

Tillamook Headlight

Vol. XXXIII, No. 27

Tillamook, Oregon, Friday, April 14, 1922

Price \$2.00 a year

COW TESTING ASS'N MAKES GREAT GAIN DURING PAST YEAR

**SELLING OF CALVES IS UNDER
TAKEN BY ORGANIZATION—
IS ATTENDED BY MUCH suc-
CESS.**

The Tillamook County Cow Testing Association is gaining in cows and membership by leaps and bounds. Last year 1700 cows were under test; today there are 2500 on the contract books, and it is confidently believed that by the end of the year the number will be 3000—some gain.

The association has increased at least 50 per cent since the County Agent and Paul Fitzpatrick, the secretary of the association, formulated the calf-selling campaign. Credit is due these gentlemen in proportion to their work for the success of the enterprise, and the association dairymen are reaping the benefits. Before the campaign was put on calves sold for from \$3 to \$5 each. Now each calf sold by the association nets the owner \$9.50. All calves shipped are guaranteed by the association to be from a dam producing not less than 300 pounds of butter fat annually. The sire to have been a pure blood bull from the number of satisfactory replies coming in from pleased patrons, the shipments have filled the bill.

Where there were two testers employed last year, three are now required, viz: Messrs. Peters, Hall and Allen.

To date the association, through the agriculturist, has shipped 125 calves, with 350 orders on file, with the neat sum of \$3500 in the banks here to the credit of the association.

As a rule two calves are shipped to the crate, where the order calls for that number to one place, and the little blue-blood bossies are sent as for east as Montana and all the replacements have been made by the dairymen. The states from which the most orders have been received are Washington, Idaho and Montana. It is believed by the agriculturist that next year will show a wonderful increase in calf sales.

Much of the county agent's time is taken up in inspecting calves for shipment as he personally sees that none but the best calves are shipped as that is to the interest of the association.

One man in Montana recently sent in an order for 100 head of young calves and said if they proved satisfactory, he would take more, but his order could not be filled, as the calves were not to be had. The calves sold are all Guernseys, Jerseys and Holsteins—three leading breeds. The demands are about evenly distributed between the three kinds.

To prove that there is some work connected with the calf sale enterprise, it was learned that more than one thousand letters have been answered by the county agent's office concerning calf sales and shipments since the first of the year.

CONTRACT TO FELDSCHAU FOR SIMMONS BRIDGE

The county court this week awarded the contract for building the new Simmons creek bridge to F. C. Feldschau, whose bid was \$4599.78. The new bridge which will take the place of the one washed out last November by flood waters will have a 30 foot span, and will be made to stand both flood and fire, as it will be entirely of concrete.

AUTOMOBILE DEALERS SAY BUSINESS IS IMPROVING

Auto dealers of this city report sales brisk the past few days. The Sunset garage reports the following sales: John Hathaway, Tillamook, Buick Six; Bob Patterson, Tillamook, Dodge Bros. Touring; J. Honey, Tillamook, Dodge Bros. Touring; Sterling Smith, Wheeler, Ford Touring; Mr. McPherson, Blaine, Ford Roadster.

The Tillamook garage reports the following sales: Geo. Hoskins, Ford touring; E. S. Betscher, new sedan; Franzel Mills, Ford truck to go on run between Rockaway and Tillamook; J. F. Auer, new touring car; C. W. Brown, Mohler, new roadster; Ira Smith, sedan; Tillamook Meat Co., new roadster; Rudolph Fank, new touring car; B. E. Turner, new touring car.

MILITIA HEAD TO BE HERE FRIDAY

Gen. Geo. A. White, Adjutant General of the Oregon state militia will speak here at American Legion hall Friday night of this week on "Americanism." The above date is the regular meeting night of the Legion. General White's address promises to be an interesting one. County Commander J. E. Shearer desires that the public be generally invited from all parts of the county to hear the address. After the speaking a lunch will be served. Gen. White won his rank on the fields of France in the late war, and is said to be a very able and entertaining speaker. Don't forget the date and the place, and come out.

WATER PERMIT ISSUED TO TILLAMOOK PEOPLE

During the months of January, February and March, seventy-four permits have been issued by State Engineer, Perry A. Cupper, for the appropriation of water from streams throughout the State of Oregon. The permits cover the irrigation of 10,160 acres of land, the development of 1083 horsepower, and the use of water for mining, municipal, domestic, and various other purposes. The estimate cost of construction work under the permits is approximately \$213,000. During this period, four permits to construct reservoirs for the storage of 741 acre feet of water were issued, and the estimated cost of construction work is \$15000.

In Tillamook county, permits have been issued to Ray Robertson and the Sandlake Creamery Company, of Sandlake, Oregon, covering the appropriation of water from an unnamed spring for domestic use, and for supply for a cheese factory. The cost of the proposed construction work is estimated at \$300.

PROMINENT TILLAMOOK MAN DIES SUDDENLY ON MONDAY

Jos. W. Donaldson, a well known farmer and native son of Tillamook county, died Monday morning at his residence some miles east of town, following an attack of influenza. Mr. Donaldson had recovered from the first attack of the disease, and was up and around about his duties, when he was suddenly stricken with pneumonia, and soon succumbed. Jos. Donaldson was a public spirited man, and had many friends in the community who will miss him. He is survived by a widow and son. Deceased was a comparatively young man, a few months past 38 years; and had worked hard to lay up a competency for old age, when death took him. The funeral was held Wednesday at the Christian church, Rev. Harry E. Tucker officiating, with interment at the Odd Fellow cemetery, the I. O. O. F. order conducting the burial ceremonies.

GRAND VICE-CHANCELLOR VISITS PYTHIAN LODGE

Willard F. Hardesty of Seaside, Grand Vice-Chancellor of the Oregon Pythians, accompanied by four brethren from Necanicum lodge, paid an official visit to the local lodge at this place Monday night. Both he and Dr. Moss made interesting talks. Work was had in the first degree and after the lodge labors a banquet followed with a feast of reason and a flow of fraternal soul.

TILLAMOOK COUNTY COW SELLS FOR \$2150

Tillamook county has scored another record in the sale of fine coast bred dairy cattle. At the Brentwood Holstein sale held in Philadelphia, March 21, 22, 23, the present year. "Aggie De Kol of Ormsby Beauty," No. 598,941, a yearling daughter of "Lady Aggie Ormsby of Rock," grand champion at the Tillamook County Fair and the International Fair of last year, sold for the neat sum of \$2150, thus scoring another triumph for Tillamook county pure-breds.

"Aggie De Kol of Ormsby Beauty" was formerly owned by F. R. Beals of this city, and recently was sold to the Carnation stock farm of Seattle, the Carnation people later entering her at the Philadelphia stock sale.

In the judging ring at the sale she stood second in the yearling class and was judged by W. D. Moscrip of Minnesota. The yearling was raised in this county.

PARENT-TEACHERS ASS'N MEETS AND CONSIDERS PLANS

**BEAUTIFICATION OF SCHOOL
GROUNDS AND MOVING PIC-
TURES FOR THE SCHOOL CHIL-
DREN WERE CONSIDERED.**

At a meeting of the Parent-Teachers' association held at the school gymnasium Monday evening, plans were made for the coming year regarding the taking care of the school grounds and educational moving pictures for the children of school age during the coming summer months.

Mrs. Alfred Anderson and Mrs. Stanley Coates, members of a committee appointed to report on the beautification of the school grounds suggested that rose bushes be planted and that the lawn be mowed during the summer. It was also asked by this committee that cooperation be arranged between the teachers and the children for the care of the shrubbery already on the grounds.

The following officers were elected for the coming year: Mrs. Francis Stranahan, President; Mrs. Stanley Coates and L. N. Bennett, Vice-Presidents; Jacob Heyd, Secretary; Carl Haberlach, Treasurer. The Jenkins-Myers Orchestra, composed of Ammetta Jenkins, piano; Betty Lantz-Myers, violin; Arthur Harris and Carlisle Stranahan, saxophone; Archie Pye, clarinet; Russell Dark, banjo; and Harley Davidson, traps, rendered several numbers. The musicians of this orchestra are mainly high school students.

The influence of the moving pictures on child development was discussed by Mrs. H. E. Tucker and Mrs. Belle Wilson. The latter a teacher in the local school. Mrs. F. B. Stranahan presented a list of motion pictures that had been passed upon by the Oregon Federation of Women's Clubs as being suitable for children, and stated that the management of a local picture house had acknowledged itself willing to exhibit these pictures if the parents would cooperate with them and send their children to witness the plays.

Community cooperation in training the young was discussed by A. G. Beals and Mrs. Bertha Hansen.

The association president announced that the National Convention of Parent-Teachers associations will meet in Tacoma, Wash. May 8 to 13, this being the first time that this association has met on the Pacific coast. The hope was expressed that a number of local parents would be able to attend this meeting.

F. Devenny of Hebo, H. Hyland of Brighton and B. A. Knobloch of Cloverdale were registered at the Todd Saturday last.

ROOSEVELT HIGHWAY IS ASSURED SAYS HAWLEY

The following telegram was received today by the Headlight from Congressman W. C. Hawley, which is self-explanatory:

Washington, D. C.
April 13, 1922
Headlight, Tillamook, Ore.
I had a conference today with chief of bureau of public roads, who states situation favorable to Roosevelt highway, as a road, of primary importance, and engineers of bureau are considering it from that standpoint.

TILLAMOOK PIONEERS ARE VISITING RELATIVES HERE

F. M. Lamb and wife of Portland the former a pioneer of Tillamook county of the mintage of 1866, came in last Saturday for a few days visit with County Superintendent G. B. Lamb and family, of this city and M. W. Lamb of South Prairie, both sons.

Mr. Lamb, senior, came to Oregon with the immigration of 1864, his parents settling in Linn county, and in 1866, he and his mother came across the coast range by trail from Linn county, to Tillamook, when (his then infant) county boasted but 62 voters, 30 of whom were bachelors. He grew to manhood here, and still retains the old farm out on South Prairie, where he lived for so many years. There were no bridges in the county when he came, and one had to look for a shallow place in the river and ford the cold mountain waters. Most of the family household goods were brought in by schooner from Portland, and the patient but slow ox teams did the rest. Mr. Lamb remembers seeing Kilchis, the chief of the Tillamook tribe, who was much liked by the early settlers for his kindness to the white race then represented in his illahee. Mrs. Lamb was a Daniels, her father being one of the early pioneers of this county. The Lambs now live in Portland, but come over once or twice each winter, and spend much of the summer here, where they get the always welcome tang of the sea air, and meet with their relatives and the remnant of the old pioneer guard, whose numbers are fast being depleted by the rush of the years.

TWO CANDIDATES ARE OUT FOR ROAD COMMISSIONER

H. M. Farmer of Cloverdale has filed for Commissioner to succeed himself. Read his announcement in this issue. Also that of R. O. Richards, which appears in this issue. Mr. Farmer is a republican, Mr. Richards a democrat.

Snow is reported in the mountains along the south highway.

LOCAL CANDIDATES STATE INTENTIONS FOR NEXT ELECTION

**ATTORNEY ASPIRES FOR POSI-
TION OF GOVERNOR WHILE
OTHERS ARE AFTER LESSER
JOBS.**

Judge Webster Holmes of this city decided Thursday afternoon that he would file with the Secretary of State his candidacy for the primary nomination for governor on the democratic ticket. For some time past he has been urged by the leading democrats of the state to allow his name to go before the forthcoming primaries for the nomination and today his filing will go forward. Next week his declaration of principles will be published together with biographical sketch.

Geo. P. Winslow has filed his candidacy for representative in the legislature from this county, with the Secretary of State, as a republican.

Mr. Winslow is an attorney of this city and a member of the firm of Botts & Winslow, and he has resided here since 1913. He is a native Oregonian, having been born in Polk county, where he passed the eighth grade in the home schools, later attending Willamette University. He was admitted to the bar in 1913 and settled in this city the same year for the practicing of his profession.

Mr. Winslow is coming out for representative at the solicitation of numerous friends, who have confidence in his ability and judgment.

The following is taken from his notice of filing to the Secretary of State: "If I am not nominated, I will not accept the nomination or endorsement of any party other than the one in which I am registered. If I am nominated and elected, I will, during my term of office, work for legislation that will reduce taxes, especially on real estate, and for a retrenchment in public expenditures. Will work to compel the highway commission to complete original plan for improvement of state highway, including the paving of twenty miles south of Tillamook City. Taxes must be reduced and in order to do this I will favor cutting all appropriations and abolishing all useless commissions and will require the same value for a dollar we received in pre-war days."

COURT APPOINTS RUPP AND DANIELS ON FAIR BOARD

The court appointed Jack J. Rupp and Lester Daniels, two leading dairymen, to serve on the county fair board. The appointment was made the latter part of last week. Both are public spirited men who will lend additional strength to the board.

I.O.O.F TO GATHER HERE NEXT MAY

The County Convention of all the Oddfellow Lodges in Tillamook county, Oregon, will be held in Tillamook May 6th and will open at one o'clock and it is expected that a large number of lodges from the county will attend this meeting as much business will be transacted for the good of Oddfellowship.

Mr. A. A. Imah of Cloverdale is chairman of the convention and Geo. P. Winslow of Tillamook is secretary and they are both trying to make this convention a successful one and are doing their best to have a good attendance. All Oddfellows should bear in mind the date and try and be on hand.

TILLAMOOK-MCMINNVILLE ROAD HAS BEEN CLOSED

The Tillamook highway was closed last Saturday by the local state highway engineer, to travel, on the part of heavy auto trucks over the Sourgrass section between Dolph and the Bee Ranch, a distance close to five and one half miles. The prohibited road is that part which was worked on late in the season by the state highway force, and heavy truck travel this winter has placed the road in a very bad condition to travel. It is understood that the prohibition extends only to heavy loaded trucks, and will not apply to trucks lightly loaded, nor to the daily stages. The road upon which travel is now taboo, will be finished next summer, so it is said. As many as 12 big, loaded trucks have been seen to pass the Sourgrass section in one day this winter, and the effect has been to cut the road almost into ribbons. Should good weather dry out the roads, it is presumed that the order will be lifted, but it probably will be early summer before the big trucks will again appear in Tillamook.

LOCAL MEN LEASE TRASK ROAD HOUSE FOR RESORT

M. E. Gruber and Charley Barnes of this city have leased the old Trask road house sixteen miles up the Trask river from Tillamook, and with it 640 acres of farm and pasture land belonging thereto, and will open a resort and hotel to the public the first of May. The hotel has 26 rooms and is located in the midst of a fine hunting and fishing region. The firm expects to keep the resort open summer and winter, and both have had considerable experience in catering to the public. Mr. Barnes formerly conducted the Ramsey hotel of this city, and Mr. Gruber has been clerk at the Tillamook hotel for some time past, and was for 11 years a member of the Portland police force, where he has many friends, who have volunteered to come over and see him in his new location. The new firm expect to run some stock on the place in addition to the hotel business. The place has been named "Trask Lodge," and promises to be well patronized by Tillamook and other towns of the county, as a new and pleasing outing place, within easy distance and over a scenic road. The road house was very popular before the new highway diverted travel another way, but there is yet considerable summer travel that way from the outside.

BIG BOXING CONTEST ON FRIDAY NIGHT CITY HALL

The American Legion will give four big boxing bouts Saturday, April 15th, under the auspices of the city boxing commission, at the City hall auditorium, beginning at 8:30 p. m. The following matches are scheduled: Ten rounds, Hollowell of Brighton vs. Everest of Cloverdale; six rounds, Wilder of Brighton vs. Olson of Tillamook; four rounds, Anderson of Tillamook vs. Gib Funk of Tillamook; four rounds Leach of Tillamook vs. Stark of Tillamook.

CANDIDATE FOR GOVERNOR, BEAN, WAS HERE TUESDAY

Louis E. Bean, republican candidate for the primary nomination for governor, accompanied by Linn W. Nesmith, was in the city Tuesday in the interests of his candidacy. Mr. Bean is a brother of Federal Judge Bean of Portland, but is himself a resident of Eugene. The Headlight acknowledges a call. While here he was a guest at the Tillamook hotel, where he met many of the voters of the city.

Cold weather has retarded the local grass crop this spring.

EQUIPMENT NEEDS ARE TOLD BY HEAD OF FIRE FIGHTERS

**EXPERT PUZZLED OVER REASON
LOW WATER PRESSURE ON
CITY MAINS—SOMETIMES AS
LOW AS 35 POUNDS.**

Tom Coates, Tillamook's Fire Chief, in speaking of the city's fire fighting appliances, one day this week, stated that the department is now in a good state of efficiency, except for the need of more hose. He said there is a present need for at least 1,000 feet of new hose, but one line could be laid to the slough in case of emergency. He contends that the department should be able to lay two lines during a fire. Some of the hose now on hand is from 10 to 15 years old, and if the city expects the department to be fully prepared to cope with a big fire, it should have hose that could be depended on in case of a big blaze, as old hose under pressure cannot be trusted to stand up. Besides one line of hose should be kept drying, while the other sections are in use.

Mr. Coates stated that the water commission last year put in five new pumper hydrants, which have added considerable protection to the city sections where placed. Other parts of the city need new pumper hydrants, and they probably will be added by the commission in the near future. Between Eighth and Twelfth streets and Second avenue east and Sixth avenue south of Eighth street, comprising close to twenty blocks, there are neither water mains nor hydrants, and the district can only be reached by the Tenth street and 2nd avenue east pumping hydrant.

The pressure for some time past has run from 35 to 50 pounds, states Mr. Coates. Recently a Portland engineer came in to ascertain why the pressure for fire purposes is so far below the average pressure of other cities of like population. After some time spent in examination, it is understood that the engineer expressed himself as being greatly puzzled. One thing he noted was that the night pressure was not increased over that of the day pressure, as usually is the case. At last accounts the expert had not worked out the local problem. The pressure, where usual conditions are prevalent, should run from 80 to 90 pounds during a greater part of the night, when there is no domestic use of the flow.

One thing that Chief Coates is especially pleased with in connection with the fire department is that the lungmotor purchased some time ago for the use of the city, which has paid for itself many times over in the matter of saving human life. Engineer Glenn Terry is getting to be quite an expert with the motor, and has been called several times when patients in hospitals and homes of the city were in need of oxygen stimulant at critical times in the progress of pneumonia and other bad cases. Two tanks of oxygen have been used by the department in aiding sufferers in this city recently. Its successful use is indicated in cases of sudden collapse on the operating table, and in pneumonia.

COUNTY COURT ADJOURNS TO MEET AGAIN ON APRIL 14

County Court adjourned Tuesday last to the 14th of the month, when it will again convene to consider among other matters the receipt of bids for the operation of the county ferry at Woods. The court has been kept busy since the first of the month passing upon county bills, of which there were the usual number.

WORK ON FARMER GRADE IS STILL PROGRESSING

The work of widening the Farmer grade is still progressing. Commissioner Farmer states that the work hours are observed as follows each day. From 8:30 to 12:30, from 1:30 to 5:30. Between those hours passengers are allowed to pass through over the highway. It is hard to set a definite time, said Mr. Farmer, as to when the work will be completed, as unforeseen slides may be expected so long as there are heavy rains; but the county is doing its best to get through with the job, and at the same time accommodate the traveling public as much as possible.
