Red Cross Water First Aid Makes Life-Saving Gain
More than 325 Chapters engaged in life saving or water first aid last year with the result that the American Red Cross Life Saving Corps has set a new high mark for enrollment and the number of qualified life savers developed. The influence of "Learn to swim week" in many localities is reducing the water fatalities through instruction and the wider dissemination of resuscitation methods demonstrated by the Red Cross representatives. Excellent work has been done in teaching a large part of the American population how to take care of itself in the water. Growing appreciation for this Red Cross Life-Saving Service is shown by the compulsory instruction adopted in many cities for members of the police and fire departments in the prone pressure method of resuscitation.

Help to Help Others
You can't "give until it hurts" for giving an American dollar to join the American Red Cross helps you to help others who are hurt and who need relief.
