MAYOR URGES CARE WITH FIRECRACKERS ON FOURTH
Mayor S. A. Moulton this week issued a statement that there would be no objections to the use of firecrackers during the fourth, as well as small skyrockets. If proper precautions were used in handling them.

The mayor especially warns against throwing fireworks into alleys and on the roofs of buildings. The dry weather has made the use of fireworks by children of a special danger and it is hoped that care will be exercised during the celebration here.

B. C. LAMB YARD ONE OF BEAUTY

Whoever doubts that Tillamook can claim honors for anything beside cheese and dairying, or thinks that it is necessary to have an acre or two of ground before anything can be raised successfully, should take a look at the home of B. C. Lamb at the corner of fifth street and third avenue east.

Mrs. Lamb, who tends this yard carefully has such a profusion of flowering plants and shrubs that she would have a perfect excuse to let it go at that, but she has in addition a sufficient vegetable garden for family needs beside strawberries, currants, gooseberries, raspberries, etc. All this on a plot 150 by 150 feet. In her yard Mrs. Lamb has about forty varieties of roses and about one hundred varieties of gladiolus beside an unmentionable number of peonies, sweetpeas, and other flowers. Last spring she had a very remarkable bed of tulips. These flowers are kept rotated in such a way that the Lamb residence is a bright spot all the year around.

Mrs. Lamb is a member of the American Rose Society and keeps her different roses plotted and registered in a book. She is constantly receiving new kinds of roses to try out here.

CHEESE TAKES ANOTHER RAISE

Carl Haberlach reports having advanced the price of Tillamook cheese one cent this week, triplets being now quoted at twenty five Tillamook Longhorns and Young Americas twenty six Tillamook. The continued dry weather is having its effects in bringing down the production of milk in Tillamook county, but it is believed that farmers are keeping up the milk flow considerable by heavy feeding, which the present price of cheese will justify. The association has built up a great demand for Tillamook cheese, and it is hoped that the demand can be supplied the coming winter and fall, even if it is necessary to feed to keep up the milk flow.
