OBITUARY

Sarah Ann Deel was born in Clinton County, Illinois Feb. 21, 1831. Amidst the rigors of pioneer life she developed into a young woman of the sterling christian character. March the 22nd 1849 she was married to John L. Mason. To this union were born eleven children, nine of whom survive her: George W. of Louisburg, Kansas, James M. of Agra, Kansas, John H. and Oscar Lincoln, Mrs. Hattie Gibbins, Mrs. Belle Lewis of Los Angeles California, Mrs. Lillie Weather of Windsor, Mo., Mrs. Mettie Gibbons of Corvallis and Mrs. Sara Bays of Beaver, Oregon. She was a mother, grandmother, great grandmother and great, great grandmother. Of the eleven children, forty grandchildren, fifty two great and four great great grandchildren, survive her. She lived an active life up to seven months ago. She always considered it a privilege and joy to serve. Rest came Wednesday evening Sept. 12, at eight o'clock at the home of her daughter, Mrs. Sarah Bays, Sunday, Sept. 16; she was laid to rest at Corvallis by the side of her husband who preceded her nearly thirty years ago to the Great Beyond. Her book of life is closed. She left behind for our instruction the lessons of a beautiful life. As the day faded into night and she closed her eyes in sleep it was to open them anew where the day eternal dawn. "Hers was not to die and go we know not where." We rejoice in the confident hope that she has entered into rest from the toil and care and pain and sin and grief incident to this life, into the rest of the redeemed in Christ. "Blessed are the dead who die in the Lord."— (Communicated.)

AUTOMOBILE SMASH IS CAUSED BY FOG

Last Monday morning at about one o'clock, "Plink" Butts and Chas. Ekloff collided with their automobiles at the corner of Third street and Miller avenue in the fog. Both were seeking to make the same turn. Butts held up a hand as a signal for the turn, but Ekloff apparently did not see the signal, and smashed Butts' fender and the running board on one side. Ekloff sustained a bent fender. No one was hurt. Ekloff assumed the blame, and will repair the damage.

SCHOOLS INCREASE, SHOWN BY REPORT

The various districts of the county have sent in their reports for the school year, and Superintendent G. B. Lamb has made up his annual report which shows a substantial increase in enrollment and attendance during the year as compared with the report for the former year.

The school population of the county according to the census for 1922, was 3024, being an increase of 8 and 3-10ths per cent over that of the previous year. According to the super-

intendent's annual report, the increased enrollment in schools for the year ending June 1923 was 313, or an increase of 17 per cent. The increase in the average number belonging for the same year was 420, or 24 per cent of increase. The increase in average daily attendance was 424 children, or 26.5 per cent. The increase in school population in the county for the five year period ending June 1923 was a little more than 25 per cent. The teachers' salaries in one room schools for the year ending June 1922, was \$116.25. In 1923 the figures were \$101.00. In schools of more than one room the salary was \$129 in 1922, and in 1923 it was \$120. The average monthly salaries of principals in the county were practically the same for the two year period.

Next week there will appear a further report of the county superintendent for 1923, over former years which should be interesting to those who are concerned in the matter of school progress, and general education.
