl edge of this is encouraging and the Headlight does not intend to break faith with the people of Tillamook However, from some quarters come a few disparaging remarks. During such incidents as these the people quickly classify themselves. There is no sitting on the fence; we must be on one side or the other. The docent people court public knowledge while the guilty flee from publicity as do cockroaches before a light. A movement is now on foot to boycott this paper but the respectable people have refused to subscribe to the idea. This movement was started by certain frightened individuals who hope to put this paper out of business so their own rotteness will not be made public, but we have faith in the people of Tillamook to see through the thin camouflage that cloaks such actions. The results of the boycott are bound to show, that he who runs may read.
