OCEANSIDE

The road between Netarts and Oceanside is being rapidly put in shape for the heavy summer travel by a crew of men under the supervision of Chas. Wells. The Fall Creek grade is being made safe by a substantial railing. The old planks on the 1-1/2 mile of road between the Worthington place and the summit are being removed and new stringers and planks put in. This will be a joy to the many tourists as well as Tilla-

moor people who use this road so much. Part of this work is being done by road Boss Cornett.

Miss Blanche Harris, teacher of the Netarts gave her pupils a picnic at Oceanside on Thursday. Their school classes will close Friday after an eight months' term.

Congress' Queer Needs Are Latest of Mysteries

Washington.—Now the capitol is confronted with another mystery. The annual report of the clerk of the house of representatives shows an amazing variety of articles, such as flasks, unbreakable pint bottles, ladies' bags, manicure sets and golf balls, bought for the house stationery room where congressmen obtain their office supplies. Curious persons are led to wonder as to office demands of congressmen.

In the exercise of congressional duties some of the representatives develop strange needs. The clerk's report shows that 319 pocket knives were bought and 12 dozen golf balls.

Congressmen are allowed a stipulated sum annually for "stationery." Many of the congressmen who couldn't use up all this money on stationery and its accessories, had the clerk buy them safety razors, clippers and clippers.

Because of this alleged abuse of the stationery fund, a rule was invoked that henceforth the practice was to stop. But the most recent annual report shows that, if anything, the rule was more freely violated than ever.

Here are some of the items:

Safety razor and razor blades, 95 ladies' bags, 71 manicure sets, 10 flasks, 20 pint size unbreakable bottles, 5 scissors sets, 3 toilet cases, 12 dozen golf balls, 4 drivers, 4 brasses, 2 mashies, 4 mashie nibblicks, 4 mid-irons, 4 putters, 126 clocks, 319 pocket knives, 24 eight-day alarm clocks, tennis balls, more golf clubs, 1 Binah case (the dictionary offers no clue as to this item), a dozen sets of carvers.

Plan British Colony in Brazil. London.—An endeavor may be made in the near future to settle 15,000 British families in Brazil.

A million acres of agricultural land have been purchased for the production of cotton, cocoa, sugar, tobacco, rubber, coffee and cattle breeding, and the mineral wealth of the region is to be explored.

Gobbler Lost Fight With His Reflection

A turkey gobbler lost his life when he engaged in a savage attack upon his image reflected in the polished surface of a new automobile belonging to Mrs. C. C. West of Delmar, Del.

The gobbler, inspecting the car, discovered what he evidently believed a replica of himself. With the fury of a game cock he swooped down upon the supposed rival. A few minutes later the disheveled and bleeding gobbler, his neck broken, was found dead in the road.

Hookworm Rages in Brazil.

New York.—Eighty-five per cent of the agricultural workers of Brazil are afflicted with hookworm and the disease has lowered the efficiency of one-third of the population. Dr. Lewis W. Hackett, associated with the international health board of the Rockefeller foundation, said on his return from South America.

Montreal Tax Largest.

Montreal.—Montreal paid the largest amount of income tax during the fiscal year to December 31, the amount being \$18,195,740. Toronto came next with \$11,742,770, and Winnipeg came third with \$4,019,309. The total collected income tax throughout the Dominion in the same period was \$55,517,222.

Wealthy Widow Heals Man's Broken Heart

The wounded heart of J. H. Buckler, traveling salesman of Minneapolis, Minn., was healed to the extent of \$500 when settlement, out of court, was reached in his suit for \$50,000 damages against Mrs. Ellen Lilly, wealthy widow, who, he says, promised to marry him, but balked after he had secured the license.
