## A Few Reflections In Regard to Hupmobile

**EVERY MAN** is an advocate of his own car in their self-defense unless and until it becomes intolerable.

But if you could dig down into the minds of the overwhelming majority of men who own cars, you would find that nearly all of them believe implicitly in the Hupmobile.

If they could indulge in the luxury of entire frankness without casting doubt on their own choice, they would probably say: Buy a Hupmobile.

This general attitude toward the Hupmobile is rare enough to be worth recording, because it goes to the very root of wise automobile buying.

It could not exist—this general habit of making an exception

in favor of Hupmobile high quality—if the exceptional qualities themselves did not exist in the Hupmobile.

People in the mass do not continue to see superiorities in a motor car over a long period of years, unless the superiorities are actually there.

And it is an indisputable fact that motorists in the mass do spontaneously, continuously testify to merits in the Hupmobile which make it the wisest, soundest, purchase possible in its class.

It is interesting to look back and see how Hupmobile sales have steadily advanced for fifteen years.

The Hupmobile business was neither conceived, nor

opened, on the theory of huge volume, but rather on the conviction that Hupmobile would make itself known and fix a firm place for itself through downright merit.

AND Hupmobile's total sales have gone steadily up, up, up,—its market constantly broadening—a sound, substantial, permanent thing.

All of these things should interest the buyer, because they represent precisely what he is looking for when his mind holds fast to the one safe principle of all sound buying

By the one safe principle of all sound buying we mean the principle of proven value as it exists in any good product such as the Hupmobile.

When you haul with a used truck you save money

If you get good value from your purchase. This really depends on whether or not the dealer tells you the truth about the truck.

The Roberts Motor Car Company have been in the truck business for 12 years. They have the ideal Truck and they have a reputation to back it.

When they tell you the condition of a used truck they guarantee absolutely that that truck is as represented to you. If he says they have more trucks than they can sell word to you.

They own their own building near the east approach to the Steel Bridge. It covers a half
