One good thing about those small mustaches any way is that they don't droop

"Woman Always Pays," says a headline. Not when she can have it charged.

It is not for us to criticize those birds who insist that their ancestors were monkeys.

If a bee can sting like the devil on a diet of honey what would he do on a diet of lemon juice?

The truly good man will go to sleep in church rather than let his mind wonder on the price of hogs.

The local preacher who surrendered his permit to drive an auto after a smash up, must have had a guilty conscience and did the right thing by repenting.

The rain last week may have inconvenienced some of our visitors and campers, but it brought a smile of satisfaction on the countenances of every dairyman in the county.

It will be noticed that a letter, which appears in another column, makes the suggestion that instead of placing the word "Tillamook" on the cheese manufactured in this county, that it be changed to "Tillamook Oregon". The point is well taken, for this is not the first time that we have been informed that Tillamook is in some other state.

Business men of the county should all cooperate with the fair board in making the county fair a success. Quite a number of the business men have decided to have booths at the fair, but there are still some vacant booths to be had. The fair board asked the Chamber of Commerce to help in this matter, with the result that the business men will cooperate. But those who have not arranged for booths should do so at once. Displays by the business men have always helped to make the county fair a success.

Those who have had occasion to check over ballot boxes, tally sheets and election returns turned in to the county clerk after an election, know that election boards, in a large number of precincts, need a little education as to their duties. It often occurs, through the negligence of some election boards, that the official count is delayed on account of tally sheets being missing. This was a matter that the republican county central committee discussed recently, and in all probability a plan will be adopted where by election boards can be intelligently informed as to their duties.

Owing to the high cost of hard surfacing the main highways, it is a debatable question whether it is not more economical to macadamize and expend a certain amount every year on maintenance. It costs \$30,000 to construct a mile of hard surface road. Of course, the amount of travel and climatic conditions must be taken into consideration, but there are those who are inclined to think more roads could be built by not expending so much money on hard surfacing and more for macadam, with proper yearly maintenance.

**CHURCHLESS CHILDREN**

There are twenty-five million boys and girls outside of the Sunday School in this country. Every child in America should be in some Sunday School every Sunday morning. Every child should be accompanied to Sunday School by his parents.

The mother who doesn't bring her child into the world dedicated to God has committed a crime against the child. The father who doesn't lead his child to the altar of worship, reverence, and devotion has committed a crime against his child and against society; for he has left out of the child's training the greatest factor.

Parents who refuse to bring their children to church, and who refuse to allow their children to unite with the church and become devout Christian workers are stumbling blocks; they are curses to their children.

There is but one remedy for the condition in this country, and that is salvation by Jesus Christ. There is but one place in which that salvation can be found, and that is in God's infallible Word. There is but one institution authorized to teach that Word, namely the orthodox Christian church.

Every child should be in Sunday School and in the church pew on Sunday morning sitting beside his parents.

Children are never too young to be saved, nor if they are neglected and grow to be -so men and women hardened in sin they may become too old

to be saved. It is extremely expensive to the government for a child to grow to be old in sin and crime. It costs millions to save an old man from the error of his way. A child can be saved at the threshold of childhood and thus save his soul and society untold expense.

The father who uses his automobile on Sunday to take his child away from the church not only breaks the Ten Commandments, but he is a curse to the child and a menace to this government.

The father who spends his Sunday on the golf links is a fraud so far as a religious influence is concerned, and he is a menace to the spiritual development of his child.

It is the business of the father to be in the Sunday School with his child, and it is the business of the child to be in the church pew by the side of his father.

Why do people neglect to bring their children to Christ and into the church? Such parents and such neglect are bringing untold sorrow and expense and reflection upon this country. The juvenile courts and the penal institutions are full of the children who come from such homes.

Parents, you are either a curse or a blessing to your children. If you neglect your Sunday duty you are a curse to them. Children ought to be in the Sunday School and church if the nation is to be saved.

**Poem by Uncle John**

**"THE UNEMPLOYED"**

Each day abounds in mystery to tax the thoughtful mind, and add its bit of history in lore of human kind. . . . Each problem up for solving demands a potent skill, and keeps the wheels revolving in life's perpetual mill. . . . To me, the unsolved question is ever as before; dumbfound with its ingestion—bewilders more and more. . . . I grope amid its fastness, and tremble at its frown. . . . I marvel at its vastness—no soul can put it down! The question I refer to, is of the "unemployed." . . . The ones a job is dear to—but seldom is enjoyed. . . . They cry aloud to Vulcan, and Agricola's King—they crave to strike a welfin which never seems to ring! \* My soul is wrapped in wonder.—It is, so help me Mike! I have to work like thunder,—I ain't got time to strike! The ardent prayer for leisure is ever on my mind. . . . I'd pour out all my treasure, for a job I gouldn't find!

**HONEY PHILOSOPHY FOR 1922**

Fame is a wonderful thing. Think of the bird that first conceived the notion of starting a fire to keep warm before there was any fire. You know his name, of course. Then there was the boy who really owns all the gold in the world, the fellow who looked at a mountain, saw there was some stone in it, dug up the stone, saw there was metal in the stone and figured out how to get the metal out of the stone. You remember who he was, too. . . . And the other boy, what's his name—the chap tha: fixed out words that carried meaning, and spoke them at the rest of the gang so they could all converse? Everybody knows who he was. . . . There's no use talkin'. It's very important to get your name in the paper an' get a reputation.

**SAVE TIME AND WORRY**  
 The business or home woman will find a Commercial Account at the First National most convenient. It will save her much time, as she can sit at home and mail out checks, and it will save her the worry of perhaps having to pay a bill the second time, because she can't find her receipt. It is modern, up-to-date method, a simplifier of the many details involved in paying by cash. "Talk to us about it."

**The Genie of the Wires**

Aladdin summoned the genie of the lamp and any wish was immediately gratified. At your command there is the genie of the wires. He will take your voice instantly—without regard to distance—wherever you may desire to send it. You are familiar with the conveniences of local telephone service, but have you ever thought of the pleasure or profit available in the use of the long distance lines? The genie of the lamp was the servant of a single individual. The genie of the wires will respond to the call of every telephone user. Every Bell telephone is a Long Distance station.
