NEW PLANS FOR LEAGION WEEKLY

The American Legion Weekly has just inaugurated a plan for distribution of the weekly which will financially benefit Legion men and at the same time make the bank balance of the post larger. By acting as local distributing agents for the news stands sales of the weekly a certain percentage of the total sales will go to the Legionnaire doing the distributing and to the post treasury.

The news stand director of the weekly has mapped out a plan for placing the Legion's magazine on the news stands which has features no other magazine can offer. Under this plan post treasuries and post membership can work up a steady income. Write the news stand director at the weekly. He'll tell you more about making pockets bulge.

STATE ARMORY GOAL OF CITIZENS OF TILLAMOOK

Plans are being put on foot for the building of an armory in Tillamook some time within the next year or so. The need of such a building has long been felt and now that Tillamook has a company of national guard it seems that this need may be fulfilled. The state will furnish for armory purposes an amount equal to that appropriated by the county, and to build a \$40,000 building all that will be necessary to raise here will be \$20,000. The county court has shown its willingness to do its part of the program and a large number of individuals have indicated that they will help.

It will be necessary to go before the legislature next term with a bill for the appropriation. It is understood that this is being prepared and will be tendered at the next session.

Just where the location will be is in doubt but several plots are considered.

A \$40,000 state armory would be a wonderful addition to the city and would furnish a building for the home and drilling place for the local company of infantry, besides headquarters for several other ex-service mens organization and their auxiliaries.

The convention possibilities should not be overlooked either. Tillamook has already turned down several good state conventions because it had no place to house them. Conventions bring money into a community and a few would doubtless pay for the armory.

Local business men are quitely but steadily going after an armory and soon may land their proposition.

Repair Of Building Is No Indication Of Boom

Press reports were published last week that the Coats Lumber company was repairing some of their buildings at Hobsonville and that they were expected to start the mill at that place before long. This was contradicted by F. A. Beltz of the lumber company this week. The buildings at Hobsonville are being re-roofed at a matter of preservation and not for the purpose of starting the Hobsonville mill, says Mr. Beltz.

FAIR IS LARGEST EVER PUT OVER IN THE COUNTY

Tillamook County's ninth annual fair closes today after having been unanimously voted as the most successful ever given here.

Secretary W. D. Pine this morning stated that the gate receipts up to and including Thursday night amounted to \$2940. and that before the fair is over they will total more than \$1000 higher than last year. The money received from concessions and booths will amount to about \$500 says Mr. Pine.

The largest crowd ever assembled at one place in the county witnessed the famous picture "Birth of a nation" which was shown at the fair grounds Wednesday night. It is estimated that 4000 people attended the showing of this picture. The grandstand was filled at least an hour before the performance commenced and it was necessary for the larger part of the crowd to find seats on the ground in front of the stand.

The airplane that had been secured to fly during the fair came to grief yesterday when it crashed to the ground soon after starting its flight. Neither the pilot or wing walker, both of who were in the machine, were hurt by the fall.

AMERICAN LEGION TO BENEFIT BY FAMOUS PICTURE

As a benefit for the local post of the American Legion the proprietors of the Gem theatre are showing this week the great American historical romance "Cardigan"

This picture has been secured by the American Legion post here and the profits derived from the show will be given to the post.

"Cardigan" is the picturization of a historical drama by Robert W. Chambers and deals with the period leading up to the American Revolutionary war and shows the part played by a young man who joined the army of Washington. The historic ride of Paul Revere is brought in to the play. To quote from the American Screen.

"It tells the romantic love story of a youthful pair which threads its way through the outset of the American Revolution and leads you right into the high spots of the early American history period. All the well known patriots who became historically famous through their activities in the Revolution. John Hancock, he of the large bold signature, who lived to display that signature on the Declaration of Independence, is seen in all his simple glory, while Patrick Henry electrifies the audience with his famous speech which contains that never to be forgotten line "Give me Liberty or give me Death." Then there is the Paul Revere incident, showing this thrilling scene from start to finish with not one detail missing."

"Cardigan" will be shown at the Gem theatre next Thursday and Friday only.
