

PEOPLE OF TILLAMOOK COUNTY

With the beginning of 1924 everything points to a year of unprecedented progress and unusual prosperity for this community. The signs are right for this to be the biggest year in every way for Tillamook county. Not only will the expected natural increase take place in trade and travel but 1924 will see a great opening of latent resources and the establishment of new industries and the development of additional business and agricultural projects.

We have one of the best and richest countries on the face of the globe; let nothing shake your faith in it; let nothing blind you to the fact that this is **YOUR** community and that it is entirely to your interest to help in every way its progression.

Keep your money in Tillamook county. Cash sent to other parts of the United States does not help pay **YOUR** taxes--nor does it build up **YOUR** home, **YOUR** town or county. Community progress is directly in proportion to community interest.
