## KEEP YOUR BOY AT HOME

### Pick Your Entertainment Out of the Air

If there is one thing in the world that will keep your boy interested and at home, it is a Radio.

He can experiment with it in a hundred different ways—keep in touch with the world and what is happening and entertain not only himself, but the entire family.

With the super-sensitive "No. 1" the world is at your elbow—operas, concerts, public speeches, market reports, news flashes and last-minute sports results.

For the "NO. 1" is a proved instrument—inspected and tested by competent radio engineers. And this, combined with its simplicity in operation plus its ability to "bring in" all sounds clearly and distinctly, makes the "NO. 1" the greatest single achievement in the radio field today.

This instrument is a combination tuner and audion detector. It consists of an inductance coil, variable condenser, Bradleyst rheostat, V-T socket, grid condenser and leak. These parts are mounted on a panel of di-electric composition. The surface is ground, the binding posts marked and the whole mounted in a cabinet 10 1-2 inches wide, 7 inches deep and 8 inches high. Cover is fitted with nickled hinges and latch. The cabinet is hardwood, Adam Brown Mahogany finish. This set was designed to supply the demand for a medium-priced, efficient receiving set having a wave length range from 150 to over 600 meters. Ship stations on the Atlantic coast are easily copied in towns several hundred miles inland on this set, while radio concerts and voice from Pittsburgh, Detroit, Chicago and other phones are regularly copied in Iowa City, except under adverse conditions.

NOTICE:—We are putting on a 'RADIO' Advertising Campaign and until the close of the campaign as indicated below we will give Advertising Certificates to the amount of all purchases at our store. The person collecting and depositing with us the greatest amount in these Certificates by the close of the Campaign will be awarded the free "NO. 1" Radio Receiving Set. In event candidates tie for the Set, each will be awarded a free Set.

You should begin collecting Certificates today. Get your friends, relatives and neighbors to help you and you will be a winner.

### ROCKAWAY BEACH IN DANGER OF WAVES

Rockaway, Ore., Oct. 16 (Special)—Rockaway beach just experienced the heaviest wind storm and high tide since 1915.

The breakers rolled over the railroad track at the station and down some of the main streets, but no damage was done.

Not since Barview washed out in 1915 has the tide been as high or the sea foam as deep. From all indications there is a severe storm at sea as the salmon are running in schools and the ducks are hunting for the small lakes.

### NEW BAYOCEAN ROAD PROMISED SUPPORT

At the regular meeting of the Kiwanis club Wednesday, the matter of the Bayocean road came up for discussion and was referred to one of the standing committees for disposal, not, however, before the members had signified their unanimous approval of the county court finishing the project this coming summer.

Another matter for action by the club was produced by A. W. McComb when he mentioned the coming convention of the state editorial association which is scheduled to take place here in July. The executive committee was instructed to consider plans for the entertainment of the convention.

Two grand lodge heads who reside in Tillamook, John Aschim and C. W. Barrick, were called on for short addresses. A comic reading was given by L. Stivers, an evangelistic singer.
