MALNUTRITION!!

What is malnutrition? It is a weak condition of the body caused by lack of nourishment. The food may not contain some element needed for blood repair, or it may lack something for bone repair. The whole structure is weakened thereby. Then some day an organ gives away. Life is cut short.

MILK is a wonderful nutrient material that tones up the blood, corrects the secretions of glands and in que time repairs the damaged organ or tissue.

Order Golden Rod Dairy Clarified Milk.

When The Tinker Came Along

Remember when you used to watch the "tinker man" mend the holes in your mother's pans? Solder was the metal used-and solder is a product of lead.

Countless other products of lead add to the comfort and convenience of your daily life. In your automobile, for instance, there is lead in the battery, bearings, glass of the headlight lenses, the rubber tires, the paint, and in the rubber mat on the step.

But more important than all these is the use of whitelead as the principal factor in good paint. The more white-lead any paint contains, the greater its protective power and its durability.

We, therefore, use straight "lead-and-oil" paint, made of the well-known "tried and true"

Dutch Boy White-Lead

and pure linseed oil-for both interior and exterior work. Any color desired obtainable.

. Now is an ideal time to have that interior or exterior job done-"Save the Surface and You Save All." Let us estimate on your work-no obligation incurred.
