### MALNUTRITION!!

What is malnutrition? It is a weak condition of the body caused by lack of nourishment. The food may not contain some element needed for blood repair, or it may lack something for bone repair. The whole structure is weakened thereby. Then some day an organ gives away. Life is cut short.

MILK is a wonderful nutrient material that tones up the blood, corrects the secretions of glands and in due time repairs the damaged organ or tissue.

### Baby Wants Name, Not Gold, says mother.

CORNELIUS VANDERBILT WHITNEY

MISS EVAN BURROWS FONTAINE

The son of multi-millionaire Harry Payne Whitney, Cornelius Vanderbilt Whitney, has been asked to give his name to the 18-month-old baby of Miss Evan Burrows Fontaine, noted Oriental dancer of New York.

The action was started when the engagement of young Whitney to Miss Marie Norton, society girl of New York, was announced.

The dancer claims young Whitney wanted to marry her while he was student at Yale but she refused as theirs was a true love match and she didn't want to hurt his career. He grew cold, she says, when she told him of the baby, which she now calls Cornelius Vanderbilt Whitney, Jr.

It's a name not gold that my baby wants, she says.

Miss Norton says her friendship for young Whitney is unchanged.

### Europe Greet Former Pres. Taft

Former President Taft made no flamboyant announcement of his trip to Europe this summer, still he is being received with enthusiasm and interest at every center visited. In London he was honored at state affairs and dinners in a way befitting his ability. The fact that he is now chief Justice of the United States impresses Europe. The tour is developing into triumphal trip not unlike that tendered other presidents on visits there. Picture shows Mr. and Mrs. Taft arriving in France. It also shows how the former president has lost in weight.

Never before in the history of Tillamook county have so many road improvements been made as in the past few years. With the completion of the road work this year, the people of Tillamook county have reason to congratulate themselves on the wonderful improvements that have been made. Visitors who have come to the county this year have highly commended us on the splendid roads, who have compared them with other counties. It is not generally known, but next year what is known as the Roosevelt highway will be practically constructed from the Lincoln county to the Clatsop county lines, with a standard gauge road, hard surfaced and macadamized, with substantial concrete and steel bridges. Tillamook county set the pace in the building of this great highway, and the other counties will have to hustle to catch up with this county.

A number of small towns like Tillamook have had serious fires recently. Marshfield was the last to suffer. But it is the same old story. Fire traps and old frame buildings. There is no telling, but this city is liable to have as serious a fire as Marshfield. But what is most surprising, business men will continue to do business and place valuable stocks in fire traps, only to wake up some morning to find their stock gone. It may be a radical proposition to advocate, but the logical way to bring about a change and rid the city of fire traps in the business portion of the city, would be to compel the owners to remove them within a time limit.
