IT IS A POSITIVE FACT

That a large percentage of business failures is due to lack of advertising. More failures in merchandising lines have been traced to this one cause than to any other.

Does this mean anything to you Mr. Non-Advertiser? Do you think that your business is any different from the other fellow's? You may believe that you have a divine dispensation which will allow you to succeed while working along antiquated lines, but we doubt it.

Better not take a chance. Let the Headlight figure with you on some publicity work.

BABY'S LAST HOPE

"One minute essays on health by Dr. H. L. Babb"

Uncle Ben Says:

"An insurance policy, Nevy, is an instrument for keeping your widow out of the wash tub."

Until she was 7 months old all went well with baby—the first—and then suddenly her food would not agree. It would come up or when passed in the natural way, showed perfect evidence that no portion of it was being digested. And so, slowly, the child was starving to death. The parents changed frantically and hopefully from one food to another.

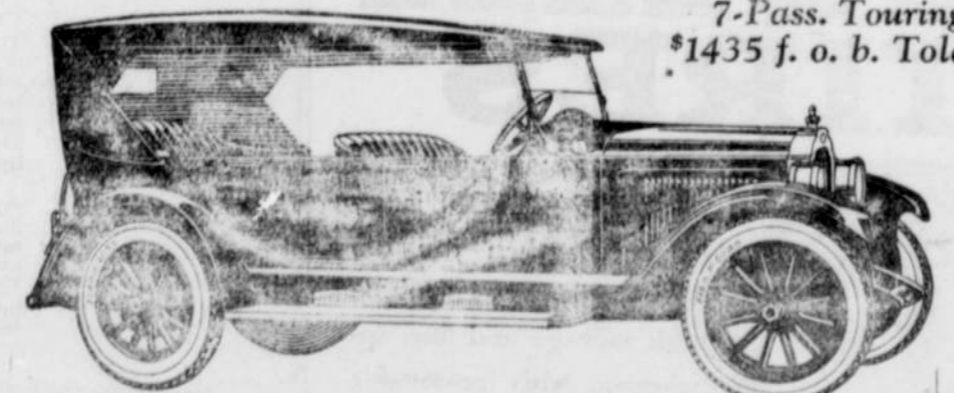

Then a broad minded specialist on giving up the case said "you might try a chiropractor—a good one." And the baby got well. Something had disturbed spinal bone alignment and nerves to the stomach were affected. The adjustments saved her.

Chiropractic spinal adjustments as given by this office have restored health in a number of cases in the past few weeks. The sufferers have been made well of diseases of the eyes, ears, nose, throat, lungs, heart, stomach liver, kidneys, bowels and lower organs.

HEALTH FOLLOWS CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:
