

NEW YORK CITY HOME OF GRAFTERS

WASHINGTON, Oct. 23—It has often been asserted that when the sharpers and swindlers want to do business on a large scale they flock to New York City and find more "easy marks," "good things," and "come ons," than they can find in any other section of the country. No doubt that is true for New York is the center of the most populous region of the United States. No statistics have been prepared on the subject, but the best information at hand shows that the crop of "suckers" average about the same all over the country. The vender of fake stocks seems to find victims every where in proportion to the population.

Commenting on this subject, Lew Wallace, Jr., Director of the Government Savings System, says that the gambling spirit among the people, the desire of the average American to "take a chance," is responsible for the success of the fakers, swindlers, and sharpers who are taking money away from the people. "Here is where the Government steps in and does a great work," said the Director. "It offers the people a high class investment in the Treasury Savings Certificates, a security that is within the reach of all, and at the same time it is carrying on an educational campaign to tell the people to avoid the swindlers. Speaking of New York as the best field of the sharpers I am reminded that only recently right here in the National Capital, under the shadow of the Washington monument, as it were, the business men found it expedient to organize to protect the people against fake stock selling concerns. Bankers, merchants and professional men, as well as the more humble citizens are being caught by the shrewd operators. It was estimated that 100 concerns were selling worthless stock and other fake securities in the city of Washington. It is amazing that these swindlers can succeed in the face of all the warnings which have been given them against such persons."

A Great Girl Rider

Doris McCleave is probably better known to the general public than any other show horse rider in the west. Her youth, her magnificent riding and daring combine to make her an idol with the people. The picture shows her on her horse "Victoria," going over the bars. She will be at the Night Horse Show of the Pacific International Live Stock Exposition, Portland, Ore., November 4-11.

The Night Horse Show became so popular last year that three matinees were added to the program, and they will be continued this year, of course.

Over \$16,000 is offered in premiums for the Horse Show alone and seven \$1000 stakes are offered—almost unprecedented in horse show annals. One of these is for the heavy horse driving contest, an event of wild excitement among the horsemen. The horse show this year is replete with color and action. Some of the finest horses of the entire country will show their paces in the big arena, and some of the most enthusiastic horsemen, drivers and riders will exhibit the paces of the prancing beauties of the equine world.

Children Using Milk Make Most Rapid Progress

Fifty two thousand five hundred children of Los Angeles were questioned as to the amount of milk they consumed daily, their ages were recorded and heights and weights obtained. The heights and weights of these children were compared on the basis of their consumption of milk, and the figures revealed the startling fact that in every age, without exception, the milk-using children were taller and weighed more than the non-milk using children. It was also found that the milk-using children made more rapid progress in their studies. In every grade the milk-using children were slightly younger than the non-milk using children. The milk using children gained on the average 2.28 years on the non-milk using children, from the kindergarten to the eighth grade.

Taxes and the Governor

When a candidate for the high office of governor bases his candidacy on certain claims and promises as to what he will do if elected, the public is entitled to have his claims analyzed and examined.

In this campaign, Walter Pierce has gone about the country melodramatically tearing tax bills in two by way of illustrating what he will do to taxes if elected.

The voter, then, should analyze the tax matter to the extent of becoming informed as to just what part the governor plays in imposing or reducing taxes.

In the first place, the voter should know that the total levy in Oregon for 1922 is \$40,473,906.

This is a reduction of over \$1,500,000 from last year, so that it will be seen the high cost of government following the war is already receding.

Of this 1922 levy of 40 million, over 31 million was for county, city and school district purposes, over which the governor could have no possible control whatever.

Of the remaining 9 million for state purposes, only 3 1/2 million are taxes over which the legislature has any discretion, and of this amount, only 2 1/2 million are for the actual expenses of state government and might, therefore, in even the remotest degree, be charged to the methods employed by the governor in administering the state's affairs.

In passing, it should be noted that this state levy is an increase of 41 per cent, since 1916, and not several hundred per cent, as stated on various occasions by the democratic candidate. It should also be noted that less than half of this 41 per cent occurred during Mr. Olcott's administration. This ability to keep down the cost of the state government to so small an increase, when living expenses in the ordinary home in the same period increased over 100 per cent, is a most creditable showing.

MR. PIERCE'S TAX RECORD

It is proper at this point to examine Mr. Pierce's own record on taxes and see if past actions as a legislator square with his words.

Of the \$9,376,289 of state taxes for 1922, which include the millage taxes, MR. PIERCE SPECIFICALLY HAS APPROVED OF \$8,564,039, or 92 per cent. He had no chance at most of the other 8 per cent.

Of the 1922 state taxes, Pierce introduced bills accounting for \$1,429,120, or 15 per cent.

In addition to this, he voted for tax bills introduced by others to the amount of \$8,114,

109, and he has given his public approval on numberless occasions of measures passed since he was returned from the legislature causing taxes amounting to \$1,020,804, making a total of state taxes approved by Pierce of \$8,564,039, or 92 per cent of the total 1922. There is no telling how much of the remainder he might have approved if he had had a chance, and it may be significant that the state taxes have decreased over 11 per cent since Mr. Pierce was retired from the State Senate.

Mr. Pierce has always been a consistent tax booster. He voted against only three per cent of all the appropriations of the 1919 session of the legislature and voted for all the appropriations of the 1920 special session.

In 1917 Mr. Pierce introduced a bill to exempt money, notes, mortgages and accounts from taxation. Yet he poses as being anxious to take the burden off real estate!

He voted for submission of \$400,000 bond issue to build a new penitentiary.

Mr. Olcott, at no TAX expense and with prison labor, has fixed up the old penitentiary in excellent shape for another 25 years.

Mr. Pierce voted against accepting road machinery from the government. That machinery now amounts in value to \$1,800,000.

GOVERNOR OLCOTT'S RECORD

The above are but a few of the extravaganzas of Pierce. Mr. Olcott, on the other hand, has conducted the business of the state in an economical, sane and business-like manner. He has saved the state thousands of dollars because of his level-headedness and his intimate knowledge of state affairs. He built a new Boys' Industrial School Building by diversion of a millage fund, and therefore, without a single cent additional tax. He has insisted upon development of the various state farms connected with the state institutions until the present year shows the unprecedented income from this source of \$491,511. He is no talker, no politician, no idle premier and is not seeking reelection under false pretenses nor catering to prejudice, but is going to the people on his own splendid record, confident that if he can but get that record and Mr. Pierce's record before the voters of Oregon that he will be vindicated on election day, Tuesday, Nov. 7th.

Stumping Costs Are Lower This Year

Local results have proved that Pacific Stumping Powder will clear one-half more land per dollar than other standard stumping powders.

You can buy enough Pacific Stumping Powder to clear an acre and a half this year for the same price you formerly paid for dynamite enough to clear one acre.

Last Spring actual experience in this district proved the non-freezing and non-headache features of this unequalled stumping powder. We expect a big demand for Pacific Stumping Powder this season. Order yours today.
