GAIN SHOWN IN NATION'S HEALTH

Decreasing Death Rate From Contagious Diseases in Twenty-Year Period,

Washington,-The country should ment in the health of the people be in their own state. tween 1900 and 1920, according to ice, who has just issued a bulletin on the subject.

During that 20-year period there was a marked decrease in the death rate for typhoid, malaria, scarlet fever, diphtheria and croup, tubercolosis of the lungs, meningitis, bron-chitis and all forms of pneumonia.

Heart Allments Lead. in 1920 increases in the death rates Mary Nelson and Harley Davidson. for influenza, whooping cough, cancer and other malignant tumors, diabetes, cerebral hemorrhage and softening and organic diseases of the heart.

The largest number of deaths to to organic diseases of the heart, with pneumonia, tuberculosis of the lungs. acute nephritis, Bright's disease, cancer and malignant tumor and cerebral hemorrhage and softening coming

Although later figures are not complete, the census bureau announces nine months of 1922 indicate a slightly way home. higher average death rate than for the

corresponding period in 1921. The death rate for the first pine months in 1922 to 1,000 of population was 11.7, as against 11.6 for the same nine-month period of 1921.

Table Gives Figures.

The following table gives the number of deaths and the rate in 100,000 population in the registration area of the United States by important causes for the years 1900 and 1920:

Uses Fists to Earn Way Through School

well as taking them.

Ite hem. Sage, known as "Kayo" Sage in the ring, is one of the fastest middleweights in the game, and when he's not studying law he's knocking out his tuition, frat fees and some opponent in the boxing game.

After holding Bryan Downey to a straw and beating Glen Coakley and r lot of other good boys, Sage has his eyes on the middleweight title. flis only loss so far was a foul to Jock Malone.

But when his fighting days are over Rage will take up the practice of law.

Auto Engine Fumes Are Deleterious to Health

New York .- Exhaust from automobile engines has so contaminated the air in congested traffic sections of New York city that It is deleterious to health, says a report of a committee of the New York Academy of Medieine made public. It is urged that remedial measures be devised.

Gold Output Gains.

Montreal.-Canada was the only country to show a marked improvement in gold production in 1912. The Bominion now ranks secand best producer in the empire and third in the world. In 1922 Canada produced gold to the value of \$20. 700,000, compared with \$19,400,000 in 1921 and \$16,500,000 in 1920.
