

# FOR RENTAL HOUSES OR APARTMENTS--FURNISHED OR UNFURNISHED

We are having inquiries every day for houses or apartments. We cannot supply the demand. People are coming to Tillamook City every day and cannot get any housing accommodations. This is a serious matter and largely effects our business interests and the commercial growth and development of this city.

## FIFTY HOUSES NEEDED NOW

To relieve immediate congestion and build up the community. 100 more houses would be filled with goodtownspeople within the next six months if completed. What are you going to do about it to build up your town? What have you to offer to rent? Help us to help you locate the other family who wants to make their home here. **PHONE or SEE**

### LOCAL MISSOURIAN WRITES BACK HOME

John Lamar, wife and daughter, arrived safely in Fulton, Mo., there both Mr. and Mrs. Lamar lived many years ago. In a letter recently received by his son Howard Lamar of this city, Mr. Lamar states that many of the people of that section have never heard of Tillamook cheese. Some of them think Oregon is up in the state of Washington, and they "have to be shown." Quoting from his letter, our John says:

"I was surprised that many of the people here have never heard of Tillamook cheese. Upon the urgent request of the W. C. T. U., I spoke on the subject of Tillamook cheese for four and one half hours, after which the choir sang: "Blest be the tie that binds." I also saw what I believed to be some Green Gage plums on a small tree; and as I used to like them when I was a barefoot boy hunting coons on the Ossawatimie bottoms, I ate two of them before I discovered that they were green persimmons. I had a date to talk to the Kiwanis club here on "Oregon cheese, and How She is Made," but I was in no shape, and sent word that I was sick. A committee from the society for the Amelioration of the Condition of the Downtrodden African, called on me, and wanted me to lecture on "Til-

lamook Cheese and Ocean Breeze," but I said I would send them a cheese and let it talk for itself, I am talked out. I understood that there was to be a story in the Headlight about Doc and Rollie riding home from Portland in a hearse, but I guess the reporter must have got cold feet."

### ANOTHER WORLD RECORD

The class AAA championship is still in Oregon, but has been appropriated by another cow. The latest title holder is St. Mawes Pretty Lady 432998, owned by L. C. Daniels, Tillamook. This great Jersey started her second official test at 4 years 1 month of age and produced in 305 days 12,657 pounds of milk and 827.90 pounds of butterfat, exceeding any production so far made by a Jersey in the 305-day division. Lady calved on July 1 last, thus completing her requirements for class AAA and a medal of merit and silver medal. This is the second medal of merit to be won on a 305-day test and both medals are held by Oregon cows. The first medal of merit winner being La Creole's St. Saviour's Belle 390543, the de-throned queen in the 305-day division. She is owned by Will J. Behrmann, Jr.—Oregon Farmer.

### TRUCK LOAD LIMIT EFFECTIVE OCT. 15

On September 24 the highway commission issued an order to reduce the loads of trucks and other heavy cars on state highways a clear cut of 25 per cent of their maximum carrying capacity. The order is effective from October 15th of this year, to April 15 of the coming year. The maximum load between the two dates above given will be 16,500 pounds. Highway affected by the new order are: Medford-Crater Lake, Ashland-Klamath Falls; Bandon to Curry county line; Corvallis-Newport; McMinnville-Tillamook; Neskowin-Hebo; Tillamook north, and others. Most of the complaint, states the board, comes from the coast counties. The greatest damage to the highways is experienced in the winter months when the ground is full of water, and when there is more liability to pavement damage than at other times from overloading. The order also reduces the weight from 600 pounds to 450 pounds on 30-inch tires, and on tires under 30 inches now having a max-

imum of 500 pounds, the order makes a reduction to 375 pounds.

Persons most affected by the new order are logging operators and sawmills, but it may extend to the big oil tanks.
