#### CHILDREN'S HOME NEEDED

(Continued from page 1)  
less little ones comes to us so insistently and the need is so great that we feel we must be ready to open the home of the reception of children in early fall but in order to do this we must have funds on hand to carry out the plans, so voluntary contributions will be gladly received at the Farm Home Headquarters 413 Stock Exchange Building, Portland.

#### WATER POWER NOT AVAILABLE

this power was unpractical to develop at present, but later as the requirements became greater these will be available as auxiliaries and then perhaps they may be developed. "So you see we have fully investigated all these possibilities and have rejected the same only after a thorough understanding which is based on actual facts and figures. "If any power was available that

could be developed at a cost that would not make it prohibitive we certainly would have been using it long ago; for our interest is common with that of our customers in reducing operating costs." After such an explanation, backed by the many reports and field notes, I saw the reason for all this idle water; and once more the conviction was impressed upon me that things are not always as they seem.

"On Patrol" Two Reel Mack Sennett Comedy.

#### AS FOUR HORSEMEN RIDE IN COAL FIELDS

The four horsemen are stalking in the coal fields of the United States, despite the seeming unconcern of the nation for an early settlement of the strike. Conquest, War, Famine—and Death—those are the silent riders which mine families are facing hourly in the struggle between operators and miners. Even while President Lewis of the United Mine Workers was in Washington, conferring with Secretary of Labor Davis—(below), and later with President Harding, riot was ruling at Herrin, Ill., where forty were killed and many wounded before order was restored. Above is shown all that was left of the power house at a strip mine in Herrin, Ill., after dynamite and the torch had been applied. President Lewis refused to agree to plans proposed by President Harding and Secretary Davis to end the strike.

#### STATE ENGINEER ISSUES NINETY FOUR PERMITS

During the months of April, May and June, ninety four permits were issued by State Engineer, Percy A. Cupper, for the appropriation of water from various streams throughout the State of Oregon. The permits cover the irrigation of 24,073 acres of land, the development of 4200 horsepower, and the use of water for mining, municipal, domestic, and various other purposes. The estimated cost of construction work under the permits is approximately \$1,008,000. During this period, two permits to construct reservoirs for the storage of 47,535 acre feet of water were issued, at an estimate cost of \$540,000.00. However, this statement includes the permits to the Ochoco Irrigation District, for the storage of 47,000 acre feet of water in the Ochoco Reservoir, and the irrigation of 22,000 acres of land which project was completed two years ago, at a cost of \$1,350,000.

In Tillamook County, the following permits have been issued:

To C. L. Large, of Forest Grove, covering the appropriation of water from an unnamed stream for domestic water supply, at a cost of \$450. To H. E. Rinehart, of Wheeler, covering the appropriation of water from Classic Lake Creek for develop-

ment of five horsepower, at an estimate cost of \$2,000.00.

The Whitney Co. of Garibaldi for the appropriation of water from Hobson Creek for municipal water supply.

#### SOME STRAWBERRIES

Cheese is not the only article of food that Tillamook can produce. L. C. Daniels of this city has a berry patch that is a wonder for production and size of berries. He has a patch that is 40 by 50 feet in size and from this small plot of ground 900 boxes were picked last year and so far this season 1200 have been harvested. They are of the Everbearing variety and 12 of these berries were left at this office this week which filled a box.

#### VALUABLE POLICE DOG IS RECEIVED BY CITY MARSHAL

City Marshal Henry White recently received from Green's Kennels at Witch Hazel Station a valuable German police dog. These animals are reputed to be valuable assistants in catching criminals and are trained especially along that line. Marshal White also received from these same kennels some time ago a blooded Airdale which he has since given to the fire department.

### School Gym, Sat. July 15

CHILDREN 25c; ADULTS, 50c; PAYS ALL

## Your Complexion Needs

FACE POWDER to keep these summer suns and winds from working havoc with its beauty.

MASSAGE CREAM to make your skin clean and glowing with health. Massage the facial muscles daily.

NIGHT CREAM AND DAY CREAM to keep the skin soft and free from wrinkles and make a wonderful base powder.

ROUGE, LIP STICK, EYE BROW PENCILS—finishing touches to toilet.

Your favorites are among them; it is a pleasure to show and sell them.

## C. I. CLOUGH CO. THE REXALL STORE

#### When The Tinker Came Along

Remember when you used to watch the "tinker man" mend the holes in your mother's pans? Solder was the metal used—and solder is a product of lead.

Countless other products of lead add to the comfort and convenience of your daily life. In your automobile, for instance, there is lead in the battery, bearings, glass of the headlight lenses, the rubber tires, the paint, and in the rubber mat on the step.

But more important than all these is the use of white-lead as the principal factor in good paint. The more white-lead any paint contains, the greater its protective power and its durability.

We, therefore, use straight "lead-and-oil" paint, made of the well-known "tried and true"

#### Dutch Boy White-Lead

and pure linseed oil—for both interior and exterior work. Any color desired obtainable.

Now is an ideal time to have that interior or exterior job done—"Save the Surface and You Save All." Let us estimate on your work—no obligation incurred.
