### SCHOOL ELECTION HAS LARGEST VOTE EVER CAST IN CITY

SMITH AND MCGEE REELECTED TO FILL PLACES IN DISTRICT RUMORS OF OPPOSITION ARE HEARD

School district No. 9 witnessed one of the most interesting elections in its existence Monday when 399 voters were cast in the determination of one director for three years and one school clerk.

The polls were open at 2 p. m. at the high school building and closed at 7 p. m. During that time nearly 400 voters of Tillamook city passed through the voting place. Rumors were afloat of considerable opposition to the regular ticket and this is thought to have caused the heavy cast of votes. J. Merrill Smith for director and C. A. McGhee for clerk were those who filed for the offices. Both are at present incumbents.

The final tally showed the following results: For director for three years; J. Merrill Smith 339; H. T. Botts 1; Mrs. C. J. Edwards 1; Mrs. F. E. Stranahan 1; F. W. Nicholas 2.

Toward the end of the voting period the election board ran out of ballots and it was necessary to have some more printed before they could proceed.

Some misunderstanding was present among quite a number of the voters as to the power to vote. According to law any person who is a legal voter of the state and has resided in the district for thirty days preceding the election may vote for members of the school board. However if bonds are to be voted for, the voter must be a property holder of the district.

### CHILDRENS HOME IS AFTER FUNDS

Mrs. E. B. Andrews of Oregon City, vice president of the State W. C. T. U. is spending two weeks in Tillamook County in the interests of the W. C. T. U. Children's Home and the state membership campaign. This itinerary is at the invitation of the Tillamook County ministers, who have promised hearty co-operation in this campaign, and will close with a union service of all churches in Tillamook, June 25th.

Mrs. Ada Wallace Unruh, Campaign Manager for the Farm Home was in Tillamook recently attending the State Federation of Womens Clubs, at which she presented the Farm Home project which had already been endorsed by the Federation. She will be present at the union on the 25th and will have some interesting news of the progress of this great movement which is making a strong appeal to the most conservative business men as a means of giving Oregon's dependent children such moral and industrial training as will make useful citizens of them instead of allowing them to drift into the delinquent or criminal classes and so become an expense to the state.

It is now almost a certainty that building on the farm purchased some months ago near Corvallis will begin not later than July 1st, and the home is ready to house the children already waiting for it by midsummer. It is hoped that money enough will be available to build two cottages at the same time, one for boys and one for girls, as both are on the waiting list. A. C. Schmitt, of Albany, president of the Farm Home Board, is now in the East at his own expense visiting similar homes and trying to secure the very latest and best in construction and administration for the Oregon Home.

### CHEESE ADVANCE RECENTLY MADE OVER WISCONSIN

ASSOCIATION SECRETARY BACK FROM TRIP THROUGH SOUTH SAYS LOS ANGELES 'S BEST MARKET FOR LOCAL CHEESE

Carl Haberlach returned to Tillamook Monday from a trip to San Francisco and Los Angeles, where he and Mrs. Haberlach had gone in the interest of the cheese business, incidentally taking in the Shriner's convention for a time.

Regarding conditions Mr. Haberlach made the following statement: "We found general conditions better in California than in Oregon. Crops looked better in California than in Oregon. Oats and hay, especially East of the Willamette, show signs of a very good crop, which means higher hay prices for our people this winter. The winter freeze did some considerable damage to oranges in Southern California, especially in low places.

"Los Angeles, our best market for a wonderful city. Our cheese is in very good favor all over California, in fact Tillamook cheese is better known there than any article produced in Oregon. San Francisco has been buying considerable cheese for storage the last few weeks and I sold some cheese while there. On the other hand, we want to store a certain amount of June, July and August cheese, and it was my idea to make financial arrangements to take care of the storage cheese that the trip was made. We made arrangements to get what money we need at six per cent in Los Angeles. It all depends now at what price we figure safe to store.

"Cheese prices have been advanced one cent, triplets now being 24 cents Tillamook, Longhorns and Young Americans, 25 cents. This makes a 26 cent Los Angeles price, and storage cheese at this figure is more or less of a speculation, especially after shrinkage, interest, storage and other charges are added."

### Tillamook, July 4th REPAIRING THE ALLEN HOUSE

Workmen have been busy the past few weeks putting in a new foundation to the Allen House on W. First street.

### BUTTER RECORDS ARE RAISED HERE

The May report of the Oregon association work shows that the Tillamook association with 2442 cows got an average of 44.42 pounds of fat per cow. This is a higher yield than any ever before made by an association herd in Oregon, says E. B. Pitts, O. A. C. and federal dairy field man.

The Tillamook association is the oldest in the state and has many good records back of it. It has recently absorbed the other two associations of the county and has about three times the average number of cows per association.

The best herd for May averaged 62.29 pounds of fat. The cows are all registered Guernseys owned by Edmunds and Fitzpatrick. The second best herd was only three hundredths of a pound behind. These cows are grade Jerseys owned by P. J. Sharp.

The best cow in the association and in any association in Oregon was "Pet," a grade Jersey owned by J. C. George. Her record for May was 114.62 pounds of butterfat.

The average milk yield of the 2442 cows was 1099—call it 1100 for luck—probably more than their body weight in a single month.

The newest association in Oregon, Columbia county, reports 375 cows averaged 30.32 pounds of fat from 767 pounds of milk for the month. The best cow gave 71.56 pounds of fat. There are 36 herds in the association, and every owner has provided his herd with a pure-bred sire. Jack Widows of Rainier is secretary and A. W. Loy, tester.

### TIN CHIMNEYS CAUSE OF FIRE SAYS MR. COATES

INCREASE OF CERTAIN CLASS OF FIRES RECENTLY IS LAID TO USE OF EXTENSIONS ON BRICK FLUES

As a warning to property owners of the city who are in danger of fire during the dry weather that has been experienced lately, Fire Chief Coates yesterday issued a condemnation of the tin extensions used on top of brick chimneys about the city.

Chief Coates said that up to recently that the city had had but two roof fires in four months, but this summer there has been four roof fires within two weeks and two within an hour. All these were caused by the same reason, says Chief Coates.

The fire expert stated that the tin pipes that were sometimes used to extend the regular brick chimneys in residences, and also in business houses, have a habit of becoming full of creosote through burning the slab wood that is used so much here and that sometimes this accumulation will catch fire. The tin cover that is fixed to the top of the pipe acts as a deflector when the creosote fire starts and throws this hot burning creosote down on the roof, setting it afire. Some times it has been found that this storage of creosote catches fire when there is very little fire in the stove below.

Authority to burn trash may be had by getting permission from the Fire chief or one of his deputies at the city hall. Without this permit anyone burning trash may be apprehended and made to pay a fine. The object of this is to know who is doing the burning and where the fire is being set out. It must be necessary to fix responsibility in case the fire got away.

Chief Coates expects to attend the State Fire Chief's convention at Marshfield next week and will leave the city about Wednesday for that purpose.
