1923 STUDEBAKER LIGHT SIX SEDAN \$4550

Hidden qualities largely determine the value and life of a closed car.

Beauty of line and finish and refinements are surface indications and important ones. But your satisfaction with a closed car depends to a great degree upon factors that are unseen—the in-built qualities that come from correct design, use of highest grade materials and careful workmanship.

The 33 Series Studebaker Light Six Sedan is a quality car. It is built to endure—to give lasting satisfaction.

The 33 Series body is substantially built. It will last for years and retain its beauty and comfort. Evidence of its hidden goodness lies in the fact that down under the paint and varnish, the pillars, roof rails and supporting members are made from specially selected ash.

Four wide-opening doors make it easy for all passengers to get in or out without inconvenience to each other. A high-grade heater affords summer warmth in cold, damp days. The wide windows give broad vision in every direction.

Studebaker quality is traditional.
