COMPLETION OF BRIGHTON ROAD NOW IN SIGHT

Prospects for the early completion of the Manhattan-Brighton section of the Roosevelt highway are shown in a communication received this week from R. W. Watson at Salem.

"I have just had an extended interview with the highway department here at Salem," says Mr. Watson, "and have been given the assurance by Mr. Nunn, State Highway Engineer, that the Wheeler highway section will be completed this year and the contract will be called for in the February meeting.

"Mr. Nunn assured me that $65,000 of funds were available to complete this unit of which the state will contribute $40,000 and the county of Tillamook $25,000, the county portion to be reimbursed by the highway department, $10,000 this year and $15,000 next year. Mr. Nunn assures me that he is very anxious to see the Manhattan-Brighton section completed as soon as possible and especially is this so before he retires from office on March 1. Mr. Nunn tells me that this is a little out of the ordinary for completing new work as grading and work of this character is left to the counties and the state highway department under the rules completes the surfacing and in this connection the highway department has taken charge of the grading and completion of rocking this section of the road. M

"I have in my possession a complete detailed report with maps and data for the completion of the Roosevelt highway and as the Federal Government has now designated this a road of primary importance and funds will soon be available the Honorable B. F. Jones of Lincoln County and Father of the Rossevelt highway is introducing a joint bill in this session which will provide that any moneys that may become avalable from the Federal Government for the Roosevelt highway shall immediately release a like amount from the state highway fund for the Roosevelt highway on a fifty-fifty basis as voted by the people in the original Roosevelt bill, appropriating $2,500,000 contingent upon federal aid. This then puts the Roosevelt highway in line for early completion and with these conditions quickly brought about you can readily see that within the next two or three years at the most, the highway will be completed connecting up all of the counties of the coast from Astoria ti the California line."

The county court ha salso received assurance from the highway department along the same lines.

ERROR IS MADE IN PUBLISHING JURY LIST FOR NEXT TERM

Mr. Blalock says that he derived this name from the peculiar flavor of the fruit which he compared to old fashioned apple brandy, but he did not mention how he came to know the flavor of the beverage of other days.

John Carroll came in from Portland Wednesday evening to attend the Elk's initiation ceremonies here.
