MARKET ROAD WARRANTS (Continued on page 4)

AFTER W. S. S. WHAT?
January 1, 1924, is the date of redemption of the War Savings Stamps which you purchased in 1919. After this date they draw no interest.
Bring your stamps now to this bank. We will redeem them for you—or, better still, will accept them for deposit in your account.
Wouldn't it be a good idea to put them where the money will not stop earning interest? Just ask us about it!

Better Balances
It would be easy to make a rather bad pun on the word "balance"—for an adequate bank balance gives stability to you and your work, and stability MEANS balance.
Determine for 1924 to build up a sufficient and efficient balance here at the Tillamook County Bank. It means better credit, better business and an emergency fund for opportunity or misfortune alike.
TILLAMOOK COUNTY BANK
TILLAMOOK, OREGON.

Whichever You Choose —You're Right
Willard Wood-Insulated Batteries originally established Willard reputation, and are today the finest moderately priced batteries made.
Willard Threaded Rubber Batteries are the biggest single improvement in battery-making since the early days of the automobile, and the outstanding choice of car-builders.

The New Touring Car \$295 F.O.E. DETACH
A Striking Value—at \$295
Considering the improved appearance of the new Ford Touring Car, one would naturally expect a proportionate advance in price.
Larger scale production, however, has made it possible to incorporate in this new type touring car a number of decided improvements without increasing its cost to the purchaser.
A comparison extending over a long period of years will reveal the fact that the present price is actually the lowest at which the five-passenger open car has ever been sold.
The Ford Touring Car stands today, as it always has, a most remarkable value in the motor car field.
This Car can be obtained through the Ford Weekly Purchase Plan
