mitral stenosis, it was explained, causes blood to back up, enlargement of the heart, painful swelling of the feet and hands, and other effects, which result in death if unrelieved. The new instrument, known as the endocardioscope, slits the valve, permitting the normal flow of blood. The operation, it was said, is simple. Dr. Duff S. Allen of the faculty of Washington university, is the inventor.

Aerial Maliman Saves Three. Salt Lake City .- Three persons who were marooned in a cabin at the head of American Fork canyon, Utah, were saved from death by an aviator of the air mail service. The aerial mailman dropped a big package of food in front of the cabin. The marooned persons had been isolated by the snow for several weeks.

administration. Two million tons of grain were unloaded in the last three months. Also labor troubles are virtually over. New labor-saving machinery has been installed on the docks, and vessels can load and noload 24

New York .- Surgeons of the Samaritab hospital in Brooklyn were elated or what they declared was the miraculous reconstruction of a shattered human body.

The case is that of Sebastian Riccobone, seventeen, who leaped five stories to escape a fire in Brooklyn on October 30. Riccobone was taken to the hospital with injuries which included:

Fractures of the spine, skull, pelvis, and right arm, paralysis of both legs, punctured bladder, and intestines and third degree burns on arms and body and hemorrhage in the spinal cord. Recently the boy walked-albeit haltingly.

Dr. Marcus Scarle, assisted by Doctors Barnet Aronson and Bernard Statton, after X-raying his injuries, treated the burns and set the broken bones. Then Riccobone was placed in a cast. Slowly the spine, smashed skull and pelvis bones knit, and then the legs recovered from paralysis.

# **The Doctor Was Right**

When the good old family doctor was asked about baking powders, he said:

"Use Royal. It is made from Cream of Tartar and is absolutely pure. You could dissolve a couple of teaspoons of Royal in water and drink it with benefit. That's a health test mighty few baking powders can meet."

The doctor was right.

Made from Cream of Tartar derived from grapes

Experts Figure Cost for Dishonesty in Nation During 1922 Was \$30 Per Capita.

New York .-- Dishonesty in the United States last year paid an army of burglars, robbers, forgers, bucketshop operators, confidence men and common thieves more than \$3,000,-000,000.

Conservative estimators place the sum at \$8,825,000,000. That is approximately equivalent to the internal revenue receipts of the federal government for the fiscal year 1922. It is greater by \$500,000,000 than the imports of the country in 1921. It is an average tax on every man, woman and child in the country of more than \$30

#### Lose \$150,000,000.

Merchants throughout the country last year, wholesalers and retailers, marked off something more than \$150,-000,000 in bad accounts. They charge this loss to operating expenses and the able hip disease, Ednest Kinnari, elev-

sum in higher rates.

During 1919 and the early part of 1920, according to an expert, piracy in the New York harbor and docks amounted to \$50,000,000 a year and probably half as much for other seaports of the country. While that loss is now reduced it is still considerable, than \$1,000,000 in robberies in 1922. Ten train holdups and twenty mailtruck robberles from April 8, 1920, to April 30, 1921, yielded bandits a haul of United States mail worth \$3,060,890. Railroads of the country last year paid claims of nearly \$12,500,000 for thefts of freight. In 1921 this loss was more than \$20,000,000.

Chicago's theft and robbery loss in 1922, exclusive of automobiles, as reported by the police department, was \$8,801,700, of which \$2,178,952 was not recovered. During 1921, in Philadelphia, with approximately 1.7 per cent of the country's population, 10,-206 robberies and larcenies were reported, with a loss of \$1,509,988, exclusive of automobiles. Of that sum \$1,269,624 was not recovered. In the same year 3,352 automobiles were stolen and 1,031, with a value of \$1,-686,716, were not recovered.

#### Autos Not Recovered.

In five cities in 1921, New York, Chicago, Detroit, Cleveland and Los Angeles, 8,420 stolen automobiles were not recovered. On one day last year, December 20, New York's list of stolen property totaled \$41,837, and Philadelphia's \$28,529-a loss for the two cities at a rate of \$25,000,000 a year. Bradstreet's records for 1922 show that 885 failures of business firms were due directly to fraud and speculation.

Every other man in the jails and penitentiaries of the country is there for a crime against property. Of the 111,498 prison population shown by the census of 1910 there were 5,000 robbers, 18,000 hurglars, 30,000 thleves. a total of 53,000.

Before the war insurance experts estimated that there were three bur glarles for every fire. Now they expect seven burglarles for every fire.

#### New Invention to Aid **Heart Disease Victims**

St. Louis .- Invention of a surgical instrument for operations upon the heart for relief of mitral stenosis, a narrowing of ope of the valves, was

Wherever motor cars are discussed, and that's nearly everywhere, somebody is sure to remark—"That Studebaker Special-Six is a regular automobile."

The Studebaker Special-Six has been on the market for four years. Each year has seen added to it such refinements and improvements as time has made possible. Today there are more than one hundred and twenty-five thousand in every-day service and we don't believe there's a dissatisfied owner.

The name was selected because comparative tests against all kinds of cars made this car stand out as something special and apart from the ordinary run of automobiles. It requires special merit to warrant calling any car a specialand if the value isn't special the car quickly fades away.

Count the "Special-Sixes" that have appeared since the arrival of the Studebaker Special-Six. That's the proof of the value of the original Special-Six.
