With Bryan telling the past and Doyle telling the future the only thing doubtful is the present.

Even an amateur gardener can raise an astonishing variety of blisters.

When an unmarried woman of thirty confesses her age we begin to suspect that she is engaged to an alleged millionaire.

Babies are still being born on farms but few of them ever learn to be satisfied with country life.

Live so that when you come to die your death notice will not appear among the list of town improvements.

Learn about the farmer

Back of all legislation must stand united public opinion which always is to be trusted in this nation when the people have intelligent understanding. Most of troubles come from imperfect knowledge and consequent lack of interest in public questions. For years this has been the case with the American farmer whose situation and importance until lately has not been even measurably sensed. As soon as the people generally in the great cities as well as in the smaller communities come to realize how much of the nation's prosperity depends on the farm then the wheels of reform will begin to turn with rapidity, and all the people will benefit.

Almost half our population is rural, living on six and one half millions of farms which employ approximately thirteen millions of workers. The value of the annual production of these men is \$19,176,015,000 which is greater than that of any branch of manufacturing.

What a sad commentary it is upon our legislative intelligence when we realize that in spite of these stupendous and important figures, the income of each farm factory or farm mine, whichever way we choose to visualize it, averages only \$2,793.

The province of government is to create prosperity, the greatest good for the greatest number, to harmonize the laws under which we live so that reward shall come to the people in relation to their service. There are between the City Hall in New York and the Battery Wall—a distance that can be walked in ten minutes thousands of high binders in the world of speculation who have never done an honest day's work in their lives, but who make often in a day and quite frequently in a week as much if not more than the average farmer makes in a year. It is getting time for the public not only to seek information regarding the farmer, but

When this demand is felt the information will be forthcoming, and when it is, equitable legislation for the farmer will lead a business development the like of which this country, great as it is, has never known.

DONT LET FIRE START

The Non-Partisan league is not dead nor even sleeping judging from the contest for the governorship of Oklahoma in which its candidate

is a leading figure.

It is actively engaged in politics in a number of western states and has staged a come-back in North Dakota by nominating the recalled governor for its candidate for U. S. Senator over Macumber, chairman of the senate finance committee.

The league is a whole lot like a small forest fire, if you can keep it under control no great harm is done but if it gains material headway, disastrous results follow.

Poem by Uncle John

This fact stands out beyond dispute: Cause and effect are absolute.

We violate life's perfect laws, which constitutes the active cause,—it may be passive, or neglect, which brings the swift and dire effect,—effect commensurate with the cause, so strict are life's unvarying laws!

Man's wilful sins may be forgiven, that mar his errant road to heaven,—though scarlet-red, or black, we know forgiveness makes us white as snow—But—violate life's least command, forgiveness lends no helping hand—and grim effect will follow cause, in this most stern of human laws.

If you should ask me why it's so, I'd have to say that I don't know.

From Uncle John.

HOMY PHILOSOPHY FOR 1922

Don't it seem fine to get into your boat, lie face up in the sunlight an' drift down the stream of life without a care in the world? You pass hundreds of rocks, the eddies switch the boat from side to side an' get you by safely, maybe with here an' there a little scratch but not enough to set you worryin'. An' then you get it. Bump, and over the falls you go. Boy, what a smash! If you have any thinkin' apparatus left you see where you tried to beat the game an' it didn't work out. Old Cap Nature says you've got to take hold of the oars an' row up stream if you want to land safely. Sometime's you've got to row mighty hard to make headway but you might as well tackle the job, because, there's no room for argument. Every river ends on the rocks or in the mudbanks and that's where the fellow lands who drifts down the stream.

Punchettes

by Rev. MA. MATTHEWS D.D. LL.D.

THE SHORTER BIBLE

The heretical, rationalistic forces do not seem to be satisfied with the wreck they have produced. They are responsible for the late war. They are also responsible for the crime wave sweeping this country and Europe. The orgy of sin and crime can be traced directly to false teachings. Like the vultures they make a feast of the decaying carcass. Not satisfied with the murder, expense, wreck, and ruin produced, they have written a shorter Bible which will perpetuate the orgy.

The astonishing thing is that there are leaders connected with the Y. M. C. A. and the Y. W. C. A., who have lent their names and their influence to the infamous, hell-born production called the shorter Bible. If the Y. M. C. A. and the Y.

mit their names and the names of their leaders to be attached to this abortion, then the righteous, orthodox Christian forces of America should crush the Y. M. C. A. and the Y. W. C. A. Our boys and girls cannot be intrusted to the leadership or to the educational and club features of institutions drawing their sustenance from the churches of the living Christ to have the faith of those children undermined by such infamous attacks upon God's infallible Word.

The Shorter Bible, so called, is one of the most blasphemous attacks that has been made upon God's Holy Bible. Let the Y. M. C. A. and the Y. W. C. A. repudiate their leaders or suffer the consequences.

Orthodox, self-respecting, consecrated men and women will not be insulted by such attacks of the rationalistic

UNIVERSITY OF OREGON

The UNIVERSITY OF OREGON contains:
The College of Literature, Science and the Arts with 22 departments.
The professional schools of Architecture—Business Administration—Education—Graduate Study—Law—Medicine—Music—Physical Education—Sociology.
The 47th Year Opens October 2, 1922
For a catalogue or any information write The Registrar, University of Oregon, Eugene, Oregon.

MODERN CRANKCASE CLEANING SERVICE

Your engine requires regular cleaning. Dealers who display this sign use Castrol Flashing Oil for safety and efficiency. They refill with Economy of the correct grade.

STANDARD OIL COMPANY (California)

Telephone Traffic

The signals of the traffic officer are obeyed instantly by the intelligent citizen, as he realizes that indifference means confusion and congestion.

Over the wires and through the switchboards of the telephone company there is a constant volume of traffic. Here there is also a signal—the ringing of the telephone bell. A great obstacle in the flow of this traffic is delay in answering the telephone bell.

Answer your telephone bell promptly. You will accommodate the party calling. Your own line will be more quickly cleared for other business.

How The Master Driver Became Master Tire Builder

IN 1903, driving the "999" racing car, Barney Oldfield started his career of victories that later earned him the title of "Master Driver of The World." To overcome the tire weaknesses that made racing difficult and dangerous, he studied tires—specified materials—supervised construction.

Today, Barney Oldfield is known as the "Master Tire Builder." Starting with the crude tires which carried the "999" one mile in sixty seconds, Oldfield gradually developed his famous Cords—a set of which covered 500 miles at eighty-eight miles an hour without a change.

In three years Oldfield tires have won every important race on American speedways. They are the only

American tires that have ever taken first place in the French Grand Prix. They have won for three consecutive years in the 500-mile Indianapolis Sweepstakes. So far in 1922, Oldfields have lowered four World's Records and seven track records.

The Wichita Test Run gave evidence of Oldfield superiority in touring—when a set of four Cords covered 34,525 miles over rutted, frozen, winter roads—a performance attested by the Mayor of Wichita.

See your dealer and get a set of these rugged tires that Barney Oldfield has developed and perfected through a lifetime of practical tire experience. Their performance will convince you that they are "The Most Trustworthy Tires Built."

- Malheur—Nugget worth \$125 found here.
- Baker—Modern apartment building under construction.
- Monmouth—Highway south of here to be paved.
- Bend—Large new theater building under construction.
- Contract has been awarded for erecting a school at Turner.
- Marshfield—New concrete hospital building being erected.
- Portland—Contract awarded for erection \$60,000 factory.
- Oregon City—Several roads in Clackamas County to be improved.
- Langlois—\$7000 school building to be erected.
