MALNUTRITION!!

What is malnutrition? It is a weak condition of the body caused by lack of nourishment. The food may not contain some element needed for blood repair, or it may lack something for bone repair. The whole structure is weakened thereby. Then some day an organ gives away. Life is cut short.

MILK is a wonderful nutrient material that tones up the blood, corrects the secretions of glands and in due time repairs the damaged organ or tissue.

COBB ON THE CORN FOR A CHANGE

Ty Cobb, the Georgia Peach, likes to attack "Corn on the Cob" whenever he gets the opportunity, though the great baseball player is not in any way cannibalistically inclined. He is seen here engaged in his second favorite sport.

E. W. Moore the artist, who was Portland's favorite photographer and oil portrait painter for many years, has built a beautiful bungalow studio at Lake Lytle, where he will make his future home. Mr. Moore painted several of the Governors for the State, and is considered one of the best artists on the coast. He is at present busy making photos of some of our beautiful young ladies of our coast towns for the Oregonians beauty contest. Mr. Moore says that our people will have a chance to have the same artistic work at about one half the price of Portland work and that visitors are always welcome. adv.
