FUR TAKING IS PROFITABLE

Considerable money has been made by trappers in this county this winter. One man recently caught an otter, two mink and a bob-cat in one night. Quite a bit of money is coming in to farmer boys as a result of trapping activities, and it is understood that good prices are paid for prime furs. Much depends, say trappers, on the way the skins are prepared for shipment. Buyers are critical, and some of them are fair and square, while others, according to reports, are not even fair, let alone being honest. Most of the fur buyers are located east of the Rocky mountains. A business man of this county while talking upon the subject of trapping in this county, recently stated that the amount received by trappers each season amounts to many thousands of dollars. He estimated that at least five hundred people of this county, trap each season, and many attend to farm and other work besides trapping.

BOTULINUS CASES RARE

Dr. J. C. Geiger of the University of Chicago and Dr. Frederick Strickler, state health officer, are investigating the soil and home conditions at the Gerber place, where the dinner at which 12 people were poisoned from eating home-canned string beans infected with the toxin created by the presence of botuline bacteria, was held February 2.

Dr. Geiger said recently the botulism spore is probably abundant in all gardens but that it does not develop in acids, saturated sugar or extremely alkaline environments and that consequently the jellies, fruits, pickles and foods prepared with sugar syrups in the home are not endangered by the botulism spore. Dr. Geiger added, "There is no reason for panic in connection with the Albany botulism case. Cases of this kind are extremely rare and conditions must be ideal and unusual for deaths to result."

WARFIELD IN SHAKE-SPERIAN PLAY

E. J. Claussen of this city went out to Portland last Friday afternoon, and saw the celebrated actor David Warfield in action at the Heilig theatre in "The Merchant of Venice." He reports that he was more than pleased with the histrionic ability of Warfield, who by some critics is now classed with the elder Booth as an interpreter of Shakespearean roles. It is to be hoped that Shakespearean plays will come-back. The public has been surfeited with jazz vaudeville altogether too long. Shakespearean plays appeal to a class who do not as a rule patronize vaudeville and who demand something of an intellectual nature for their entertainment.

Basket ball game; T. H. S. vs. Newberg. Tillamook started the game with a rush, hooping two free throws before Newberg fairly knew what was happening. One of these was made by Thomas at center the other by captain Tippin. Newberg, however, quickly tied the score and gradually forged ahead until at the end of the first half the score stood Newberg 15; Tillamook 6. After the rest period, the local boys started to playing real basket ball and came very near tying the count. The game ended Newberg 19; Tillamook 15. Newberg had a very good scoring aggregation and it is very gratifying to know that Tillamook's team composed chiefly of green men held them to such a close score. With even breaks T. H. S. ought to break into the win column when she plays Hillsboro on the home floor Friday.
