Opening Canned Foods

One can not be too careful about the treatment accorded canned foods in the heating process. One woman in a hurried luncheon set a can of salmon in the oven to heat because she could not find time for the longer method of warming it in boiling water.

Another cook who followed directions on a can of snnan haddle, to heat it in a kettle of boiling water for 20 minutes, lifted it from the water and set it for a minute on the hot stove.

Touch of Cold Weather

On Wednesday morning the thermometer registered 29 degrees above zero, which for this mild climate is what might be called mighty cold weather, but shucks! it won't last long—not more than a week or two, if it lasts that long.

Dr. Reedy Boosts Tillamook

The following was taken from the daily Oregonian of the 16th inst. "Tillamook leads the world when it comes to cheese." This is the frank and conscientious opinion of Dr. J. E. Reedy of the Tillamook cattle exchange, who is at the Imperial hotel.

The new income tax law allows the following exemptions: Single person, or married person not living with husband or wife, \$1,000; head of family, or married person living with husband or wife, \$2,500, unless the net income is in excess of \$5,000.

The 1921 income tax law requires that a single person claiming exemption as head of a family must file a return if his net income is \$1,000, or more, notwithstanding the fact that as head of a family, he is entitled to an exemption of \$2,500 as well as \$400 for each dependent under 18 years of age.
