BIG POWER for BIG TRUCKS

If you want to keep your truck trouble-proof, feed it "Red Crown" and nothing else.

The quality of "Red Crown" is always the same, whenever and wherever you buy it. It vaporizes rapidly and uniformly in the carburetor. And it is consumed completely in the combustion chambers, converting all its heat units into power at the driving wheels. That means a better average mileage, and a sweeter-running engine.

Fill at the Red Crown sign — at Service Stations, garages, and other dealers.
