OUR EDITORIAL POLICY

- 1. To advocate, aid and support any measures that will bring the most good to the most people. 2. To encourage industries to establish in Tillamook county. 3. To urge the improvement of a port for Tillamook City. 4. To insist on an American standard of labor. 5. To be politically independent, but to support the candidates for public office who will bring the most good to the people of Tillamook county and of the State of Oregon.

FRIDAY, JULY 27, 1923

Thousands of tons of berries will be wasted in Oregon this year because canneries are not running, owing to the high price of sugar and molasses syrups and a corner on tin containers. It seems too bad that a few men can thus hold up the whole country by speculating in the necessities of the people. And what seems still stranger is the fact that no effort is being made by the government to curb the rapacious profiteers who have made such conditions possible. Small wonder that the people are becoming dissatisfied with the law mak-

ing body of the country which seems to be unwilling to antagonize big business by attempting to curb it. The producer is the one who suffers the most. The farmer, the berry raiser, and the small acreage man with his fruit and garden stuffs is at the mercy of the organized dealers. If republicans and democrats see alarming potentials in the Minnesota election there is a reason. The people are getting tired of the rule of the big and little profiteers and the Minnesota election was in the nature of a protest. The politicians care nothing for the masses. They get their patronage from the big and destructive combinations of capital that live off the producer and set prices which the latter are to receive for the products of their toil. Our farming and laboring masses are good loyal Americans and as such have a right to protest against being plucked by the buccaneers of wealth who use their money to exploit the vital and essential producer.

Billions of feet of Douglas fir, spruce, hemlock, cedar and other forest trees are standing in Tillamook county. The dry weather season is approaching and the roads and fishing and camping grounds in the mountains are filled with campers. Will they heed the notices that are placed along the roads warning of the danger of fire from carelessness? They should, or they are not fit to travel. This timber means employment for thousands of men annually; it means a big payroll for Tillamook county; it means business and prosperity for every man who is in business; for every clerk or other employee in the towns and coast cities; it means taxes to aid in the county government; it is a part and parcel of the whole state prosperity. Is this not enough to cause the camper or the fisherman or hunter to be careful about fire? The man who is wantonly careless should be punished and heavily punished for inattention to the published rules which are posted everywhere in the woods. Before you leave camp BE SURE that there is no danger of the wind fanning the slumbering embers of your camp fire into a destructive blaze. Millions of dollars depend upon your carefulness. Be sure; don't guess or assume. Know that the fire that cooked your camp meal is absolutely out, and bring water from the creek near by and make

sure. Then you know that you are not the cause of sweeping flames that leave a wreck of forest in their wake. Now is the time to be careful, be you a home guard or a transient fisherman or camper.

Up in Alaska two powerful corporations are fighting each other to a finish to control the resources of the country and President Harding is trying to stop the fight. If it were a dog fight or a prize fight or a rough and tumble fight it might be stopped, but it is a case of money fighting money and the most money will win. The president should view the scenery shoot a big bear or two, climb the glaciers and take a reindeer ride and get a rest. Nobody can stop a fight between dollars, but the most dollars.

An exchange of climate is all right. There are Oregonians who like to spend the winters in California. There are Californians who like to escape the intense heat of California in the summer time and who find that Oregon's summer climate is just the thing. Many Californians are coming here to spend the summer months at the beaches and once they try it they will come again, and eventually form the habit. They are welcome. May their numbers increase.

Mr. Daugherty has filed a suit against the International Harvester company in which he demands the separation of the company into three distinct companies. Mr. Daugherty puts the public in mind of a rabbit attacking a bull dog. Let's all take a laugh.

Magnus Johnson of Minnesota has defeated J. A. O. Preus for U. S. senator, winning by several thousand votes. Preus was the republican candidate and Johnson was the Farmers-Labor candidate. Johnson quit the hay field to learn of his election and after taking a hearty laugh, went back to the farm and began to make more hay doodles. We are getting to be a real democracy, aren't we?

Hundreds of tourists are coming in to the Tillamook beaches. Those who come have expectation written on their faces; those who return have both realization and regret in their

faces. There is something compelling about our beaches. They somehow get into the blood of the tourist and each season sees them coming again.

America has no room for Italian Fascists. No Mussolinis are wanted. The good old American system that Lincoln loved and that Roosevelt stood for are good enough for us. Neither do we want immigration from foreign countries faster than we can make good American citizens of them.

Tillamook ranchers are harvesting the largest crop of hay they have had for a number of years. Early breakfast and a late supper rule during the hay harvest on the farm.

Two men were discussing how to save the loganberry crop. One proposed that the berry growers make logan juice out of them. The other man knocked the proposition silly, by stating that even logan juice would take sugar and the matter was dropped.

OFFICIAL GOVERNMENT TIDE TABLES

These tide tables were compiled by

the U. S. Government for Astoria, Oregon, as a standard port of reference. To find the exact time tides occur for the various parts of Tillamook county make the following subtractions in minutes:

Table with columns: Place, High, Low. Nestueen Bay .27, Tillamook Bay .36, Nehalem River .31

Tides for week commencing July 14, 1923:

Table with columns: HIGH WATER (A.M., P.M.), Saturday 28, Sunday 29, Monday 30, Tuesday 31, Wednesday Aug 1, Thursday 2, Friday 3

Table with columns: LOW WATER (A.M., P.M.), Saturday 28, Sunday 29, Monday 30, Tuesday 31, Wednesday Aug 1, Thursday 2, Friday 3

C. H. Woolfe and family started on an auto trip last Wednesday with Canada as an objective. They expect to be gone several weeks.

Complete set of Abstracts of the Records of Tillamook County

Watch What Happens!

Lubricate your automobile with Zerolene, which costs about half what you pay for many other oils, and watch what happens.

First, you find that your gasoline bills are lower. Repeated tests have demonstrated that, other factors being equal, the car lubricated with Zerolene makes about 5% better gasoline mileage than cars lubricated with other oils.

Second, your car goes from 25% to 50% farther before you need to grind valves or remove carbon. This fact, too, is fully substantiated by numerous tests.

Insist on Zerolene—even if it does cost less.

STANDARD OIL COMPANY (California)

30% less CARBON 5% more gasoline mileage

AJAX TIRES

SATISFACTION is assured when you use Ajax Cords. They combine high mileage and fine appearance with reasonable cost.

AJAX COPD, ROAD KING, PARAGON

M. R. TERRY, TILLAMOOK, ORE.

IF YOU COULD LOOK INSIDE THE COOLING SYSTEM OF YOUR CAR

BEFORE

A poor cooling system causes the engine to get too hot and expand which in turn gives piston too much play room resulting in scored cylinders and defective rings. It also causes an engine to use too much oil and gas on account of a lack of perfect compression. No more use for weeping radiators.

HAVE IT CLEANED OUT NOW

By the use of Tyroc Guaranteed Radiator Cleaner, we can give your cooling system a positive and thorough cleaning that will remove every vestige of foreign matter without laying up your car.

Have this job done now and rest easy.

AFTER

LILLIAN TINGLE, SAYS

In answer to an enquiry regarding diet:

"Then probably you could use more milk to advantage. You mention only two quarts daily for two children and two adults, one of whom is trying to gain weight. The children would do well to have a quart or nearly a quart each, and you should have a pint at least for yourself and from a pint to a quart (according to his special needs and his assimilation) for your husband. Then with the increase of milk you can easily cut down your meat and egg bill. "A good rule to remember is that for every extra half pint of milk used in the daily diet the other protein foods, such as meat, eggs, fish, cheese, may be reduced by two ounces without any dietetic loss. Milk is usually the least expensive and the most easily served and assimilated of all the protein foods."
