During the big storm of Wednesday of last week many persons in this city, confessed that they did not sleep much during the noise. Leaky roofs, a fear that electric wires might start a fire, and the rattling of windows, and the howl of the hurricane were also contributing causes that made sleep fitful. Many old timers here say that the storm was one of the worst ever experienced here.

A few trees fell across the Netarts road, but were taken out Thursday, and traffic was resumed over that thoroughfare to the beach. Netarts reports the biggest storm that has occurred for some years. The high tide drove across the road at Fall creek, and made that road impassable for a time.

The Kilchis river was the highest last Thursday for many years. Great masses of solid drift came down the stream, and considerable of it lodged at the mouth of the Possetti channel, which for some time past has been diverting the main current of the river. The lodgement of this big drift will tend to restore the river to its old channel, and thereby furnish more water through the old river course. Jams up the river were blown loose with giant powder, which cleared the stream for some distance.

JINX TRUCK UPSET AND HURT DRIVER

The Oregonian truck which has had three upsets during as many months this winter, went off the grade last Monday morning one and half miles north of Dolph, and in the mixup that ensued Jack Curry, the driver, sustained three broken ribs, cuts on the face, and bruises on the side of the head. A man who was riding with him had his nose broken, with other minor injuries. It is reported that the road was icy, and that the big truck in making a turn skidded, struck the side of the road and went over on its side. The accident occurred on the Dolph hill. Curry was taken to his home in Willamina, where he received medical attention. Lloyd Hennessy, a Portland driver for the Dufur company came out from McMinnville, secured a jitney and brought in the Oregonians to this

city. About six weeks ago, one of the proprietors of the Dufur line was thrown out of the same truck between Tillamook and Hebo, and received a broken leg and other injuries that kept him in a local hospital for some weeks. It is believed by some of the superstitious boys of the road, that the Oregonian truck is followed by a red-headed, one-eyed, malicious jinx that seems to take a delight in shunting the unlucky truck in to the ditch and putting the drivers on the blink, so to speak. While the old truck has helped out the local news man with accident news, every so often, it is getting to be a monotonous occurrence with the drivers.

FORMER TILLAMOOKER RECIEVES HIGH REWARD

A former grade school boy has been awarded the Rhodes scholarship to Oxford college, London, England, for 1924, winning out before the board of examiners last Friday at Eugene. The successful competitor for the Rhodes scholarship is William A. Rosebraugh, who attended the grade school in Tillamook, and later graduated from the University of Oregon, with high honors. He also attended the Oregon Agricultural college for the space of one year. Rosebraugh had a splendid record of scholarship and of participation in athletics. While at Corvallis he was awarded the scholarship cup given by the Sigma Chi fraternity of which he is a member.

The board who passed on his merits in competition with other aspirants, was composed of Dr. P. L. Campbell, University of Oregon, Dr. Richard F. Scholtz, president Reed college, secretary Dr. W. C. Barnes of the University of Oregon, and Dr. J. E. Harrison of the University of Washington.

He will go to Oxford next October with his Bachelor of Arts degree, and probably with a Doctor of Jurisprudence degree. He expects to graduate from the law school at the U of O college next June.

Young Rosebraugh's father was a United Brethren preacher and was a resident of Tillamook for about four years. The son was in the eighth grade of the common schools here when his parents removed to Salem. In school here young Rosebraugh showed well up in his studies, and appeared to take a deep interest in the work. He and Charley Lamb were

neck and neck as top notchers in class work. The father of young Rosebraugh later left church work, and engaged in the foundry business in Salem, where the family now resides.

THE PREACHER, THE DAM AND THE FISH

"You must be on your good behavior this evening, George, for the minister is to take dinner with us," said a Hyattsville lady to her young half, as he got home from his office in the city last Thursday.

"What have you for dinner?" queried the husband.

"Well, I know he is fond of fish, so I bought quite a string of river fish and several larger ones from the dam."

"I'm not much at doing the house when we have a minister at the table, and a blessing had been asked by the minister. A little more, the head of the family was dishing out the vegetables, and, turning to the guest, said:

"Will you have some of the river fish, or would you prefer some of the dam big fish?"

The warning kick under the table from his wife was unnecessary. He knew he had blundered, and beads of perspiration started on his forehead.

"I mean," trying to repair the error, "will you have some of the dam fish or some of the big fish?"

Worse and more of it. His daughter slyly pulled his coat tail to bring him to his senses.

"That is, would you like some of the river fish or some of the dam fish?"

The deep carnation spreading on the good lady's face didn't plead matters a bit, and, with a gasp, he pleaded in once more:

"Ahem! Which of the dam fish do you prefer, anyway?"—Washington Star.
