OUR EDITORIAL POLICY

- 1. To advocate, aid and support any measures that will bring the most good to the most people.
2. To encourage industries to establish in Tillamook county.
3. To urge the improvement of a port for Tillamook City.
4. To insist on an American standard of labor.
5. To be politically independent, but to support the candidates for public office who will bring the most good to the people of Tillamook county and of the State of Oregon.

FRIDAY, JUNE 22, 1923

Two men from the country were sitting out in an automobile in front of a drug store in Tillamook one day this week, when one of the men said: "Wait here a minute, I hear a new jazz tune in there!" A moment later he came back with the remark: "I thought it was a new fangled jazz tune on a phonograph, but it was only a fellow mixing up a milk shake with one of those patent shakers." It is pertinent here to say, by way of comment, that there isn't much difference in the two noises.

What's the difference between a Portland rose and a Tillamook rose? Years ago, Portland people sent out a special train to beg roses from towns outside that city. When they got all the roses they wanted for the show they stated in the newspapers that all of the roses exhibited at the show were grown in Portland, which made some of the good housewives of the interior towns rather angry.

Governor Pierce fired the state game commission the other day and appointed a new one. Some of the fellows who were turned into the road from a good state pasture are howling and trying to stir up "the people." Governor Pierce begins to look like a real governor. If he will fire a few more old commissions and put in some new blood "the people" won't holler. Its the politicians who do most of the hollering.

Accidents in logging camps seem to be on the increase. The donkey-engine cables are deadly things when the conditions are favorable to their mutilating force. It is the unlooked for thing that happens, and limbs, stumps and rotten old snags all figure in the results that maim and kill.

Our soldier boys have gone, but they will return in a couple of weeks. Different from the day when they marched away in 1916-17 to face the bell of fire that confronted them on the fields in France. It is well to be prepared for war at all times, but there is a deep seated hope and feeling in them inds of men that war is a thing of the past. But who can tell

Tillamook's Co. K, O. N. G., has in its ranks a minister who is a private guardsman. He will set the example of a soldier who after being "marched uphill and down again" about forty-seven times a day, will wash his tired feet at night and then roll into his blankets and thank his Creator that he is alive.

The bays of Oregon opening upon deep water are just now entering upon a revival of shipping which for many years has been practical a dead letter. Last week Tillamook bay mills sent a big load of Oregon fir lumber to San Francisco. This week the big mills at Toledo, on Yaquina bay, sent

another big lumber schooner to the same port with over a million feet of lumber, and others are to follow after the ones that have gone. Coos bay is shipping large cargoes every week and lumber schooners in the coastwise trade will soon be a common sight. It is a good sign of the return of prosperity on this coast. All sorts of business along the coast is active and the coast towns are building and new business enterprises are being launched.

Now comes the vanguard of the summer tourists but not as of old. Alas, to the detriment of our summer camp proprietors and store keepers, too many of them bring their portable stoves, and grub and sleep in the auto on a free camp ground provided by the hotel man, the restaurant man, the hardware man and the grocery man. And many of them leave the free camp ground strewn with tin cans, greasy and ill smelling empty cans and other noisome litter. The least any tourist could do would be to clean up the camp grounds like a real gentleman.

The pestiferous midnight tom cat who chooses to do his caterwauling when people most desire to sleep in peace, is almost as much a menace to sleep as the midnight automobile fellow who sleeps all day and joy-rides all night.

A man has invented a new collar button that will land right side up when it falls on the floor. That's nothing. The kind of collar button wanted by us men is one that will button itself and a collar that will not hold a necktie until the man gets mad and temporarily loses his religion.

A sage of this county recently delivered himself of a remark that ought to be framed in gold. It was this: "A man's needs are few, but his wants are many."

From Exchanges

That appreciation of the advantages of a short route to the coast is not confined to this side of the Coast range is indicated by a column article in last week's Tillamook Headlight which emphasizes what cutting 40 miles from the route from Portland to the coast means, especially now that the Roosevelt highway is an assured fact. The Headlight points out that to reach the highway on the upper end from Portland tourists must travel 124 miles to Seaside, while the state road from the metropolis to Tillamook is 112 miles long. A feature in the proposed road which has appeared since Washington county began its reconnaissance survey this year is that support for the road, providing its starting point is in the upper Gales creek valley as originally proposed, is appearing in the Nehalem valley and intervening country where there was opposition at first. This district is without an outlet to the coast except over difficult roads to the lower Columbia highway or by the inland highway, and many residents see development possibilities with an added short route that would tap the Roosevelt highway in Tillamook county.—Hillsboro Independent.

The only loggers operating on the south fork who dump their output into the river and depend upon high water to float them to tidewater is Elliott & Ashmun at Knudson. The firm is composed of D. S. Elliott and D. H. Ashman, the former is an experienced western logger and the latter came here from Colorado about a year ago. The outfit is operating on the Schiffman place, eight miles east of Wheeler. The camp is located about a mile from the station but on a county road.

The company has been operating about a year and have around 1,500,000 feet in the river now. It will take until January 1 to log the remaining 8,500,000 feet which is mostly high grade fir.—Wheeler Reporter.

Columbia county is having a new

timber cruise. One month has been devoted to it so far. Does it pay? It certainly looks like it does. Only nine sections have been cruised during the month of May by Cruiser Clark and of these nine sections the old cruise showed only 54,637 B. million feet, while the new cruise shows 159,410 B. million feet. Increase of 104,773 M. or a net increase of 191 per cent. That surely helps some, and looks good for Columbia county. Guess we can pave Bridge street from Rose avenue to the Nehalem river, if we have to.—Vernonia Eagle.

The steamer Robert Johnson sailed Saturday at 2:30 p. m. for San Pedro, Cal., with a cargo of one and one-half million feet of lumber from the big mill at Toledo. This was the initial shipment by water of the Spruce corporation and its success will set at rest any question of Yaquina Bay not being a deep water harbor. As anticipated the Str. Johnson carried the million and a half cargo on a draft of only 17 feet while she could have been safely loader to 19 feet though her normal draft is 18 feet. She was piloted out by T. W. Davis. It is expected that trips to San Pedro can be made every twelve days.—Yaquina Bay News.

The cheese making industry of Lincoln county is developing in a very satisfactory manner. Two co-operative factories are turning out 500 lbs of first class cheese daily and it is reported that several other plants are soon to be in operation in different sections of the county. In the very near future cheese making in Lincoln county will be second only to the lumber industry.—Yaquina News.

MRS. A. HAEDINGER

On Monday, June 9, at two in the afternoon, a large audience gathered at the Presbyterian church at Cloverdale to pay their last respects to Mrs. Albert Haedinger. She was the wife of Albert Haedinger, a prosperous and well liked dairyman of the south end of this county. To know the lady was to love her, for she always had the good of all at heart, and was ready at all times to help those who were in trouble. She had been ill for several weeks and about two weeks ago was taken to Portland for treatment. A few days later her husband was called to her side where he remained till the end. In the last hours of her life the gates of Heaven were opened and she told those around she was satisfied. Then she crossed that Beautiful on each side of which stands the Tree of Life, and entered the city where there is no night nor need of the sun for Christ is the light of it.

The bereaved husband and children wish to thank the many kind friends for their kindness in this hour of trouble. The address given by the pastor of the Cloverdale Presbyterian church was grand for the occasion. His text was James 4:14. Life is only a vapor. He warned the living to prepare for that day which would come to all. Mrs. Haedinger leaves a husband and eight children, a father in Switzerland and a sister and brother in Portland. May God comfort those that are left and may they all meet some day in that City of Love.—Contributed.

S. S. PICNIC AT FAIRVIEW

Sunday schools of all denominations held a union picnic at the Fairview grange hall last Wednesday. Large representations were in evidence from Tillamook, Nehalem, Wheeler, Woods and Cloverdale, while there were a number from Bay City, Garibaldi, Hemlock and other points. The leading feature was a masterly address by E. E. Cisa, state secretary which was highly praised by all. Each Sunday school had a number on the program, and instrumental music and singing enlivened the literary exercises. Following the forenoon program came a luncheon. Each community had a table and food was served in cafeteria style in ample quantities and in variety. It was estimated that fully 350 persons were present. The picnic is notable in that it is the first time in the history of the county that all protestant Sunday schools have so united, and the same

unity will be observed next year. Following luncheon came the athletic sports which are greatly enjoyed by the youngsters as well as the onlookers.

BOXING EVENT JULY 3rd

Matchmaker Mann has arranged a great card for the night of July 3. Joe Powell of San Jose, Cal., will meet Young Carmen in the main event of 10 rounds. Both have a list of wins and knockouts as long as a man's arm and they need no introduction to the general public and are high priced boxers and there will be action in plenty. The six round semi windup will be Lewis Johnson, against a good boy yet to be selected. The six round special will be Ed Holdreth of Brighton vs. Young Ford of Tillamook. Four rounds will take place between young Ellingsworth and young Bennett, both of this city. The battle royal will be a whiz with five men in the ring, the last one up to get the money. Mr. Mann states that the main event will be as good as you would see in any big city.

SCHOOL ELECTION HELD

The regular annual school election was held in this city last Monday to choose a director to succeed H. H. Rosenberg, whose term as director was soon to expire. The result of the election was that Mr. Rosenberg was chosen to succeed himself. He received 104 votes for the office of director and C. A. McGhee was elected clerk by a vote of 97. The tally sheet does not show that either had any opposition. Mr. Hannenkratt was chairman and W. A. Church judge of the election and Esther Munson and Mrs. Merrel Smith were the clerks. A small vote was polled.

COUNTY STUDENTS WIN

For some time past the State Dental association has been offering prizes to the several counties of the state for the best essays on how to promote the care of the teeth and the effect of bad teeth upon the general health. Those who won \$10 each in this county were Earl Radley of district No. 13, Hebo, competing in the 7th and 8th grades, and Helen Daniels of district No. 24, Mohler, competing in the 5th and 6th grades. Checks to cover the above amounts were mailed the winners this week, in care of the county superintendent. It is understood that the dental association has expended \$1500 in prizes during the past year.

A SQUARE SHOOTER

Isn't it true that the call of the Outdoors is the call of the trees? The hospitalities of Nature mean little except when associated with living trees. Horses couldn't drag you to a hunting trip in a treeless wilderness; a fishing trip by a treeless lake; or a camping trip in a treeless valley.

Last summer hundreds of campers in Oregon struck an unfair blow at the rights and privileges of fellow campers, fellow sportsmen and Nature lovers, by starting many disastrous forest fires.

Many camping groups failed, to put out their camp fires and cigarettes. Such personal acts killed the camping fishing and hunting over many square miles. Don't be a kill-joy. The fellow who follows after you will enjoy your precautions or suffer because of your carelessness. Today's

camp fire may destroy a township of timber by tomorrow.

Enjoy the woods. There is nothing to fear except fire and seldom fire either, except what you start. All big fires start as little ones.

A minute's care may save a century of waiting. Put out your camp fire, cigarettes and matches—take a few such decent precautions—be a square shooter.

COUNTY VET BEGINS ANNUAL TESTING TOUR

J. N. Shaw, county veterinarian, has begun his annual testing tour of the dairy herds of this county, a job which will take a big part of the summer. Last year he tested approximately 13,000 head of milk cows. He is now at Neskowin cheese factory where he will stay until all the dairy cows of that section are tested, when he will move on to the next nearest factory, finally getting into the Tillamook district. Later he will go north and test in the north end of the county.

SOMETHING NEW IN CANNING

"Something New in Canning" will be the topic of talks and demonstrations to be given by Miss Lindman of Philadelphia and Miss Amelia Bengtson of Muncie, Indiana, canning specialists who will be in Tillamook July 6. Miss Lindman and Miss Bengtson are being brought into the county by Miss Helen Cowgill, assistant state club leader to meet with canning clubs and anyone interested in canning work. As they can stay only one day there will be an all day meeting and it is hoped that there will be a good attendance at that time.

MRS. SARAH KRAKE

Mrs. Sarah Krake, for 21 years a resident of this county, died at her home in this city Monday, June 18th, of septicemia. Deceased is survived by Louis H. Krake, the widower and seven children in the immediate family and her father and mother, Mr. and Mrs. L. P. Gray of Blaine, besides two brothers in this county and one in the U. S. navy. Sarah Gray was born April 13, 1890, in Hastings, Colo. and was 33 years 2 months and 4 days of age at the time of her death. Following the funeral services at the chapel, the remains were interred in the I. O. O. F. cemetery near this city on Wednesday last.

SOCIETY EVENTS MANY

Mrs. Geo. Winslow and Mrs. Sam Greene were hostesses for the J. U. G. club Wednesday, June 13th at the home of the former. A pleasant afternoon was spent in sewing after which a delicious luncheon was enjoyed by all. Guests of the club were Mesdames Alvin Wicklund, Boals and Faxon.

Members present were: Mesdames Small, Foster, Stanley, Hanslmair, Case, Nichols, King, Beltz, Christenson and Williams. The club adjourned for the usual summer vacation to meet again in September with Mrs. Fred Christenson and Mrs. Clent King.

The L. D. club met June 15th at the home of Mrs. A. Harris with Mrs. Mathers assisting hostess. The following members were present: Mesdames E. G. Anderson, Boone, Bunn, Gabriel, Hosley, Leach, O'Dell, Styles

White, and two guests Mrs. Ralph Bennett and Mrs. J. A. Langtry. An enjoyable afternoon was spent. Refreshments were served. The club adjourned for the summer months to

meet again in September.

The recent spell of cold weather has given away to warm sunshine and the gardens are growing fast.

Advertisement for Lillian Tingle, featuring the text: LILLIAN TINGLE, SAYS In Answer to an enquiry regarding diet: "Then probably you could use more milk to advantage. You mention only two quarts daily for two children and two adults, one of whom is trying to gain weight. The children would do well to have a quart or nearly a quart each, and you should have a pint at least for yourself and from a pint to a quart (according to his special needs and his assimilation) for your husband. Then with the increase of milk you can easily cut down your meat and egg bill. A good rule to remember is that for every extra half pint of milk used in the daily diet the other protein foods, such as meat, eggs, fish, cheese, may be reduced by two ounces without any dietetic loss. Milk is usually the least expensive and the most easily served and assimilated of all the protein foods." ORDER YOUR MILK FOR YOUR TABLE FROM GOLDEN ROD DAIRY Both Phones Erwin Harrison, Prop.
