## DOUBLE MURDER AT GRAND RONDE SATURDAY NIGHT

### FIGHT WITH BOOTLEGGERS IS DEATH TO TWO FEDERAL PRO- HIBITION AGENTS; LOCAL DE- PUTY SHERIFF IS INVOLVED.

Early last Sunday morning New Grand Ronde in Polk county was the scene of a double murder in which Deputy Sheriff E. W. Holden of Tillamook came near being one of the victims.

Deputy Holden had accompanied G. H. Price and G. C. Todd, federal prohibition agents, to New Grand Ronde with the intention of making some arrests there for violation of the prohibition law. Jap Perry, also of Tillamook, who has turned states evidence in liquor cases, was in the party.

There was a dance at the settlement and in the course of the evening the prohibition agents arranged with an Indian of the place, Phillip Warren by name, to purchase some moonshine from him. It seems that Warren was acting as a selling agent for some white men who were manufacturing the liquor. The purchase was made and Warren put under arrest and ordered into the automobile of the federal agents under the guard of Jap Perry. The others of the party left to seek further evidence.

While Perry was guarding the Indian, Warren took the notion to attempt to escape and get a gun to take revenge on the federal agents. Perry says he tried to prevent Warren from getting out of the machine but that Warren knocked him down and ran away.

A little later Price, Todd and Holden returned to the automobile and were standing there when they saw Warren coming up the street with a rifle. Price and Todd jumped behind the car and Holden remained standing on the railroad track near the car. Warren began shooting and Price came from behind the automobile and grappled with the Indian in the hopes of taking his rifle from him. Price was armed and had his pistol pointed in Warren's stomach but refrained from shooting. One of the shots from Warren's rifle went between Holden's legs.

Warren, who was much the larger man, finally got Price down and shot him in three places, killing him almost instantly. He then turned his attention to Todd, who was still near the car. One shot from Warren's rifle blew a large hole through Todd's head, from the effects of which he died about forty five minutes later.

During this fracas Holden had been shooting at Warren as much as he dared to without hitting Price or Todd, until his pistol jammed on him and he had to stop. Perry was also armed, but his revolver stuck.

Warren made off up the street and took his stand upon the porch of his house where he defied anyone to take him. Holden had wounded the Indian in the back however and this wound was bothering the murderer so much that he finally left the house and attempted to get a doctor.

Subsequently he was captured and landed in jail at Dallas, the county seat.

Deputy Holden says that Warren was not drunk as was reported in former news stories, but was just mad for revenge.

## CATTLE INSPECTED FOR TUBERCULOSIS

It has been a busy summer for Dr. J. N. Shaw, county veterinarian and from the appearance of the situation he will be busy into the winter. The testing of milk cattle for tuberculosis reactions has consumed a large part of Dr. Shaw's time.

Dr. Shaw made the following statement this week regarding the order in which cattle will be tested. "Many inquiries are coming into the county veterinarian's office concerning when certain animals will be tested. The testing is being conducted in the order of cheese factories for which they produce.

"At the present time factories have been tested up to and including Hebo. Sandlake will be next, followed by Blaine. After the cows of the Blains factory are tested the cows in the north end of the county will receive attention. This will complete the factories in outlying districts and will allow for testing the majority of the cows in the county in the fall of the year.

"The percentage of reactor so far is somewhat below one percent. "No exceptions will be made to the present order of testing unless special circumstances allow."

## BOXING CARD HOLDS IN- TEREST FOR LOCAL FANS

One of the best boxing cards of the year was put on last Wednesday evening at the city hall auditorium by the city boxing commission. A fair sized crowd considering the time of week.

The main go between Gordeau of Boise, Idaho and Hauser of this city for ten rounds was a good clean fight. Referee Chas. Mann gave them a draw and the decision was good. The first bout on the card of 4 rounds was a slam bang affair between Bennett and Hare both of this city. Hare won the decision on points, 3 out of 4.

Johnson of Cloverdale won over Gooch of this city in points in a four round go. This was Johnson's first public appearance in the ring and with the proper training will make 'em all top. These boys donated their fight for the benefit of the American Legion.

Jimmy Anderson won from Virgil Benthson of McMinnville in the fifth round of a six round go. In the end of the 5th Jimmy planted a right to the face of Benthson that dazed him but the bell saved a knock out. His seconds threw in the towel between rounds.

## PERRY THOUGHT TO HAVE GIVEN THE MURDERER HELP

Further complications in the murder crime at New Grand Ronde last Sunday morning came yesterday when Jap Perry was ordered held for possible complicity in the crime. Some of the officials think that Perry warned the bootleggers at Grand Ronde of the proposed raid and that he probably helped the Indian Warren escape from the automobile in order to obtain a rifle to take revenge on the officers.

Perry is being held in Tillamook without bond pending the outcome of the investigation.

## YOUNG MEN APPREHENDED FOR STEALING AUTO TIRE

Three local youths were arrested this week for stealing a tire from the automobile of George Hoskins. The tire was taken Sunday night. No hearing has been set in this case as the guardian of one of the boys is out of town.

## ROADS IMPROVED DURING SUMMER OF GOOD WEATHER

### MORE ACCOMPLISHED IN 1922 THAN IN ANY FORMER YEAR; MANY SMALL ROADS RECEIVE ATTENTION FROM COURT.

Though the past few weeks have been very disastrous to the road program of the county, much had been accomplished during the exceptionally dry summer months.

It is estimated by county authorities that the road work this year amounted to at least one hundred percent more than any previous year.

The road north to the Clatsop county line is now open but not yet completed. There has been considerable regrading on this project.

The Wilson river road is now open, the steel work and decking on the new bridge having been completed this week.

Quite a bit of work has been done on the Blain road and the steam shovel has been put to work on the Sand Lake road.

A mile of new construction has been put in from Johnson's crossing to the camp of the Coats Driving and Boom Co. south of the city. The Bewley creek road received a general overhauling during the summer.

Something that has never been done consistently before is the placing of stock piles to fill up bad holes during the winter months. This plan has now been carried out throughout the county.

Mr. and Mrs. Lyle Smith were in the city the first of the week visiting Mr. Smith's parents.

## AN EXPLANATION

With this issue of the Headlight Leslie Harrison again takes charge. When the undersigned announced on August 4th the change in the management it was done in good faith and with the absolute understanding with Mr. Harrison that final and satisfactory arrangements would be completed. The latter part of the month final settlement was attempted but failed. Contrary to reports, no terms of payment had been arranged for therefore none could become due and unpaid.

We thank you for the expressions of good will and success to us the short time we served you.

EUGENE CROSBY

## A POPULAR COLLEGE IS DOING PRACTICAL WORK

The students of the Polytechnic College of Engineering of Oakland, California have as a part of their training practical engineering work. The College frequently takes Engineering contracts and the advanced men are engaged in Engineering and Construction work which gives them the most valuable training it is possible to give.

These courses cover Civil, Electrical, Mining and Mechanical as well as Automotive Engineering. The method of combining theory with practice is carried out in this well known College perhaps more successfully than in any similar school in the country. By omitting non-essential subjects and concentrating upon the subjects required in engineering practice, a great saving of time is effected.

Degrees are granted to men who complete full courses.

## BURNING WITHOUT PERMIT

Elmer Troutman of Blaine was arrested and fined last Friday for burning without a permit from the forestry service.

## EVERYTHING READY FOR FAIR TO START TUESDAY MORNING

### ENTRIES ARE INCLINED TO BE LATE. SAY FAIR OFFICIALS; COWS NOT TESTED FOR T. B. NOT ALLOWED TO ENTER.

County fair officials are complaining that too many people are waiting until the last minute to make entries and that Monday will probably see a crowded condition at the fair office.

The county agent's office will be closed Monday morning and all entries after that time must be taken to the fair grounds. It will be permissible to bring small entries such as poultry, vegetables, etc., to the secretary's office at the fair grounds until Tuesday noon.

Dr. Shaw states that all animals for which reservations have been made have either been tested for tuberculosis or are now undergoing test, and that animals that have not been tested will not be allowed to enter.

The carnival company that will have charge of the concessions at the fair this year is expected in Monday.

The Monday Musical club will meet September 11, at the home of Mrs. Koch. The meeting will be called at 2:30 sharp. This is the first meeting this fall and all members are requested to be present.

Anyone wishing to join the club may hand their name to a club member. Active membership fee is \$1.00 a year, inactive, \$2.00.

This year the club takes up the study of opera. Wagner, the greatest of all opera composers, and his opera "Fannhauser", will be taken up first.

## NEW MAIL ROUTE STARTS SATURDAY

One week from tomorrow, September 16, will start the new postal route by way of Grand Ronde to Tillamook.

Bids were called for sometime ago by the postal authorities and John Jenck of this place was found to have been the successful bidder.

The new route will be by means of stage over the south highway and it has been arranged that this stage will leave here as soon as possible after the arrival of the train in the afternoon. The return trip will be scheduled so as to have the mail arrive here from valley points some time during the forenoon.

The consideration upon which Mr. Jenck received the bid was \$5668 per annum. This is for the six round trips weekly.

## TILLAMOOK CALF CLUBS ARE DOING GOOD WORK

Tillamook Jersey Calf Club met Thursday, August 31 to pick a judging team for the county fair. Members chosen to represent the club at the fair are: Allen Krake, Thelma Hoover, and Edwin Glad; Nadine Williams and Argil Ackley were selected as alternates. This club took first place in the county last year in the judging and promises to give some keen competition this year.

Tillamook Holstein Calf Club met Friday, September first, to pick a judging team for the County Fair. This club visited the herds of Homer Mason and F. R. Beals and judged one at each place. Members selected from this club for the team at the County Fair are: Theodore Jacobs, Flora Shields and Jack Mowery; Francis Powers and Lily were picked as alternates. This club took second place in the judging last year and sent a team to the Portland International Live Stock Show.

The Tillamook Guernsey Calf Club met Tuesday, August 29 to pick a judging team for the County Fair. The club visited the herds of Homer Mason, Lester Daniels and F. R. Beals. Members chosen to represent the club at the County Fair are: Gerald Crenshaw, Lenhardt Gienger, and Kenneth Williams; Walter Naegerl and Francis Blaser were chosen as alternates.

Public swimming nights have been changed to Tuesday for ladies night, and Thursday for family night. No children above fourth grade are admitted at these times.

## LARGE NUMBER OF FISH PLANTED IN LOCAL STREAMS

Game Warden Russell reports the following plantings of fish in the stream of the county. 120,000 eastern brook in Lake Lytle, 120,000 eastern brook in Smith lake, 60,000 black spotted trout in the Kilchis, 40,000 steel heads in the Kilchis, 120,000 steel heads in the Wilson, 120,000 steel heads in the Tillamook, 40,000 black spotted trout in the Three rivers, 40,000 steel heads in Three rivers, 700,000 steel heads in the Trask, 1,000,000 chinook in the Trask. All of these fish were from the Trask hatchery.

## EX-NUN IS IN THE CITY GIVING LECTURES

Miss Schoeffen, former Roman Catholic Nun, has been in the city for the past few days giving a series of lectures on the life and treatment of the nuns of the charitable order of which she was a member. Miss Schoeffen was nurse at St. Vincent's hospital, Portland, for some time where she was known as Sister Lucretia.

## JENSEN-NOLEN NUPTIALS

Chester W. Jensen and Minnie F. Nolen, both of Hebo, Oregon, were married Saturday, September 2, at the Christian parsonage by Rev. H. E. Tucker. The ring ceremony was used. They were attended by a number of relative and friends.

## SCHOOL STARTS MONDAY WITH BIG ATTENDANCE

### BAD WEATHER DOES NOT DETER MANY CHILDREN FOR ENTER- ING THE FIRST DAY OF THE SCHOOL YEAR.

The wet weather Monday did not keep the Tillamook going people from appearing on the first day of the school term, and a large enrollment greeted the teaching force at nine o'clock. The opening enrollment by grades this year was: 1st, 50; second, 56; third, 65; fourth, 69; fifth, 36; sixth, 36; seventh, 36; eighth, 30; ninth, 59; tenth, 53; eleventh, 22; twelfth, 35; unclassified, 3; or a total of 550, as compared to last year's opening total of 590. Both high school and grades school are overcrowded, and more are registering daily. If the late enrollment equals that of last year it will compel the school board to arrange more pace, as the two temporary buildings put up last year are not sufficient to take care of the increase.

Miss Helen Pettit will have charge of music and art this year. With the large high school enrollment, there should be enough musically inclined students to form a good high school orchestra, as well as the usual glee clubs.

The plan of serving some thing hot to the students who have to bring their noon lunches proved so successful last year that it will be continued again. One or two hot dishes, such as cocoa or soup, will be served under the direction of the home economics teacher, Miss Ryder. These will be served at cost, and children are expected to bring the rest of their lunch with them. The cafeteria will not open for a few days.

Public swimming nights have been changed to Tuesday for ladies night, and Thursday for family night. No children above fourth grade are admitted at these times.

Public swimming nights have been changed to Tuesday for ladies night, and Thursday for family night. No children above fourth grade are admitted at these times.

## LOCAL INFANTRY COMPANY NOW DRILLING WITH GUNS

Rifles were issued to the enlisted men of Company K Wednesday evening as the foot drill had progressed sufficiently for the more complicated work. The local company is coming along very well and Captain Shearer is anxious to match his men with those of other companies in the Oregon National Guard.

The drill night has been changed from Wednesday to Monday.

L. B. Ziemer who was formerly was a cheesemaker here, is in the city on a business trip.
