

PERSONAL MENTION

Fred Blum and family spent Sunday at Ocean-side.

Tillamook seems to be having a sort of a population boom. Practically all of the apartment houses are full, and there are few rooms vacant anywhere in the city.

John Mathieu of this city who recently attended the annual pioneer celebration at Champog is a son of F. X. Mathieu, whose vote on French Prairie in the early Forties decided that the settlers of Oregon should become citizens of the United States rather than those of Great Britain. The anniversary of this event in Oregon history is celebrated every year at Champog, a little village on the Willamette.

Miss Esie Willis returned Monday from a visit to her mother at McMinnville.

AGENTS FOR GRAY CAR

Terry & Hare have taken the agency for the Gray car in this city and may be found at the Tillamook battery station, where they will take pleasure in demonstrating their car to all who are interested.

ALL AROUND YEAR BEACHES

A Portland newspaper last week called attention to the fact that the Tillamook beaches can be reached over good roads all the year around, which statement, while not new to Tillamook is nevertheless interesting to the general traveling public, who like to take short week end excursions to the beaches. The same paper paid a deserved tribute to our good roads of which Tillamook is justly proud.

STR. NOTTINGHAM IS EXPECTED IN BAY

The steamer Nottingham of Seattle according to an arranged schedule, will come in the bay on the 12th of the present month, which falls on Saturday of this week, and will anchor in the channel near the Whitney mills. The Nottingham will take a cargo of lumber from the Whitney mill to San Pedro, California. Two large barges are to be used in conveying lumber from the wharf to the schooner. The coming of the schooner, will mark the beginning of many similar trips by lumber schooners from that port this year. It is predicted that many sight seers will go down from Tillamook to witness this the initial revival of Tillamook Bay's shipping, while the town of Garibaldi probably will turn out en masse to see the lumber freighter arrive.

MOHLER SCHOOL CLOSES FRIDAY

The Mohler school held its closing exercises last Friday, although the school will not really close until the last of the present week. An interesting feature was the work of the Mohler sewing club, division 2, Mrs. C. M. Young, leader. There are five girls in the club who on the above date had completed their work and turned in their report, being the first club in the county in which all members have finished their work. Officers are Gertrude Young, president; Cornelia Smith vice president; Angeline Fuller, secretary. Other members are Devine Tubbesing and Esther Stevens. Their work was exhibited, and was judged Friday by local women of the community. Devine Tubbesing received first, and Esther Stevens, second mention.

The school program was well attended, there being about 30 visitors present. Songs and recitations were given by the pupils and Superintendent G. B. Lamb delivered an address.

A ball game in the afternoon was a feature of the day, in which the boys from Camp Four and the Farmers contended, the latter winning the game.
