#### JAPANESE CURRENT INVESTIGATION MADE

John W. Bigblow of Washington, D. C., a scientist of high degree, passed through Tillamook Friday, in company with Prof. Smith, a Portland Notice is noted in the last will be teacher, who used to go to school with ther seaward, and in that way we are and testament of John Theiler, de- Mr. Bigblow at Amherst college,

Seen by a Headlight reporter in one of our hotels for a short time, it was learned that the scientist is quietly ment is placed. It is easy when you State of Oregon, for Thiannook Country, has fixed Monday the 29th day of to determine whether the Lorenzon coast know how, and we do not have to go to determine whether the Japan curourt House in Tillamook City, Ore-Japan earthquakes. He stated that ng objections to said account. All it had been definitely ascertained that the Japan current had moved over 100 miles to the west of its original course along the California coast. He is now on a tour of investigation along the Tillamook and Lincoln counexecutor of the last will and testa- ty coast to see whether the old course which is about twenty miles to the west of the Tillamook coast, has recently been changed.

The current, according to the scientist, has been gradually tending further west for several years past, which action has resulted in an abatement of the old time Chinook wind, to a measurable extent.

Said Prof. Bigblow: "The further west the current is changed by Notice is hereby given that pur- seismic action, the colder your clint to an order and license issued mate will be in winter, and the hotter of the County Court of the State it will be in the summer time. I am OrOegon, for the County of Tilla- told your climate is changing out ordegon, for the catalog of here.
