### When The Tinker Came Along

Remember when you used to watch the "tinker man" mend the holes in your mother's pans? Solder was the metal used—and solder is a product of lead.

Countless other products of lead add to the comfort and convenience of your daily life. In your automobile, for instance, there is lead in the battery, bearings, glass of the headlight lenses, the rubber tires, the paint, and in the rubber mat on the step.

But more important than all these is the use of white-lead as the principal factor in good paint. The more white-lead any paint contains, the greater its protective power and its durability.

We, therefore, use straight "lead-and-oil" paint, made of the well-known "tried and true"

### TILLAMOOK MEN IN PORTLAND

(Oregonian, July 21st)

The wheat crop of eastern Oregon may not be up to standard, and the cherry crop of the Salem district may be a partial failure, but the cheese of Tillamook is a good one and is bound to be a strong factor in maintaining Oregon's prestige in an industrial and farm-center according to George Winslow, prominent attorney of Tillamook, who was in the city yesterday, registered at the Imperial. Mr. Winslow is a product of a Polk county farm himself, and so is capable of commenting on things agricultural. At one time he knew what it meant to cut cordwood in the summer time so that he could study law at Willamette university at Salem in the winter.

Rumor had it around the university campus that in addition to being a good student and a good football player, Mr. Winslow was also a good practical joker. For instance, there was authority for the belief that he could tell something about how a brass canon became mysteriously stolen from the statehouse grounds and was found perched on the front porch of the chapel next morning when the university president came down to conduct the customary services. There was also evidence that he might know how a cow became tied to the pulpit in the chapel one night. Even in those days, however, Mr. Winslow was a good attorney and the university detectives could not make a case.

Tillamook, Ore. is forging to the front as one of the active business centers of the state, according to Fred Small, fish cannery proprietor of that city. Mr. Small is in the city on business and is at the Oregon

### Society

One of the prominent marriages of the year was last Saturday evening when Will Kennedy and Mayme Folett were united in marriage at the home of the bride's parents at Fourth street and Third avenue of this city. Mrs. Retta Anderson sang "O Promise Me", Mrs. Harry E. Tucker played the wedding march, Minnie Pearl Tucker was ring bearer and flower girl. Rev. Harry E. Tucker performed the ceremony using the ring, in the presence of a large number of friends and relatives. The bride and groom are members of two of Tillamook's old pioneer families. They will make their home in this city after a short honeymoon. The Headlight joins their host of friends in best wishes.

**Twins Celebrate**  
A jolly bunch of youngsters met at the home of Ruth and Rolland Beals No. 394 East 1st Ave. Wed. p.m. to celebrate their 12th birthday and a right merry time it was, judging from their voices one could say with the poet "There is nothing on earth as joyous as the hearty laugh of a child". At five-thirty they gathered in the dining room decorated in pink and green. The color scheme was continued in the salads, cakes, fruits etc. They enjoyed a four course dinner, departing for their homes about 8:30.
