**WHAT IS YOUR REAL ABILITY**

"One minute essays on health by Dr. H. L. Babb"

Uncle Ben Says:

"We have two classes of parasites on American society, Nevada's the useless rich and the tramp."

Just what your real ability may be is often only dimly appreciated when a break in your health throws it into eclipse. Bad health is largely a matter of indifference or bad care. Today everyone can be healthy and sound.

What cannot be done by other methods of healing is easily and readily being done by chiropractic—the new and different healing science that is making such tremendous strides into public favor. Not to know chiropractic is to cheat yourself perhaps of the real health which you might be enjoying. Get health and your real ability has a chance.

Chiropractic spinal adjustments as given by this office have restored health in a number of cases in the past few weeks. The sufferers have been made well of diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs.

**fried BACON on that fishing trip**

Pack a generous supply of **Frye's Delicious Bacon** everything the name implies.

You'll want to fry it for breakfast with the fish you catch at sunrise, and you'll want it again with the supper fish. You'll appreciate the sweet, mild flavor that comes only when prime cuts from young pork are sugar cured just right.

Keep a side of Frye's Delicious Bacon hanging in your cooler, ready to slice for the home breakfast, ready to give a good campfire meal when the family takes supper outdoors.

**Gum-Dipped Cords Gaining New Fame for Service**

**194% Sales Increase in Last Six Months Shows Trend Toward Firestone**

The public has emphatically spoken. The popular preference in all territories is unmistakably the Firestone Gum-Dipped Cord.

A standard of service has been set by these famous tires without parallel in the past. It has brought a sales increase of 194% for the past six months over the same period of a year ago—the greatest gain in all Firestone history.

The Firestone Gum-Dipped Cord is the mighty achievement which has enabled Firestone to break the tremendous record of past Firestone success.

The tire buying public has been aroused to the results in economical mileage of the Firestone process of double gum-dipping. The buying-swing toward Firestone shows how it has advanced the public's standard of tire value.

Ask owners about Firestone performance on their cars. Note the big taxicab fleets Firestone-equipped. Watch the new cars you see—just from the factories; Firestone Gum-Dipped Cords are seen everywhere in fast increasing numbers.

Get the maximum extra mileage that only the Firestone name assures you. Only by insisting on this name can you be sure of getting the genuine gum-dipped construction.

**pay less and get more in lubrication**

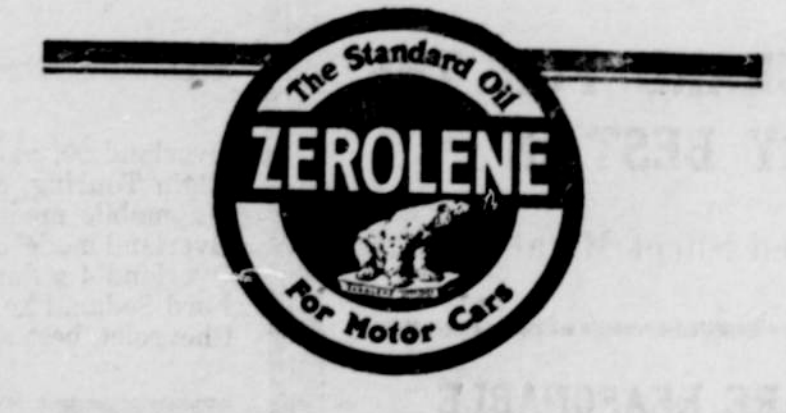

It is a fact, that the "body" of Zerolene follows the changing piston clearances of the automobile engine more closely than other oils, no matter what price they sell at.

Zerolene, made from selected Naphthenic-Base Crude piped separately to the refinery, and manufactured by our exclusive high-vacuum process, resists heat better, forms less carbon, and consequently the car lubricated with it will run from 25% to 50% farther without having valves or cylinders cleaned.

Zerolene reduces friction and wear to a greater extent than any lubricants we have seen and tested, or been able to produce for the automobile.

Insist on Zerolene—even if it does cost half as much.
