## The Studebaker Light-Six

was designed by Studebaker engineers and is manufactured in the NEW STUDEBAKER PLANTS AT SOUTH BEND, IND., which are notable in design, size and equipment for efficient and economical manufacture.

The South Bend Plants contain 4,875,000 square feet of floor space.

They employ 12,000 persons.

They cost \$33,250,000.

The South Bend Forge Plant cost \$4,000,000, which alone is more than the total assets of many of the automobile companies.

### Vast Resources Make Possible High Value at Low Price in Studebaker Light-Six

Studebaker's vast resources are utilized to manufacture (not assemble) the Light-Six complete in the newest and most modern large automobile plants in the world.

The Corporation's resources, consisting of \$85,000,000 of actual net assets, including \$45,000,000 of plants, make it possible for Studebaker to offer a six-cylinder car, at less than \$1,000, that is emphatically superior in design, construction, performance, comfort and dependability, to any car within hundreds of dollars of its price.

By complete manufacture, Studebaker not only guards the quality of each part, but saves the middlemen's profits, with the result that no other make of car ever built, by anyone, at any price, represents so great a dollar-for-dollar value as the Light-Six.

Evidence of its mechanical superiority is found in its practical freedom from vibration. This is accomplished by the perfect balance of the motor. Perfect balance is obtained largely through the complete machining of all surfaces of the crankshaft and connecting rods. This requires 61 precision operations.

This method is followed exclusively by Studebaker on cars at this price. In fact, very few other cars have this feature, and their prices are from three to ten times as great as that of the Light-Six.

It is significant, therefore, that the sale of more than 80,000 Studebaker cars during the first six months of this year broke all records.

Buyers are justified in expecting more for their money in a Studebaker than in any other car.

### Whale Wrecks Big Fish-Pond When Caught

Vineyard Haven.—The fish pond of Allen and Ernest Flanders of Chilmark in Vineyard sound is a strong one, but it wasn't made for the purpose of impounding so big a sea-going monster as a whale.

When the Flanders brothers went out to their traps they discovered that one of the animals of the kind that swallowed Jonah had practically wrecked their pond.

The lashing around of the mammal broke off several stakes, tore the netting so badly that it will take several days for repairs, and in addition released probably hundreds of pounds of fish from the pond.

The whale escaped and the brothers came in shore to tell the story and exhibit the torn netting as evidence that the big fellow had wrought the damage. The whale entered the traps through the opening which is eight feet wide.

### Find Spectacles More Than 125 Years Old

Piqua, O.—Three pairs of spectacles, over 125 years old, have been discovered in the home of Mrs. O. R. Mullendore. They were the property of her great-grandmother, Mrs. Jane Brown Patterson, who came with her husband, Robert Patterson, from Ireland to Piqua in 1818, where the two settled on a farm.

Two pairs of the eyeglasses are of German silver, while the third is of brass. Unlike most modern glasses, they serve only to magnify the object upon which they are focused.

Mrs. Mullendore still is occupying the farm upon which the Pattersons settled in 1818. It was purchased from the government.

Japs Importing Artificial Silk. Yokohama, Japan.—While Japan is the largest exporter of natural silk, she is importing artificial silk for her own purposes. Last year 134,000 pounds of this commodity was brought to this country from England, France and Switzerland.

Woman Makes Furniture. Potsdam.—Frau Mein Mary Peschlow of Nowoges, is the first woman in Germany to pass a successful examination as a cabinet and furniture maker. She will work actively at the trade among all men artisans.

### Finds Gas Shut Off; Can't Keep Bargain

Chicago.—Oscar Schultz, whose cheese store recently was closed by his creditors, walked into a police station and asked to be arrested for breach of contract. He explained he sold his \$1,000 insurance policy to Arnold Heft for \$5, with the promise that he would go home and commit suicide by gas. After receiving the \$5 in a saloon he wended his way homeward to turn on the gas.

"I wish to be arrested for breaching a contract," he said. "I promised to commit suicide, but I ain't paid my gas bill and the company turns it off. My \$5 is all spent—no pay, no gas, no gas, no die."
