TWO ROAD PROJECTS DUE TO BE FINISHED

12 Mile Stretch In South End To Receive Much Attention

SANDLAKE IS HELPED

Nehalem Bridge Now About Ready In Position For Steel Work To Be Placed

The county court hopes to finish two projects which it has outlined and begun work on this season, namely the road from the Clatsop county line to Mohler in the north end of the county and the 12 mile stretch of road between Hebo and Neskewin in the south end. The county and the state are acting on a 50-50 co-operative basis in both cases. The state called for bids for its share of the south end work and Tillamook county was the successful bidder. From the Little Nestucca drawbridge to Neskewin the county sublet the contract to Dunn & Baker who have about 30 per cent of their contract excavated and rocked. The Tillamook county court is doing the work north from Little Nestucca to Hebo. The excavation is practically all done on this end of the 12 mile stretch and rocking was begun last Thursday. The big rock crusher at Cloverdale is furnishing the rock for the work on the north end of the project. About one mile of the entire 12 miles was finished last year, leaving 11 miles yet to be completed. The remainder of the road between the two points last named it is expected will be finished early this fall.

The Sandlake market road which leaves the Roosevelt highway south of Hemlock and ends at Sandlake school house is being worked upon at the present time with Emil Cooley, as road foreman. The project is about six miles in length and is a road that has long been needed, say those who live in that section, to give them an outlet for their produce.

Work is progressing on the Nehalem bridge which will connect the town of Nehalem with the new dike road now in process of construction from Nehalem to Wheeler. The bridge is about ready for the steel which thus far has not yet arrived.

BRIDE AND GROOM MEET HOLDUP MAN

George Murphy a driver for the Tillamook-Portland stake line, was recently married to Miss Avis Wolfe, at Vancouver, Wash., and the newly weds were coming over to Tillamook one evening last week to spend their honeymoon in this vicinity. While bowling along the highway between Newberg and McMinnville, George saw a brand new auto tire in the road just ahead and stopped. Just as he had picked up the tire, a villainous looking footpad emerged from the shadows and in a hoarse sepulchral voice said: "Youse guy drop dat tire and stick em up." A big .44 revolver that looked as cavernous to George as the opening of the Mammoth cave enforced the demand. The villain not only retrieved the tire like a bird dog but he also caused George to fork over \$25 in currency of the realm to boot. He was then allowed to join his bride and lost no time in speeding eastward. Ivan Donaldson, to whom the tale was told in strict confidence is authority for the statement that the bride hid her wedding ring in her mouth during the hold up, and became so perturbed over the affair that she nearly swallowed it; but we don't believe all of that. When the honeymoon is over George who is one of the crack drivers for the company will take over the old job, but he will keep an eye peeled for the scoundrel who relieved him of the \$25.

L. Peterson, formerly a dairyman and ranch owner in this city, but now a resident of Salem, was in the city Monday on business.

COMPANY IS FORMED BY LUMBERMEN

Rumor Says That There May Be Built New Logging Road For Improved Plant

The Tillamook Spruce company with a capital stock of \$100,000 and headquarters in Portland has been incorporated by C. F. Swigert, W. E. Barnes and Geo. Schott, all prominent Portland business men of means. C. F. Swigert is president of the Portland Bridge Co., and was at one time interested in a street car system in Portland, and is at the head of and is interested in several manufacturing and other business concerns in the metropolis of Oregon.

C. F. Adams, said to be a director of the new company, is vice president of the First National bank of Portland, and W. E. Barnes, a well known lumber man of the northwest, is the manager of the new company and who is personally directing the work of the company at the mill near Juno. The mill under the management of Mr. Schultz, the former proprietor, had a daily cutting capacity of 38,000 feet, and it is believed under the new management the mill will be improved to do much more. It is said that the timber acquired by the purchase of the Schultz interests will cruise between 30,000,000 and 40,000,000 ft. of timber. Rumors are in circulation that among the improvements will be a logging road, but the report lacks confirmation by the new management. Enough, however, is known to warrant the belief that the new concern will eventually be one of the leading lumber producing concerns of the county and that it will have much to do with the future increase of lumber cutting in this section, and at the same time increase the already big county lumber payroll.

STEALING AUTOMOBILE BRINGS PRISON TERM

Sheriff John Aschim last Monday took Willis Hart to the state penitentiary where he will serve a term not to exceed five years for stealing an automobile from Arthur Loerpabel of Mohler and bringing the machine to this city where he was arrested. He was indicted and upon arraignment in Circuit Court plead guilty and was sentenced by Judge Bagley. Hart, who is a young man, recently was an inmate of the State Industrial school, but was paroled and now his offense takes him to the penitentiary.

Commenting upon the case of young Hart, an official this week said: "The young fellows who have been in the habit of taking other people's autos out and keeping them, without permission, all night or from one to two days or nights as the case may be should take heed of the example of Hart or they may be taking the same kind of a trip."

LOCAL STAGES LEAVE FROM CENTRAL POINT

All the stages except one, will hereafter leave from a common central stage depot in this city according to arrangements recently made with the Tillamook-Portland stage company at which place the departures and arrivals will be made. The stage lines involved are the Tillamook-Portland, Tillamook-Manhattan, Tillamook-Wheeler and Tillamook-Netarts. All of these stages will operate daily including Sunday except the Tillamook Manhattan and the Tillamook-Wheeler lines, which for the present are not operated on Sunday.

BROTHERS ARE HURT AT ABOUT SAME TIME

Ivan and Forest Gist of below Cloverdale were in the city Tuesday where both were treated at the Robinson hospital for injuries received on the same day. Ivan sustained a cut in the foot while chopping with an axe and Forest had a shoulder hurt by being thrown down by a cable operated to a stump pulling machine.

Wm. Gilbert of Beaver had business at the court house Tuesday last.

CIRCUIT COURT THRU FOR ANOTHER TERM

Three Pay Fines Of \$500.00 Each For Liquor Case Tried In Court

ARMBRUSTER SET FREE

Apsley Gets Decision Over Accident Commission For Injuries In Mill Last January

Circuit court adjourned on the 7th inst., after transacting the following additional business:

Fred D. Small, Louis Aufdermauer and Clark Hadley who were indicted on a charge of unlawful possession of intoxicating liquor were arraigned on the 7th inst. and all plead guilty to the charges. The court ordered that each of the man pay a fine of \$500 and the costs of the trial and in default of such payment that they be committed to the county jail for a period of not to exceed 250 days each; the Court paroled each on payment of \$50 and the costs of the trial.

Earl Cook vs. Bell & Toney, action for money; verdict for the plaintiff.

State of Oregon vs. C. A. Armbruster, indicted on charge of having intoxicating liquor in his possession; jury trial, defendant acquitted.

A. A. Apsley vs. the State Industrial Accident commission, on appeal from the decision of the accident commission; jury trial; verdict for the plaintiff. It is understood that Mr. Apsley will receive compensation from January last, the time of his injury in the mill at this place.

Lizzie Churchill vs. W. O. Churchill, action for divorce; decree for plaintiff.

B. J. Stevens vs. Verna L. Stevens, divorce granted to plaintiff.

LATH MAN IS INJURED AT A. F. COATS MILL

While engaged on a lath machine in the Coats mill one day the latter part of last week, a splinter the size of a lead pencil was thrown from the saw which entered the right hand of Ralph Eadus, passing through a portion of the thumb and entirely through the palm of the hand and protruding at the back of that member, inflicting an ugly wound. Eadus was placed under an anesthetic and the splinter was cut out at the Roals hospital.

LOCAL PEOPLE OFFERED WONDERFUL BARGAINS

Turn to page four, Readers, and glance over the articles offered under the Headlight's Friday Bargain Sale. Listed there you will find many things you have been looking for and at prices that should make it a crime for you to pass them up. Everything from real estate to underwear, automobiles to books and at REAL bargain prices. There is a distinct purpose in offering these articles and they were priced to sell. You'll be sorry all summer if you pass them up.

The way to obtain these bargains is to mail your order to the Bargain Manager Headlight or call Main 68 and ask name of the dealer. It is very simple and saves you money. Don't put it off until another day. DO IT NOW.

DEMENTED LOGGER IS SENT TO SALEM

Harry Fitzroy was examined before Judge Homer Mason Saturday as to his sanity. Complaint came from the Coats logging camp that Fitzroy had been acting queerly and he was taken in custody by the sheriff and examined by Drs. Robinson and Boals. He was found to be entirely deficient in memory and could not tell when he was born and did not know how long he had been in this state. He seemed also to be suffering from a species of melancholy and was committed to the state asylum for the insane.

MOHLER MAN KILLED BY FLYING CABLE

Chas. Briggs, a young man 18 years of age was instantly killed by a donkey engine cable at Camp Four at Brighton camp Tuesday at 9:30 a. m. Briggs was working near the hook tender in the logging camp when the cable caught on a small tree, pulling the tree over, the released wire striking the young man on the head crushing his skull. County Attorney Goyne and coroner Henkle went up to Camp Four from this city and made inquiry into the manner of the death with the result that an inquest was not thought necessary. The body was brought to the morgue in this city and prepared for burial and on Wednesday the remains were forwarded to Gates, Oregon, where interment will be made. It is understood that deceased is survived by a brother and a sister who reside at Gates. This is the second almost similar accident and death in this county within a few days, the other case being that of George Fowler who was killed at the Tillamook Spruce Co.'s logging camp last week.

CITY CALLS ELECTION TO FINISH ARMORY

Question Of Completing Funds To Be Passed On By People

ELECTION DAY IS JULY 2

Many Organizations Will Benefit By Erection Of State Building Now Being Contemplated

A special city election has been called to occur on July 2nd, 1923, when the legal voters within the city will pass upon the question of voting bond for the sum of \$5000 to be used in the construction of an armory building for this city, in conjunction with the donation of the block 1 in Maple Grove addition, which the city is acquiring by purchase from the Dwight estate making altogether a lump sum of \$10,000 for the above purpose by the city. The county has pledged another \$10,000 making the total of \$20,000 required by the state. From this county to match the \$20,000 appropriated by the state of Oregon at the last session of the legislature for the erection of an armory in this city. Provided bonds are voted for the \$5,000 required by the city to make good its amount of the cost, the building will become a certainty and work upon its construction will begin soon after the bonds are voted, thus assuring Tillamook of a large meeting place for the city public and other big fraternal conventions and other big gatherings can be held thereby advertising the town and bringing large crowds from outside points with adequate room for entertaining and at the same time affording a home for the local company of O. N. G. and its equipment. Much interest is evinced in the coming election by those who take the view that the armory building has now become a public necessity, and that it will fill a long felt want in the matter of the housing economy of the city on public occasions.

DATES ANNOUNCED FOR COUNTY FAIR

The twelfth annual county fair will be held on September 11, 12, 13, 14, 1923. The fair book will soon be ready for the printer. It is the intention of Secretary Pine to have the premium list distributed at the earliest possible date.

TIMBER DEAL CLOSED AT \$1,500,000 PRICE

Timber Said To Cruise 5,000,000 Feet Located On Headwaters Of Wilson River

Approximately 6000 acres of timber lands lying in Washington and Tillamook counties changed hands this week, when the Crossett Timber company of this state, with mills at Wauna and Big creek on the lower Columbia, paid to the Edmund Hall Land company, of Detroit, Mich., the sum of a million and a half dollars for a tract of timber in township one north, range 6 west of the Willamette meridian, which is said to cruise 5,000,000 feet. Most of the timber involved in this deal lies in Washington county, according to county assessor Johnson of this city, and is situated on the headwaters of Wilson river.

The tract is adjacent to the Gales Creek Logging company now being operated by the Crossett people. The timber in question lies close to the railway route surveyed from Washington county to Bay City on the line of the railway acquired some time ago by the Northern Pacific and the Great Northern railway companies.

AUTOMOBILE TURNS; OCCUPANTS HURT

About 6:30 Tuesday morning, and automobile containing three men from Salem, Carl F. Dixon, Warren Lensley and Walter Eberhart, skidded on the curve this side of Pleasant Valley and turned over, landing in the ditch by the roadside. Eberhart was beneath the car but was released by his companions, who beyond some minor bruises and cuts were not injured. Eberhart was brought to this city by Dr. Robinson when it was found that he had received a dislocation of the right hip. He is in the hospital, receiving treatment and probably will not be able to leave for some time. The men say that they were not going at a high rate of speed, but that the slippery condition of the highway caused the machine to skid with the above result. All of the men are members of the Salem fire department and came over to Tillamook on a fishing trip. The automobile was badly wrecked.

BEALS HOLSTEIN COW HAS BUTTER RECORD

CHICAGO, June 9, (Special)—The advanced registry office of the Holstein-Friesian association of America reports a creditable record of milk and butter production of a purebred Holstein owned by F. R. Beals of Tillamook, Oregon.

Lady Dora Aggie Pontiac, a five years and four months old cow produced 705.9 lbs. of milk and 20,192 lbs. of butterfat, equivalent to 25.2 lbs. butterfat in seven days.

A certain standard of production is required according to age and length of test before a cow is admitted to the Advanced Registry. Cows with official records of production sell easier and higher than those without, as shown by a survey of sales.

GLASS IS REMOVED FROM FOOT OF BOY

A piece of window glass over an inch in length and averaging an eighth of an inch in width was taken from the right foot of Leon Messersmith, son of Fred Messersmith of this city, between the heel and instep, by Dr. Robinson on last Tuesday. The glass had been in the foot for four years and had begun to work out. It was imbedded in the flesh while the boy was going barefoot and beyond occasional twinges of pain had given no serious trouble. The boy refused to take an anesthetic but fainted at the conclusion of the extraction. He soon recovered and walked home glad to be rid of his unwelcome tenant.

W. E. Haney of Berkeley, California, who recently completed a visit with Claire Small of this city, left for his California home Saturday morning.

LOCAL GUARDSMEN WILL LEAVE TONIGHT

New Experience For Many Of The Men In The Local Unit

OVER EIGHTY MEN LEAVE

Company K Again Heads List Of State Units For Drill In Month Of May

This evening, by 10 o'clock, Tillamook's soldiers will have departed for two week's training at Camp Lewis, Wash.

It will be a new experience for many of the boys, as the biggest percent have never attended a military camp before. However, there will be enough veterans to set the recruits on the right track and keep their feet in paths of righteousness, according to army rules.

This morning the men are to assemble at the armory in the high school gymnasium building at 9:30; first call at 9 o'clock. Then they will be completed as regards equipment and their clothing and packs will be gone over thoroughly to see that nothing is left behind that will be needed. After that there will be some company property to pack and get aboard the train which will consist of two tourists and one baggage car, for Company K is going to camp in style quite unlike the old coast artillery company that left here in 1917 which had to sleep all night in chair cars. They will not have to change cars at Portland for the Tillamook unit will simply be attached to a train leaving for Camp Lewis from Portland at 9:45 tomorrow morning. There will probably be breakfast waiting in Portland tomorrow when the Tillamook men roll on at 6 p. m.

Incidentally Company K won the highest place again last month for attendance. This is getting to be somewhat of a bore for the Tillamook men, who, by this time, fail to get excited at such honors bestowed upon them. Company K will leave here with over eighty men in ranks.

It is very unlikely that it will be found necessary to leave a provost guard to pick up stragglers, but if it is these men will be arrested and taken to Camp Lewis and court martialled by the camp authorities. A Los Angeles newspaper has the following to say regarding the way slackers and stragglers are handled by the California National Guard:

"Twenty-five members of the 160th Infantry, California National Guard, were arrested today at their homes and places of business in Los Angeles and vicinity and booked at the city jail on charges of failure to attend drill, a violation of the California penal code, punishable by a maximum sentence of 60 days' imprisonment."

"The arrests made today were in furtherance of a campaign started two months ago by the National Guard officers to enforce orders to the men to attend regular drills of the local unit. Approximately 60 men had been arrested previous to today."

LAMAR BUYS LOTS FROM J. A. TODD

J. S. Lamar of this city this week closed a deal for the J. A. Todd property, consisting of a rooming house and 52 1-2 feet of ground facing on First street, between First and Second avenues. A short time ago he purchased the Alex McNair property adjoining his drug store, consisting of 24 1-2 foot frontage and a store building facing on First street, and adjoining the Todd property. The purchase of the two lots gives him a whole quarter block with an 88 foot front on Second avenue and in the near future, plans to build a modern drug store on the tract. The consideration was not made public.

Miss Margaret Shearer of this city accompanied by Miss Bessie Hunter of Cloverdale are attending the Eastern Star convention at Portland this week.
