Remember, THAT WE BUY HIDES

by using **DU PONT PACIFIC STUMPING POWDER**

HERE'S what you've been looking for,—a dynamite equal in strength to other stumping powders but costing less per stick! And we have it for you in PACIFIC STUMPING,—a powder made by du Pont, whose explosives always give satisfaction. Besides having 130 1/4 x 8-inch sticks to the 50-pound case,—other standard stumping powders having about 85—PACIFIC STUMPING POWDER will not freeze nor cause headache from handling. So you have three reasons for shooting PACIFIC STUMPING.—(1) one-half more sticks to the case; (2) no thawing; and (3) no headaches! Every dollar spent for PACIFIC STUMPING Powder buys half as many more sticks as you can buy of other powders. Come in and let us give you an estimate of cost of PACIFIC STUMPING for your land-clearing.

# GEM THEATRE

Sunday-Monday, November 19-20  
**"Is Matrimony a Failure?"**

featuring an all-star comedy cast, including T. Roy Barnes, Lila Lee, Lois Wilson and Walter Hiers. It's one of the jazziest smile and comedy pictures ever made.  
Fox News

Tuesday-Wednesday, November 21-22  
**Johnnie Walker in "MY DAD"**

In the past we've shown pictures which were dedicated to "Mother" and all the other members of the entire family—but here we have one dedicated to "My Dad," showing his love, self-denial and endless toil to give to us that which he feels should be ours. It's a big picture of the vast stretches of wilds in the far North with lots of action and true Northern atmosphere. If you see this one then you'll be in a position to appreciate "My Dad."

Thursday-Friday, November 23-24  
**Marshall Neilan's**

**"FOOLS FIRST."** A story of the rise and fall of Tommy Frazer, born and bred in the crookedest surroundings of New York's gangdom—yet able to escape the seeming inevitable end of all who are raised under like conditions. With a master criminal mind, able to conceive and plot the crookedest schemes, but with a willpower that keeps him straight—a splendid story produced as only Mickey Neilan can do it.

## Children Using Milk Make Most Rapid Progress

Fifty two thousand five hundred children of Los Angeles were questioned as to the amount of milk they consumed daily, their ages were recorded and heights and weights obtained. The heights and weights of these children were compared on the basis of their consumption of milk, and the figures revealed the startling fact that in every age, without exception, the milk-using children were taller and weighed more than the non-milk using children. It was also found that the milk-using children made more rapid progress in their studies. In every grade the milk-using children were slightly younger than the non-milk using children. The milk using children gained on the average 2.28 years on the non-milk using children, from the kindergarten to the eighth grade.

EVERY CHILD SHOULD HAVE A QUART OF RAW MILK DAILY. ORDER GOLDEN ROD DAIRY CLARIFIED MILK.
