

Tillamook Headlight

VOL. XXXIII NO. 13

TILLAMOOK, OREGON, THURSDAY, JANUARY 26, 1922

PRICE \$2.00 A YEAR

FAMOUS HOLSTEINS SOLD TO CARNATION

LARGER PORTION OF BEAL'S HERD SOLD TO CARNATION CO. OF WASHINGTON

HERD HAS MADE CREDITABLE SHOWING

Local Cows Received Much Recognition in Stock Circles

The Carnation Stock Farms of Seattle closed a deal last week with F. R. Beal whereby the major portion of the Beal herd of pure-bred Holsteins passed into their hands. This herd is recognized as the best herd of pure-bred cattle in the Northwest. Mr. Beal early recognized the importance of combining type and production in his animals and so well did he succeed that in less than two years of official test work he developed a world's record cow and several state records in the various divisions these records attracted a great deal of attention throughout the dairy world and were the subject of much favorable comment in such publications as the Holstein-Friesian World, Board's Dairyman and other important farm papers.

A few weeks prior to the last fair, Lady Aaggie Ormsby of Rock, a member of the Beal herd, completed her sensational yearly record, of just under thirty thousand pounds of milk and just under eleven hundred pounds of butter. Lady Aaggie's record was officially announced a few days before the Tillamook County Fair.

Following this announcement Lady Aaggie, together with some twenty other members of the Highland Grove herd, were exhibited at the Tillamook County Fair. The veteran Holstein judge, J. E. Smith of Spokane, did the judging and awarded most of the blue ribbons to this herd, giving Lady Aaggie Ormsby of Rock the Grand Championship. Smith did the judging at the Washington State Fair a few days later and while there told the breeders of Washington that Tillamook's Highland Grove Show Herd surpassed any herd in the Northwest, Carnation Stock Farms immediately dispatched a representative to Tillamook to investigate, with instructions, if found as represented by Smith, to purchase Lady Aaggie Ormsby of Rock and a few of the other outstanding show animals and producers of the herd. Several days were spent in negotiations during which it is said Mr. Beal was offered five thousand dollars for Lady Aaggie and a correspondingly high figure for other members of the herd.

MAYOR S. A. MOULTON AND FAMILY LEAVE FOR CALIF.

Mayor S. A. Moulton and wife left last Wednesday for Rialto, California, where they will stay until some time in April, visiting with a brother of the Mayor, who has an orange farm near Rialto. Tillamook's Mayor will pick oranges and eat grapes, and enjoy farm life for a time, together with the sunny climate of the Bear state. While away from this city, Chas. Johnson, chairman of the city council, will be the acting Mayor. Here's hoping the Mayor and wife have a pleasant visit and a safe return.

BUSINESS MEN TO MEET AGAIN IN GET-TOGETHER

Next Thursday evening another Get-together banquet will be held by the Chamber of Commerce at the Tillamook hotel. The last one was considered so successful that the business men of this city are anxious to see another one.

The banquet will be free and a number of topics of general interest will be discussed by local people. Tillamook people have long felt the need of getting into closer relationship and these "feeds" help the matter along.

BOILER EXPLODES AT HEBO FACTORY

Building Is Wrecked But No One Is Hurt

Wrecking the building beyond repair, an exploding boiler at the Three Rivers creamery at Hebo Wednesday caused quite a commotion in the little community.

Cheesemaker Fogg had built a fire in the boiler to prevent freezing in the curing room, as the factory operates only every other day. He had been on top of the boiler just a few minutes before the explosion to repair the float valve, which had become stuck. Fogg claims that only about thirty-five pounds of steam were in the boiler when he left the factory to return home after firing the boiler. The explosion occurred at about 5 p. m.

The dome of the boiler was carried out through the roof and about a hundred yards up the Cloverdale road by the explosion and part of the boiler, a large piece from the side, has never been found. The force of the explosion can be partly determined by the fact that as the boiler left its foundation it hit a double tier of wood stacked against the wall with such force that the wall and wood was forced to one side, the wall being swept off its foundation. The building is an entire wreck. No one was hurt by the explosion, as there was no one in or near the building.

The boiler was an old one and in very poor condition, according to the report of the inspector who made the investigation. Practically all the damage was covered by insurance, in which the directors of the factory are considered fortunate.

It is understood that the rebuilding of the factory will take place immediately. Chas. McMillin, Joe Price and Jerry Lewallin are the directors.

MARTIAL GRIEFS ARE AIDED TO BENEFIT CIRCUIT COURT

W. H. Burns accuses his wife, Bernice, of inhuman treatment and cruelty, alleging that she called him vile names and spit on him. She also threatened his life according to the complaint filed for the circuit court. The defendant is accused of raising "particular hell generally," according to the wording of the complaint, and causing her spouse great humiliation. The parties were married in Yreka, Cal., about five years ago. Burns asks for a divorce and custody of his own children, recommending that the court have temporary guardians appointed for Mrs. Burns' child by a former marriage, alleging that she has threatened to kill it if divorce proceedings were started.

Orlie Sherwood says her husband Robert, who she married in Tillamook, May 16, 1919, deserted her December, 1920, and has failed to provide for her since then. She asks for a dissolution of the marriage ties and alimony of \$50 per month. She also asks for the custody of their child.

LARGE EXPRESS SHIPMENT OF HOLSTEINS IS MADE

What is believed to be the largest single shipment to leave Tillamook by express was made last week when 65 head of the F. R. Beal's herd were sent to the Carnation stock farms.

Three special cars were required to carry the cattle, which were sent to Stuart, Washington. Geo. S. Bulkley, secretary for Carnation farms, N. A. Brown, chief showman, and E. A. Schumaker, private veterinarian, made the trip with the prize cows to insure their safety. J. A. Fahey and H. E. Alberts handled the shipment for the American Express company. E. T. Watkins is the local agent. The carriage charges on the shipment amounted to around a thousand dollars.

The local Boy Scout organization was treated Wednesday evening to a lecture by A. E. Yount, district secretary of the boys' work of the Y. M. C. A. The lecture was followed by a short talk by Rev. A. A. McRea. Twenty-two Scouts were present.

The new semester has begun this week with an increased enrollment. There are twenty first grade pupils. This is exceeding high as the average for the mid-year class has been about fifteen. Twenty new high school students have also been enrolled for the mid-year class.

COUNTY COURT READY FOR QUICK "TAKE-OFF" IN THE ROAD WORK

BEACH ROAD WORK TO BE DONE BY THE COUNTY ITSELF; BIDS RECEIVED ARE CONSIDERED TOO HIGH FOR PRESENT PRICES

WAGES AND LABOR TO HAVE ABOUT SAME STATUS AS LAST YEAR, SAYS JUDGE

New Conder Grade and Bridge To Be Ready To Handle Next Summer's Large Volume of Traffic

NATIONAL GUARD LOCAL PROSPECT

State Adjutant General Things Unit May Be Formed Here

In correspondence this week to J. E. Shearer, commander of the local post of the American Legion, Adjutant General George A. White signified his intention to come to Tillamook in the near future to complete the organization of a company of national guard at this place.

The correspondence had taken place between Dr. Shearer and General White after the local post had taken up the matter of forming an organization here at its last meeting. The members were addressed by A. A. Hall, who was connected with the adjutant general's office for several months, upon the possibilities of getting a guard unit and consequently an armory at this place. The meeting went unanimously in favor of the company and quite a number of those present stated their intentions to join whenever a company is formed.

Next Friday night the Legion will meet in this city in the city hall, at which time there will be a pugilistic bout between two members. The following Friday the local members will go to Wheeler for their meeting, which is scheduled to take place in the Wheeler hall. Auto mobiles will leave the Sunset garage about six-thirty for this meeting.

The local post, has organized a basketball team, with Arthur Wallace as its head, and suits have been ordered.

The hoop pitchers of the Tillamook High School have a game scheduled with Newberg next Friday night. This game is to be played at Newberg. A return game will be played at Tillamook February 6th. The team also has games scheduled with Forest Grove and West Lynn. It is probable that there will be games played with McMinnville some time in the near future.

Though it is somewhat early for road work on account of the uncertain weather, the county court is completing plans for an extensive road building campaign this summer.

The bids received from advertising on the beach road were all too high to satisfy the court so the work is going to be done by force account. This work entails clearing the right of way from Manhattan to Brighton. One trestle will be necessary between Manhattan and Hadden.

Judge Mason stated this week that quite a little would be accomplished in a few days in the way of a start. The Farmer grade will be stated soon. It is undecided yet whether to use the steam shovel on this piece of work or not.

The court is working on the specifications for the state road from the Clatsop county line to Tillamook and bids will be advertised for on this road within the next few days.

On the Bayoccean road, Contractor Walt Woods is getting lumber and piling for the retaining wall and assembling his machinery to start work here soon.

The remaining half of the paving from the Stanley bridge to the Tillamook river bridge is to be laid as soon as weather permits.

County Judge Mason stated that the pay for road work will probably be the same as last year and contemplates no shortage of labor for the county work.

The grading to the new Conder bridge will be ready for the summer traffic, as work is to commence on this part very soon. The next ninety days will doubtless see this work completed, continues the Judge. The Mopre cut-off will also be finished as soon as the season will permit. There is very little probability that this section will be paved as the state considers the cost too high.

The General Passenger Agent's office of the Southern Pacific has made the announcement that the running time of all through trains between Portland and San Francisco has been materially shortened. It is expected that the time between Tillamook and Portland will also be reduced.

The Crystal Laundry has recently installed a new 70 H. P. boiler to replace the old 40 H. P. boiler that they have been using.

ALLEN HOUSE GUESTS 'FRISKED'

Sticky Fingered Gentry Get Loose Change and Jewelry

Sometime during last Friday night, or early on Saturday morning, robbers effected entrance to the Allen House, located on First street, this city, entered every room of the up-stairs section, save one, and robbed the lodgers of money, aggregating \$54.75, two watches and some jewelry. A lodger named Olson, whose door was tried by the thieves, heard the attempt, but was not further molested. He later gave the alarm. The lower apartments are occupied by the proprietor, J. F. DeFord and family, who were not disturbed by the robbers, who assumed bent upon operating in the upper part of the house.

When Frank Merrill, a lodger woke up, he was minus his pants and \$28 and a watch. Under his pillow he had \$200 in currency, which the thief overlooked. John Cook another lodger, lost a Hamilton watch, No. 61186, and \$7.75 in cash. Mr. Talbot lost \$19 in money. Other lodgers were relieved of jewelry and trinkets of small value. The only man awakened in the hotel, according to statements made, was Olson, the robbers working quietly, and seemed by their careful work to be acquainted with the premises. Just how the thieves effected entrance, was not evident, as the people below were not disturbed and knew nothing of the robbery until awakened by the guests the next morning. Sheriff Aschm and City Marshal White began work early on the case, and watched the outgoing trains and stages. Either the robbers reside in the city, or left soon after their work by automobile.

GRADE SCHOOL IS CLOSED ACCOUNT OF FUMIGATION

The grade school building is closed this week for fumigating purposes, following the sickness of a son of Dr. R. T. Boals, who has been very ill with something resembling infantile paralysis.

The boiler of the heating plant, having been thought to be dangerous is to be replaced also during the close-down of the school. As it is probable that the school district will require a new building in the near future the school board has decided to install a second-hand boiler in place of the present one which has done duty for the past eighteen years.

Announcement has been made that the Wheeler Mill will resume operations about February first. Indications are that the entire lumber industry of this section will soon be in full blast.

A son of Jim Williams of Wilson river, who has been ill with pneumonia for several days past, is said to be improving.

CREAMERY ASS'N ELECTS OFFICIALS

WEEK FROM SATURDAY TO BE BUSY DAY FOR MEMBERS OF CHEESE ORGANIZATION

SEVERAL OTHER FACTORIES ELECT SOON

Many Of Old Officers Are Re-elected This Year

Factories affiliated with the Tillamook County Creamery Assn. are beginning to hold their annual stockholder's meeting and such gathering will prevail in the various communities from time to time during the next month. Saturday, February 4th, will be the banner day for these assemblages, eight being scheduled for that date.

Three meetings, held during this week in the offices of the Tillamook County Creamery Association, were characterized by the feeling of good-fellowship and cooperation that are making the name of Tillamook known throughout the West and to some extent to other sections of the country, as a community where farmers can work together and accomplish things.

On Monday, the Fairview Dairy Assn. held its meeting. Despite his protests, William Maxwell was re-elected a director of the factory. Other members of the board are S. V. Anderson and George Olson. At the meeting of the board of directors which followed, Mr. Maxwell was also re-elected president and representative of the company at the meetings of the Creamery Assn. The Tillamook County Bank will continue to handle the funds.

On Tuesday, J. J. Rupp, John Schild and B. W. Nielson were re-elected directors of the Holstein Creamery and the First National Bank custodian of funds.

On this day, also, M. Abplanalp, Gottlieb Wyss and Robert Stillwell were re-elected as the board of directors of the Red Clover Creamery Company and the County Bank Treasurer. Mr. Abplanalp will continue his activities as president of the company and as a director of the Creamery Assn.

Other meetings scheduled for this week are those of the Cloverdale Cheese Company and the Cold Springs Cheese Company which will be held at the respective factories on Friday and Saturday.

SUIT IS FILED OVER AFFAIR THAT RESULTED IN SHOOTING

Wm. Sederburg is suing O. D. Spencer for a dissolution of the partnership entered into between the two parties to conduct a garage business at Rockaway.

According to the complaint Sederburg and Spencer started business about a year ago in a building owned by Sederburg, who was to live in a house owned by Spencer as a part of the rent for the garage building. The partners secured a contract to haul school children as a part of their business.

Sederburg accuses Spencer of collecting money belonging to the partnership and appropriating it to his own use, saying that he held some bills against the garage. The resulting quarrel caused the wounding of James Spencer, an aged relative of both men at Rockaway some weeks ago. Sederburg wants a receiver appointed pending the settlement of the trial.

The following cases have been disposed of in the Justice Court:
The State vs. DeFord, illegally fishing with nets, found guilty. Fined \$100 and costs.
The State vs. Baker, same charge, pleaded guilty. Fined \$50 and costs.
The State vs. McFalls, same charge, pleaded guilty. Fined \$50 and costs.
The State vs. Maple, same charge, pleaded guilty. Fined \$50 and costs.
The case of the State vs. Stillman is still pending.
The case of the State vs. Whipp has been dismissed. The evidence has been insufficient to convict.

The Boiler Inspector has condemned the boiler at the grade school. A new boiler will probably be installed by Monday. This has necessitated the closing of the school until next week.

As Strong As the Weakest Link
