M., north to the center of section 19 in said township and range.

Tillamook county, Oregon, also has a County Road 60 feet in width extending across said district from the quarter section corner on the west side of section 19, township 1 south of range 9 west, W. M., and running thence south and southeasterly to the Hoquarton slough and being a distance of over three-fourths of a mile.

Tillamook County, Oregon, also has another county road 60 feet in width extending across said district from north to south, from near the northeast corner of the southwest quarter of the northeast quarter of section 20, township 1 south of range 9 west, W. M., and running southwesterly to the south side of the northwest quarter of the southeast quarter of section 20.

The proposed reclamation and protection of such lands is for sanitary and agricultural purposes and the proposed reclamation and protection will be conducive to the public health and welfare and of public utility and benefit.

All of the lands included in said proposed district are properly therein and will be beneficially affected by the operations of said proposed district.

VII. The benefits of such proposed reclamation and protection will exceed the damage to be done and the best interest of the land included and the owners of such lands as a whole and of the public at large will be promoted by the formation and proposed operations of such district.

VIII. The formation of the Drainage District under the provisions of Chapter 340 of the General Laws of Oregon for the year 1915 as amended and as now included in sections 7247 to 7286 inclusive of Oregon Laws 1920, under the provisions of which such District is proposed to be organized is a proper and advantageous method of accomplishing the reclamation and protection of the lands included in said proposed Drainage District.

IX. The proposed plan for the reclamation and protection of the property in the proposed drainage district is that there shall be constructed in the Wilson river at or near the easterly end of the proposed district dams or other structures to deflect the waters of Wilson river from running into Dougherty slough, which is a slough connected with said Wilson river and intersecting therewith at a point at or near the section line between sections 20 and 21, township 1 south, range 9 west, W. M., and running thence in a southeasterly direction and empties into the Hoquarton slough at or near the north line of section 25, in township 1 south of range 10 west, W. M., and the waters from Wilson river having had a tendency heretofore to wash away its banks on the south side near the upper end of the proposed District and throw more of the water therein into said Dougherty slough so that it is feared that if the waters are not restrained the greater part of the

Wilson river will be diverted into Dougherty slough and destroy a considerable portion of the lands lying along said slough which are lands included in the proposed District and it is the purpose of the said proposed District to guard against that happening by erecting such dams or other obstructions in and about the Wilson river as will turn the waters away from the Dougherty slough and prevent the main waters of Wilson river flowing therein.

X. The signers hereby agree that they will pay any and all expenses incurred and any taxes that may be levied against their lands for the purpose of paying expenses in organizing or attempting to organize the proposed district.

XI. Wherefore, your petitioners pray that the lands described or such of them as may be found by the court to be properly included in the proposed District shall be declared organized into a Drainage District under the name proposed.
