

NATIONAL GUARD COMPANY IS SLATED FOR TILLAMOOK

Oregon derived a net profit of \$119,077 in the operation of its National Guard during the past year, according to an annual financial statement issued by George A. White, Adjutant General of the State. This was accomplished under the joint Army partnership with the Federal Government through which the United States Treasurer distributed in Armory payrolls and Camp pay among Oregonians located in twenty Oregon cities the sum of \$199,052.50, the total cost to the State of administration and upkeep being \$79,975.

This year's profit was nearly four times as much as was derived from the Government's payrolls last year, due to the increase in size of the State service and success in meeting all Government requirements for pay of the Oregon citizen soldiers. In addition to the \$199,052 received in cash the State secured the award of Federal property amounting to \$257,217.29.

Towns receiving bundles of U. S. Treasury checks for drill and camp pay of citizens include Ashland, Medford, Marshfield, Newport, Toledo, Roseburg, Eugene, Albany, Salem, Portland, Independence, Corvallis, Dallas, McMinnville, Silverton, Woodburn and Lebanon.

Companies are now being formed at Cottage Grove, Hood River and Gresham. Companies are planned for other Oregon towns as soon as further appropriations are made, as follows: Astoria, Tillamook, Hillsboro, Forest Grove, Pendleton, La Grande, Baker, Prineville, The Dalles, Bend, Grants Pass and Klamath Falls.

SAND LAKE NEWS

Mr. and Mrs. Theo. Gerdes were called East on business last week to be gone several weeks.

The beautiful weather enticed a few picnickers out on the beach last Sunday. If this weather keeps up the ground hog will have a hard time staying in his hole 'till Feb.

Lester Edwards is putting the finishing touches on his new house. He will be moving into it soon.

Geo. Galloway has returned from an extended trip out in the valley.

Fred Brody repaired his Ford and is carrying the mail in it now.

We hope to have our mail problem arranged more satisfactory in

the near future. As it is, it takes two days to get our mail in from Tillamook and the same time to get it out of Tillamook county. And we are also hoping to get a phone line in from Tillamook now that the right of way on the new road has been cut out. There is a big settlement in here and we will come to the front much farther when we get a few improvements along that line.

Mr. and Mrs. Henry Gerdes took a load of cheese to town last Monday. Jim Thompson is staying a few days at the "Sunset" farm helping Mr. Gerdes.

The Ladies Community Club will meet at Mrs. Eva Weob's on Friday the 27th of this month.

Mrs. F. C. Reynolds spent the day visiting at the Eugene Atkinson home last Saturday. Mrs. Scofield, Mrs. E. Atkinson's sister is in from the valley visiting.

TEST OF TILLAMOOK COWS COSTS GOVERNMENT \$5,717.84

The following letter has been received from Sam B. Foster, Inspector in charge of tuberculin testing for the U. S. Gov't. giving report of Dr. Overhulse's testing in this county:

"There is enclosed herewith a report of the completion of the Federal tuberculin testing project in Tillamook county conducted under the supervision of his office. This inspection includes the tuberculin testing of 12,742 animals, divided in the report according to their relative headings, pure-breds, grades, reactors and suspects. This project has entailed an expenditure for the payment of indemnities on the part of the Federal Government in the amount of \$5,717.84.

The number of reactors (less than 1 percent, presents itself as a comparatively very creditable showing in regard to the bovine health status of the county, and it is hoped that in view of this encouraging outlook that no relaxation will be allowed in the matter of keeping the herds regularly inspected by a competent veterinarian.

The fact should be impressed upon the minds of prospective Tillamook county purchasers the importance of securing stock from sources only where the health status of the cattle is definitely known."

Brownsville in need of a fruit cannery.

TILLAMOOK HAD TWELVE FIRES DURING THE YEAR JUST PAST

Tillamook City had twelve fires and fire alarms during the year just past. The most destructive fire was the one that consumed the big Goodspeed barn, with a loss of \$3,000.

By months they were as follows: January—The Armstrong residence, cause defective flue; losses, \$75.00.

No fires in either February or March.

In April occurred the McGrath fire, loss \$1,000.

May—Fire in Leach meat market, cause, overheated smoke-house; loss \$100. An alarm at the Coates saw-mill, no damage.

June—Albert Craig residence; defective flue; loss \$27. Also incipient blaze at A. M. Ginn residence, caused by sparks falling upon the roof.

July—Fire at Tillamook Tire Co., caused by over-heated vulcanizer. One at Armentrout building, caused by cracked terra-cotta flue; damage, \$10.

August—Electric flat-iron, caused

blaze at Dave Martiny's residence; no loss recorded.

September—Fire at A. D. Smith's in west end of city; smoke house destroyed. Alarm at Gem apartments, caused by ashes deposited on outside of building; damage about \$5.

October—Goodspeed barn in east part of city; barn and contents lost with damage amounting to about \$3,000.

No fires in either November or December.

City Fire Chief Coates, from whom the above records were obtained, states that most of the fires were traceable to defective flues, and which could have been prevented by inspection and carefulness.

The state fire marshal issued orders which took effect July 1, 1921, that houses of 3 or more stories, must provide fire escapes. This applies however, only when the top story is occupied. Another order forbids placing obstructions in aisles in any hall where there is a crowd, during exercises, and applies to persons standing in the aisles, who are deemed an obstruction. Another order is that no one shall

start a fire in a vacant lot, street or alley, without first obtaining a permit from the resident fire chief. All these orders provide penalties and fines. It also forbids the placing of ashes in wooden or other combustible receptacles.

A new feature of the income tax law requires that every person who had a gross income of \$5,000, or more, for 1921, must file a return, regardless of whether or not that sum yielded him a cent of profit. To illustrate: "A" received from his

business and other sources \$5,000 during the year 1921, but his deductible expenses for the year aggregated \$4,500. His net income being less than \$1,000 "A" would not have to pay an income tax. However, he is required under the law to file an income tax return if his gross income was \$5,000, or more, regardless of whether or not he realizes any profit. These returns must be filed in the office of Clyde G. Huntley, Collector of Internal Revenue, not later than March 15, 1922.

We Don't Expect You to hand us MONEY

Every time you come into our store; nothing pleases us so much as to have a person come into our store just to "look around." That is proof that the attitude of our caller towards us is friendly. We want you to drop in to see us as OFTEN AS YOU CAN. PLEASE don't think that we expect you to buy something every time you put your foot inside of our door. Come in every time your're near our store. "Browse" around through our stock. You will probably see NEW things each time that will interest you. DON'T feel that you have to buy. We don't feel that way at all. We want your FRIENDSHIP—it's worth more to us than the mere profit on any sale of goods.
