The spring is late this year. In most places the season is fully a month behind time, and the ground is too cold and wet for seed to germinate.

The prospects of the coast section are yearly getting brighter. It would now seem that the building of the Roosevelt highway is reasonably sure to follow, and with its construction will come a general opening up of the whole Oregon coast section, due to the connection of the counties by the highway.

OBITUARY

Edna Lida Ely was born near Hemlock, Tillamook county, Oregon, on January 21, 1901, and died at the St. Vincent Hospital, Portland, Oregon, Friday, May 5, 1922, aged 21 years, 3 months and 14 days.

At an early age she united with the United Brethren church at Beaver and remained a faithful member. The strength of her faith in God will be remembered as a heritage of comfort to her bereaved parents and friends.

She will be greatly missed by her sisters and brothers of Beaver Rebeccah Lodge of which order she has been an active and untiring member for the past three years.

Her illness was short and she was a great sufferer, but was patient and evidenced a firm trust in the Christ whom she loved and served.

All that loving hands and human skill could do was done to save her life, but she passed away quietly Friday noon to that home above.

Edna leaves to mourn her loss a loving mother, father and a host of friends. Her place in the community, in the church, in the lodge and the home never can be filled.

A precious one from us is gone, A voice we loved is stilled; A place is vacant in our home, Which never can be filled.

Conditions favorable, Mr. Owen Dixon will give you an hour's entertainment with the Radio-phon, in connection with the band concert Wednesday evening, May 17th, High School Gymnasium.

See Dixon and hear his Radio-phon at the High School Gym, Wednesday evening, May 17.

O. H. FITHIAN Republican Candidate

Williams a Joke as Vice-Chairman

Fithian's opponent, Ralph E. Williams, has been sidetracked by the National Committee to a harmless vice-chairmanship and is useless to Oregon. Carrying kid gloves in one hand and a cane in the other, his hands are full and he has not been able to do a single thing for Oregon during the 14 years he has been on the Committee.

If the hours spent by Williams at Portland's swellest club had been devoted to work for Oregon, he might have accomplished something for our people.

What is Wrong with Williams?

Williams has no chance of becoming National Chairman and running the presidential campaign in 1924, or even the Western end of it.

The reason is that the National Committee seems extremely unwilling to trust Williams with the management of even the Pacific Coast part of the national campaigns. For instance, in 1918, when a Regional Director for the Coast was elected, the Committee turned Williams down in favor of Raymond Benjamin of San Francisco. Then in 1920, when Harding was running, Williams was again ignored and Elmer E. Dover of Tacoma was chosen to conduct the campaign on the Coast.

What is wrong with Williams?

Is Williams Loyal to Nominees?

All over Oregon Republicans are discussing William's connection with the campaigns of certain Republican nominees for United States senator, and are asking the question—DID WILLIAMS DO HIS FULL DUTY BY THEM? This question is being asked by friends of the late Senator Fulton in Astoria. It is being asked in Eugene by friends of Senator R. A. Booth, in Salem by friends of Senator McNary and in Portland by friends of Senator Stanfield.

VOTE FOR FITHIAN

Fithian is a successful business man, a live wire, a lifelong Republican who WILL BE LOYAL TO THE REPUBLICAN NOMINEES. FITHIAN WILL GET THE NATIONAL COMMITTEE AND THE NATIONAL GOVERNMENT TO HUSTLE FOR OREGON.

When The Tinker Came Along

Remember when you used to watch the "tinker man" mend the holes in your mother's pans? Solder was the metal used—and solder is a product of lead.

Countless other products of lead add to the comfort and convenience of your daily life. In your automobile, for instance, there is lead in the battery, bearings, glass of the headlight lenses, the rubber tires, the paint, and in the rubber mat on the step.

But more important than all these is the use of white-lead as the principal factor in good paint. The more white-lead any paint contains, the greater its protective power and its durability.

We, therefore, use straight "lead-and-oil" paint, made of the well-known "tried and true"

Dutch Boy White-Lead

and pure linseed oil—for both interior and exterior work. Any color desired obtainable.

Now is an ideal time to have that interior or exterior job done—"Save the Surface and You Save All." Let us estimate on your work—no obligation incurred.
