A LETTER TO CLUB MEMBERS
Dear Club Member: Knowing that you as a club member will be interested in the former club members, I am sending you a letter which our 4-H club members on the campus have prepared. The members of the 4-H club here are the students who were formerly club members just as you are now.

They are taking a great interest in you people and want you to finish up your work, filing reports and making your exhibits. I would like to suggest that when summer vacation comes if you happen to know anyone in your community who has been at the college and is a member of the 4-H club, you get in touch with that person and I know he or she will be glad to assist you in the work.

Very truly yours,
H. C. SEYMOUR,
State Club Leader.

Dear Club Member:
Do you ever get discouraged and think it is no use? Probably you say "Yes, I do". That is human

nature. We all get in a rut once in a while, and need a little encouragement to pull us out.

That is the work of the 4-H club, which was organized on the Oregon Agricultural campus about three years ago. Its aim is to help the club workers of the state in any way it can. The members, besides helping individual workers in their own communities, accompany the state leaders on little field trips, close to the college, and give short talks to the boys and girls, telling them what they got out of club work when they were members, and trying to encourage and help them in their work.

The 4-H club now has an enrollment of about fifty members, each one of which, has at some time or other been in club work. It is the only club of its kind in the world, and has received much encouragement from leaders of this and other states.

Don't be discouraged. After all, you do enjoy the work. Isn't it fun to watch your pig grow, your garden come up, or your cooking and sewing progress nicely? And all this leads to rewards to be proud of.

Here's to the club workers of Oregon, and of the United States. May you all keep right in the game, and some day be ready to carry on the work we are trying to do.

Yours for success,
4-H CLUB.

ANOTHER POOR LITTLE RICH GIRL

Miss Isabelle Rockefeller

With the arrival in New York of little Violette Helene de Talleyrand, daughter of the former Anna Gould, and sometimes called the poor little rich girl, in charge of a maid, come renewed reports of domestic difference between the Duke and his American wife. Little Violette was almost sent to Ellis Island on her arrival, being rescued at the crucial moment by her aunt, Mrs. Finley J. Shepard, formerly Helen Gould. While Violette

was being detained, Miss Isabelle Rockefeller, daughter of Percy Rockefeller, made entry on her return to America without difficulty.

"Rush Hours"

In all lines of business patronage is irregular. Street cars, stores, banks and restaurants have their "rush hours" when some delays in service are unavoidable. The public, with the situation before its eyes, good naturedly accepts a degree of inconvenience.

There are "rush hours" in a telephone exchange. With business service the "loads" of telephone traffic are determined by commercial activities, banking hours, etc.—the "load" of the residence telephone varies with household and social needs.

The demands upon the telephone operator and a complicated mechanical equipment cannot be seen, but telephone traffic varies in every hour of every day according to the individual desires of thousands of patrons.

If there should be at times a delay in answering your call, remember that trained young women with nimble fingers are doing their best to serve you, and that at the moment there may be a "rush" of telephone traffic.

The exercise of patience and consideration will mean better service.
