MALNUTRITION!!

What is malnutrition? It is a weak
condition of the body caused by lack
of nourishment. The food may not
contain some element needed for
blood repair, or it may lack some-
thing for bone repair. The whole
structure is weakened thereby. Then
some day an organ gives away. Life
is cut short.
MILK is a wonderful nutrient ma-
terial that tones up the blood, cor-
rects the secretions of glands and
in due time repairs the damaged or-
gan or tissue.
