Dayton, Newburg, Multnomah.

# MALNUTRITION!!

What is malnutrition? It is a weak condition of the body caused by lack of nourishment. The food may not contain some element needed for blood repair, or it may lack something for bone repair. The whole structure is weakened thereby. Then some day an organ gives awrv. Life is cut short.

MILK is a wonderful nutrient material that tones up the blood, corrects the secretions of glands and 'n due time repairs the damaged or gan or tissue.
