

SEEN ON THE STREETS

G. M. Dawson, now in the grocery business in this city, has sold his residence in Garibaldi to E. D. Severance of the latter place.

Tillamook business men and citizens are preparing their income tax for the federal and state governments at this time.

J. Higley went down to Garibaldi last week to move the White House cafe building to a lower level on the street.

Arthur Ramsey, a manager of the Tillamook Bay Fish company, has returned from a trip to California, whither he went some time ago in the interests of his health.

The Methodist church ladies held a basket social in the basement of the new Methodist church yesterday evening. The men had to buy a basket and eat with the owner of the food container. A very social time resulted.

R. W. Catton, formerly with the Union Oil company at this place has been transferred to the Portland territory and he and Mrs. Catton left for the latter place last Sunday.

Henry Gerdes has been quite ill at his home in the city this week but at last reports is improving.

Mrs. Harry Thomas, Mrs. Robert Stillwell, Mrs. Halsey Pangborn and Mrs. Jake Breeden were a party who spent last week end at the beach at Oceanide.

Ed Cary, prominent Carlton Jersey breeder, is in the city buying cattle for a loan company. Mr. Cary is very well known among dairy circles of the state.

The Tillamook county cow testing association will hold its annual meeting and election of officers February 6 at one o'clock in the afternoon either in the court house or in the creamery association office. The exact place is not yet determined.

J. E. Reedy held a public sale of cattle for Wood brothers of Blaine in Tillamook last Thursday. The cattle were largely grades, and averaged about seventy dollars per head.

The S. P. train came in Thursday from Portland, the big slide near Marthville having been cleared up so as to allow the passage of the trains. Considerable freight has accumulated at this end of the road since the lockade of the last two or three days.

It is said in the Portland papers that the S. P. will discontinue Sunday runs, known as the "red cars," hereafter on Sundays out of Portland, owing to the operation of passenger automobile busses, and the patronage of those vehicles instead of travelling by railroad.

Tea-Pot Dome seems to be bothering the old republican guard quite a bit, since Senator Walsh of Montana, nearabout such a large slice of fraud in connection with public oil lands, and which is now said to implicate Secretary Denby and Mr. Daugherty and possibly others of the present republican cabinet. And the democratic rule is hoisting his tail in the air and braying joyfully. The Tea-Pot dome badge will be worn by the democrats this year as a campaign ornament, designed to throw a jolt of foam into the ranks of the republican reactionaries, who believe that "to the victors belong the spoils," and almost everything else that isn't securely nailed down in what is left of the public domain. That Tea-Pot Dome should erupt just at this time is one of those sad things in this feverish life.

1923 HIGHWAY BONDS REACH HIGHEST MARK

According to the annual statement prepared by State Treasurer O. P. Hoff, the total bonded indebtedness of the state of Oregon on December 31, 1923 was \$60,246,830.

Highway bonds top the list with obligations aggregating \$38,395,250. World war veterans' state aid bonds total \$20,000,000, district interest bonds \$1,401,580 and rural credit bonds \$50,000.

CONOVERS STORES WILL CONSOLIDATE

F. and S. W. Conover who operate two grocery stores in this city are preparing to close their cash business and are selling the goods from the place. The store now run as a grocery store will be closed within the next few days and the store in

the Beals' building will care for the Conover trade.

MOLE GAS NOT SUCCESSFUL

The experiments that were tried here by a representative of a chemical company with the use of cyanide gas to eradicate moles is reported unsuccessful. Several fields were treated with chemical, but the results were

been recommended for Tillamook farmers.

The men who conducted the experiment expect to return in the fall and try the gas again, it is reported.

SODOTOL TO BE HERE SOON

The 24,000 pounds of sodotol order-

ago from the government is expected to arrive here within a few days. The shipment was made from Dupont, Washington.

This amount of explosive will be used in clearing stump lands in the county. As soon as the order arrives County Agent W. D. Pine states that a new order will be made up among the local farmers for shipment.

LAST YEAR WARRANTS NOT GOOD FOR TAXES

An opinion rendered recently by the attorney general is to the effect that warrants issued prior to January 1 can not be used to pay this year's taxes, and the sheriff has been instructed to refuse them for that purpose. It is understood, however, that 1923 warrants may be used to pay last year's taxes.

When baby needs a pair of shoes, I wonder what store ma will choose, for that partic'lar size! When father must dress up his folks, in Easter hats or all-wool cloaks, who wins this gladsome prize? What lucky dealers get the cash that people spend for plows and hash; for clocks and luscious pies? Just look these very columns o'er; you'll find an ad from every store that's owned by Tradesmen wise. They offer things you want to buy at prices low for values high; their goods delight the eyes. Their plan's not new; they learned the trick when Pharaoh had but just one brick—"Be Prudent—Advertise."

TILLAMOOK HEADLIGHT

On the first page of a four page dining car menu, the Pennsylvania Railroad is advertising to its patrons the fact that "a new plan of coordinating motor truck and railroad transportation facilities was recently inaugurated on the Pennsylvania Railroad system. What is known as 'less-than-carload' or 'package freight' is handled as far as practicable between Philadelphia, Pa., Wilmington, Del., and intermediate stations in motor trucks instead of in local freight trains. It is believed that this new method will bring about greater efficiency in handling. This kind of freight and so relieve railroad facilities as to expedite also the handling of long distance and heavy shipments in regular railroad freight service."

Railroad systems, as such, have looked askance at the great road building programs ever being initiated by states and helped by the federal government. Their managers have believed that the more good roads, the more freight hauling would be done over them by truck, and therefore, the less freight there would be for the railroads. Proponents of roads and trucks have argued that the highway transport would relieve the railroad of the unprofitable short haul and by creating more business, create more freight for the long haul.

Friends of highway transport and hard surfaced roads are enthusiastic over the conversion of the Pennsylvania Railroad to the idea that the good road and the motor truck are cooperators with, rather than competitors of, the freight car.

NOTICE TO FARMERS

We are still handling the famous Moline farm implements and machinery. Anticipate your wants along this line and call and see us and get our prices before buying. We can save you money. Try the Moline plan and let us convince you.

WILLIAMS & WILLIAMS

WORLD'S LARGEST CHAIN DEPARTMENT STORE ORGANIZATION

RELIABLE QUALITY GOODS ALWAYS AT LOW PRICES

OPPOSITE SUNSET GARAGE TILLAMOOK, ORE.

It's Not Altogether a Matter of Price

Deciding to buy a certain article just because the price is little, is not necessarily saving money.

If the article is of good materials and reliable workmanship and the price is little for such quality, then you have made a real saving.

The standard of our goods is uniformly reliable and it is because of this fact that our low prices afford you savings that are extremely difficult to match.
