

OREGON WEEKLY

INDUSTRIAL REVIEW

Hood River.—109 cars apples shipped the past week.

Jamath Falls.—\$150,000 appropriated by Congress to fight Pine beetle pests that is destroying forests of Oregon.

Reedsport.—Factory here shipping large output ready-made garage doors.

Baker county tax roll reduced \$10,000.

Linn county game licenses cost \$7,966 in 1921.

Lakeview pushing shorter road to Klamath Falls, to cost \$90,000.

Lincoln county suing for \$90,000 taxes due on spruce timber.

Wendling.—55 men working in logging camp above here.

State narcotics conference paving way for institutions for dopesters.

Portland Telegram to erect three-story home.

Model state farm commission has spent \$53,335 fitting up three farms.

McMinnville college is now Linfield college with a \$250,000 endowment.

Astoria Baptists start work on \$30,000 church.

Canby.—Shacks being moved to make room for two-story concrete building.

Oregon City.—American Legion to erect club house.

Toledo.—Prospect for 1922 very bright; new school to be erected

and equipped at cost of \$27,000; road work will represent expenditure of over \$100,000.

Portland shipped 20,000,000 lbs. wool to Atlantic seaboard by water.

Portland Odd Fellows plan to erect \$200,000 temple.

Jewish order plans \$100,000 educational institution.

Linn county asks that only property owners vote on bond issues.

Multnomah county deficit nearly half a million.

Union Pacific Co. placing orders for \$10,000,000 new freight cars.

Pres. J. D. Brown of Farmers' Union, State Organizer Stallard of Non-Partisan League and M. J. Brown of Oregon City to publish weekly paper in Oregon.

Elkhorn.—Renewed activities in development of Crown Mining and Milling Co. to open up in early spring. Mine to be placed on paying basis.

Eugene.—Local packing company sees bright future; doing \$200,000 business annually.

Salem's fire loss for 1921 was \$152,000.17, the heaviest in 19 years.

One hundred and thirty-three mills reporting to West Coast Lumberman's Assn. for the week ending Jan. 7th, manufactured 66,187,169 feet of lumber; sold 48,434,919 feet; and shipped 59,174,397 feet. Forty per cent of the week's shipments moved by water.

Astoria.—Knights of Pythias to build \$40,000 temple.

Grants Pass.—The Cave Highway now rapidly nearing completion.

COUNTY WANTS BIDS TO CLEAR RIGHT OF WAY FOR ROAD

The county has advertised for bids to clear the right of way between Manhattan and Haddon, on the new beach road to be completed this year. The distance is 3,300 feet. So soon as bids are accepted, and the right of way cleared, the county will begin the work of building the new road to Brighton, which is north of Haddon. With the road completed to Brighton, this beach road should be the popular route to Nehalem, and Seaside, and the addition of this long needed stretch of thoroughfare, will tend to popularize the beach towns to the south of Manhattan, including the later.

HINTS FOR TAXPAYERS FILING INCOME TAX RETURNS

Taxpayers who filed income returns last year need not write for blanks for making their returns this year. The necessary blanks for making 1921 returns will be mailed by Clyde G. Huntley, Collector of Internal Revenue, to every person who filed last year, as soon as these blanks are received from Washington, probably about February 1st.

Don't forget that if you are unmarried and had a net income of \$1,000 or more during the year 1921 you are required to file an income tax return in the office of Clyde G. Huntley, Collector of Internal Revenue, not later than March 15, 1922. Failure to do so makes the delinquent taxpayer liable to heavy penalties. This also applies to single persons claiming exemption as head of a family.

Although the new income tax law increases from \$2,000 to \$2,500 the exemption of a married person whose net income for 1921 aggregated \$2,000 and did not exceed \$5,000, every married person must file an income tax return if his net income was only \$2,000. If the net income of a married person last year was in excess of \$5,000, he is allowed an exemption of only \$2,000. March 15, 1922 is the last day for filing these returns. The law provides heavy penalties for those who fail to file by that time.

"Don't forget to distinguish between net and gross income in making out 1921 income tax returns," advises Clyde G. Huntley, Collector of Internal Revenue. "Every taxpayer who had a net income of \$2,000 or a gross income of \$5,000, regardless of the net income, must file a return. This is very important and the taxpayer must govern himself accordingly or he will be liable to heavy penalties. These returns must be filed not later than March 15, 1922."

FARM REMINDERS

Spring seeding for pasture may be done at this time. A good mixture for well drained lands of western Oregon is English rye grass 6 pounds, Kentucky blue grass 3 pounds, meadow fescue 3 pounds, and white clover 1 pound.—O. A. C. Experiment station.

Letters come to the plant pathology department each year from farmers who have lost their peach crop because of peach leaf curl. This disease can easily be controlled with one thorough spraying with Bordeaux 6-6-50 applied before the buds swell. It is best to choose a bright day in January for this work.—O. A. C. Experiment station.

Eastern Oregon farmers reseeding fields of partially frozen out wheat should use spring varieties as nearly similar to the partial stand as possible. Federation, hard federation, and Baart are good to sow with forty fold, Marquis and even Hybrid 122 may be used in reseeding Turkey red. Hybrid 143 is a good variety to use in reseeding white stubs of the winter habit.—O. A. C. Experiment station.

Fruit trees that are allowed to grow thick and bushy from lack of proper pruning cannot well be thoroughly sprayed. See that the spring pruning leaves the trees thinned out enough to admit an abundance of air and sunlight as this practice will tend to prevent the development of diseases and will make the regular spraying more effective.—O. A. C. Experiment station.

Woolly aphis on fruit trees can best be controlled by spraying with a combination of lime-sulphur and miscible oil applied in late winter. Regular dormant strength lime-sulphur, 12 to 100, is used, to which is added 2 gallons of heavy miscible oil to each 100 gallons of dilute spray. The oil should be diluted with an equal quantity of water, while agitated vigorously. The oil emulsion is then added slowly to the spray mixture when the tank is nearly full and while the water is well agitated. Choose a period of clear settled weather for the application of the spray.

O. A. C. Jerseys, Front

Eight cows, half-sisters sired by Maple Park Chief, an O. A. C. station registered Jersey, have completed their first-calf records with an average yield of 3273 pounds milk and 44.4 pounds butterfat per year at 2 1/2 years of age. The dams of these cows were all sired by Golden Glows Chief and averaged 555.4 pounds of fat at 5 1/2 years. These yields are equivalent on a mature basis to 574.7 pounds fat for the mothers and 603.3 pounds for the daughters—a gain of 7 per cent in one generation.

Fruit Canners Helped

Northwest fruit canners and packers have a chance to attend the first canners school ever offered in the north Pacific district, beginning January 30 and ending February 24. This is a service course designed to take the college horticultural products section, the first and oldest in the United States, to the canner. How to control organisms in fruit and vegetable products, their relation to ripening and preserving, bacteria in food preservation, and other problems fundamental to the canning industry, will be explained in the light of recent investigation by the college experiment station. Adjustment and repair of seaming machines will be in charge of a representative of the American Can company.

Coast Highway Seems Probable

That the route from Dallas to Tillamook may be made a part of the state highway system in the near future is borne out by announcement made by the highway commission this week that it had ordered a survey to be made from the corner of the farm of County Commissioner Ezra E. Hart on the Salt Creek road, and following grades which will cut out several long hills and many dangerous curves on the present road.

Some time ago Chairman Booth, of the highway commission, expressed himself as favorable to including the Salt Creek road in the state's "secondary highway" program. If the new road is built it will not only be a great benefit to Dallas, but will be a great saving to residents of Salem and other valley points in getting to and from the many beaches in Tillamook county.

Every individual who had a net income of \$1,000 or more during 1921, if single, or if married and not living with husband or wife, must file an income tax return with Clyde G. Huntley, Collector of Internal Revenue, not later than March 15, 1922.

McClaren Autocrat Cord Tires

—built for mileage

THE massive tread, sturdy and properly distributed—the McClaren "Mileage Strip", a broad, continuous band of solid rubber running through the center of the tread and entirely around the tire—the Double Grip Groove, preventing skidding and skid wear—all these are special features of the McClaren Autocrat Cord Tire that insure greatest mileage.

True tire economy lies in getting the most miles per dollar of cost. Come in and let us show you how the McClaren Autocrat Cord will give you new tire satisfaction in longer life and more mileage.

BROWN'S SERVICE STATION

The Biggest IMPROVEMENT

Yet Made in Milking Machine

For compactness, simplicity and reliability the Perfection Electric Milker has no equal. You can install it in an hour. Any farm electric light plant runs it. No piping to buy or install, no gas engine to bother with, no line shaft to put up, no belts to buy. Just stretch the wire cable over the cows for the power unit to run on, fasten up the reel for the extension cord, plug into a lamp socket, turn the button and milk. Nothing to get out of order. The test cups, the quality aluminum pail and the "Nature's Way" milking action are the same in the Perfection Electric as in the old reliable Perfection Milker.

The Perfection Electric will save money for you.

Come and see it work.
